Critical Approaches to Teaching the High School Novel Crag Hill, Victor Malo-Juvera, 2018-10-25. This edited collection will turn a critical spotlight on the set of texts that has constituted the high school canon of literature for decades. By employing a set of fresh, vibrant critical lenses such as youth studies and disabilities studies that are often unfamiliar to advanced students and scholars of secondary English, this book provides divergent approaches to traditional readings and pedagogical practices surrounding these familiar works. By introducing and applying these interpretive frames to the field of secondary English education, this book demonstrates that there is more to say about these texts: ways to productively problematize them and to reconfigure how they may be read and used in the classroom.

The Routledge Companion to Philosophy of Literature is an in-depth examination of literature through a philosophical lens, written by distinguished figures across the major divisions of philosophy. Its 40 newly commissioned essays are divided into six sections: historical foundations, what is literature, aesthetics, appreciation, meaning, interpretation, metaphysics, epistemology, ethics, political theory. The Bible's First History Robert B. Coote, David Robert Ord, 2018-01-04 This is a book about an ancient writer the J writer the Yahwist who produced a work of political imagination This work is embedded mainly in the first four books of the Bible best known for some of the most popular and influential biblical stories in Genesis and Exodus The purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary strands with which it was later supplemented Therefore the work includes a fresh complete translation of the text of the J writer who produced the Bible's first history The translation itself helps to establish more clearly than ever the integrity of the J writer The concern here is WHEN and WHY this history was written especially in light of the concerns for justice and prosperity Throughout it is demonstrated HOW and WHY this history comes from the court of David it is a royal history of David's subjects as though they were descended from pastoral nomads such as Abram Isaac and Jacob It is argued that the intended audience of the history was probably those Bedouin who regularly visited the court of David in Hebron and Jerusalem Here is a bold and brilliant representation of the J writer's composition perhaps as it was originally intended to be read or heard This ancient tour de force takes on new life in the hands of these skilled interpreters

Becoming George Orwell John Rodden, 2021-09-14 The remarkable transformation of Orwell from journeyman writer to towering icon Is George Orwell the most influential writer who ever lived Yes according to John Rodden s provocative book about the transformation of a man into a myth Rodden does not argue that Orwell was the most distinguished man of letters of the last century nor even the leading novelist of his generation let alone the greatest imaginative writer of English prose fiction Yet his influence since his death at midcentury is incomparable No other writer has aroused so much controversy or contributed so many incessantly quoted words and phrases to our cultural lexicon from Big Brother and doublethink to thoughtcrime and Newspeak **Becoming George Orwell** is a pathbreaking tour de force that charts the astonishing passage of a litterateur into a legend Rodden presents the author of *Animal Farm* and *Nineteen Eighty Four* in a new light exploring how the man and writer Orwell born Eric Arthur Blair came to be overshadowed by the spectral figure associated with nightmare visions of our possible futures Rodden opens with a discussion of the life and letters chronicling Orwell s eccentricities and emotional struggles followed by an assessment of his chief literary achievements The second half of the book examines the legend and legacy of Orwell whom Rodden calls England s Prose Laureate looking at everything from cyberwarfare to fake news The closing chapters address both Orwell s enduring relevance to burning contemporary issues and the multiple ironies of his popular reputation showing how he and his work have become confused with the very dreads and diseases that he fought against throughout his life

The Contentious History of the International Bill of Human Rights Christopher N. J. Roberts, 2015 This book shows how a series of contradictions worked their way into the International Bill of

Human Rights **Modern Utopian Fictions from H. G. Wells to Iris Murdoch** Peter Edgerly Firchow, 2007 Criticism on utopian subjects has generally neglected the literary or fictional dimension of utopia The reason for such neglect may be that earlier utopian fictions tended to be written by what one would nowadays call social scientists e g Plato or Sir Thomas More That is also why earlier discussions of utopian fiction were usually written by critics trained in the social sciences rather than by critics trained in literature To an appreciable degree this still tends to be the case today Now however there is an additional difficulty for the social scientists are critiquing utopias written by people who are primarily literary for example Krishan Kumar on Wells or Bernard Crick on Orwell Inevitably much of importance of literary importance is simply disregarded and so our understanding of modern utopia is correspondingly diminished This book aims to put the fiction back into utopian fictions While tracing the development of fiction in the writing of modern utopias especially in Britain it seeks to demonstrate in specific ways how those utopias have become increasingly literary possibly as a reaction not only against the social scientification of modern utopias but also in reaction against the modern attempt to institute utopia in reality notably in the former Soviet Union but also in consumerist late twentieth century America After an introductory discussion of how we understand and how we should understand modern utopian fictions the book provides several examples of how those understandings affect our appreciation of utopian fiction There are chapters on H G Wells s Time Machine Bernard Shaw s Major Barbara Aldous Huxley s Brave New World George Orwell s Animal Farm and Nineteen Eighty Four William Golding s Lord of the Flies and Iris Murdoch s The Bell ABOUT THE AUTHOR Peter Edgerly Firchow internationally recognized scholar and author of numerous works including Reluctant Modernists W H Auden Contexts for Poetry Envisioning Africa Racism and Imperialism in Conrad s Heart of Darkness and The End of Utopia is professor of English at the University of Minnesota Firchow includes much that is praiseworthy in this short book on utopian fiction Firchow s work displays his very well informed explication and his ability in most instances to make literary texts come alive His treatment of Wells s The Time Machine is simply outstanding I find his enthusiasm for his texts refreshing and his work on the end of history meticulous Other scholars of utopian fiction will as well H Net Reviews Utopian fiction has often been mangled in interpretation on the occasions when it has been read without a sense of irony for the sake of political analysis disregarding its artistic nature To counterpoise such approaches Firchow offers us a close reading of each of the chosen works while also placing them in literary context Janice Rossen Partial Answers **The Cambridge Companion to George Orwell** John Rodden, 2007-06-21 Publisher description **What is History Teaching, Now?
