Introduction to the ITIL service lifecycle Office of Government Commerce, Great Britain. Office of Government Commerce, 2010-05-12 This official introduction is a gateway to ITIL. It explains the basic concept of IT Service Management (ITSM) and the place of ITIL, introducing the new lifecycle model which puts into context all the familiar ITIL processes from the earlier books. It also serves to illuminate the background of the new ITIL structure. This title introduces ITSM and ITIL, explains why the service lifecycle approach is best practice in today's ITSM, and makes a persuasive case for change. After showing high-level process models, it takes the reader through the main principles that govern the new version lifecycle stages: governance and decision making, then the principles behind design and deployment and operation and optimisation.

Service Operation based on ITIL V3 Management Guides Jan van Bon, Arjen de Jong, Axel Kolthof, Mike Pieper, Ruby Tjassing, Annelies van der Veen, Tienieke Verheijen, 2008-06-15 Well designed and implemented processes are of little value when the day to day fulfilment of these processes is not well organized. Nor are service improvements possible when the day to day performance measuring and data gathering activities are not fulfilled systematically during the Service Operation. The goal of Service Operation is to coordinate and fulfil activities and processes required to provide and manage services for business users and customers with a specific agreed level. Service Operation is also responsible for management of the technology required to provide and support the services. The
