Exporting Democracy Sophia Z Kovachevich, 2022-05-05 The world is in ferment The situation of today's world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don't even realise it **Eurasian Empires**

as Blueprints for Ethiopia Asnake Kefale, Tomasz Kamusella, Christophe Van der Beken, 2021-02-17 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere **Governments in the Muslim World** Charles F.

Bingman, 2013-06 Never in modern times has there been a greater need for understanding of the Muslim world Nothing in that world is more important than the relationship between Muslims and their Faith yet now that Faith has become far more confusing and challenging The emergence of religious fundamentalism often linked to terrorism seems wholly inconsistent with the teaching of the Quran and the other holy documents of the Faith which defines itself as a religion of peace and

forgiveness Muslims everywhere have found themselves facing two dilemmas first a failure of the governments that demand to rule them and then a major concern over what kind of Faith true Muslims should believe in But while religion tends to control people s lives it is not the primary source of conflict in the Muslim world That source is the yearning for power which has produced leadership unwilling to negotiate and unable to compromise along with the sins of personal greed and a culture of corruption What do most Muslims really want To live in peace to live a devout life and to achieve a successful life for themselves and their children Governments in the Muslim World describes in many ways how far they are from these desires

Muhammad 'Alī's Soft Power in Europe Hala Ghoname, 2024-12-16 The profusion of literature on Muhammad Alī s Egypt 1805-1849 makes the Bāshā s epoch significantly well documented however one facet is perceptibly brushed out or rather overlooked Published in 1945 Gaston Wiet s *Mohammed Ali et Les Beaux Arts* has been the only book deliberating the visual and artistic aspects of Muhammad Alī s reign and while it offers an extended survey of the Ottoman governor s iconography and visual relics the book wants the rudiments of critical analysis The trivial number of works covering this facet of the Bāshā s sovereignty has made it barely examined rendering the research field with a significant epistemological gap namely regarding art and historiography patronage for political triggers Embarking from where Wiet s work has halted this book attempts to critically analyze the artistic component of Muhammad Alī s reign by dealing with the pictorial crops of the nineteenth century s orientalist travelers assessing their role within the context of contemporaneous trends in Ottoman and European diplomacy and tracing Muhammad Alī s early attempts for using pictorial propaganda and historiography in order to claim political legitimacy and to attain European recognition The book conducts an in depth analysis of the Bāshā s historiographic making process with a focus on how text worked art and visual politics The book takes an innovative and interdisciplinary approach which commingles tools of visual analysis and contextual investigation in its consideration of the aspects of Muhammad Alī Bāshā s foreign policy this book closely examines topics associated with cultural systems modernization traditionalism and changeability in Egypt of the nineteenth century while assessing the impact of global connectedness not only on Muslim cultures and societies but also on European public opinion through highlighting how Muslim rulers had adapted appealing themes and employed cultural magnets in their visual propaganda to fit within the pervasive international diplomatic trends
