Sustainable Building Adaptation Sara J. Wilkinson, Hilde Remøy, Craig Langston, 2014-04-07 How to adapt existing building stock is a problem being addressed by local and state governments worldwide In most developed countries we now spend more on building adaptation than on new construction and there is an urgent need for greater knowledge and awareness of what happens to commercial buildings over time Sustainable Building Adaptation innovations in decision making is a significant contribution to understanding best practice in sustainable adaptations to existing commercial buildings by offering new knowledge based theoretical and practical insights Models used are grounded in results of case studies conducted within three collaborative construction project team settings in Australia and the Netherlands and exemplars are drawn from the Americas Asia Japan Korea and Europe to demonstrate the application of the knowledge more broadly Results clearly demonstrate that the new models can assist with informed decision making in adaptation that challenges some of the prevailing solutions based on empirical approaches and which do not accommodate the sustainability dimension The emphasis is on demonstrating how the new knowledge can be applied by practitioners to deliver professionally relevant outcomes The book offers guidance towards a balanced approach that incorporates sustainable and optimal approaches for effective management of sustainable adaptation of existing commercial buildings Catalogue systematique des ouvrages Commission of the European Communities Bibliothèque centrale scientifique et technique, 1963

Ways to Study and Research Taeke M. de Jong, T. M. de Jong, D. J. M. van der Voordt, 2002 The design of urban architecture is examined in this detailed and illustrated book which takes a look at the economic technical context of design as well as the political cultural and ecological considerations **The Indoor Environment Handbook** Philomena Bluysen, 2009-12-01 Winner of the Choice Outstanding Academic Titles of 2010 award Ensuring that buildings are healthy and comfortable for their occupants is a primary concern of all architects and building engineers This highly practical handbook will help make that process more efficient and effective It begins with a guide to how the human body and senses react to different indoor environmental conditions together with basic information on the parameters of the indoor environment and problems that can occur It then moves on to give a background to the development of the study and control of the indoor environment examining the main considerations including thermal lighting indoor air and sound related aspects for a healthy and comfortable indoor environment and discussing the drivers for change in the field The final section presents a new approach towards health and comfort in the indoor environment where meeting the wishes and demands of the occupants with a holistic strategy becomes the overriding priority The book is filled with useful facts figures and analysis and practical methods that designers who are keen to assess and improve the user experience of their buildings will find invaluable Building Knowledge, Constructing Histories Ine Wouters, Stephanie Voorde, Inge Bertels, Bernard Espion, Krista Jonge, Denis Zastavni, 2018-09-05 Building Knowledge Constructing Histories brings together the papers presented at the
