of tourism studies and education dates to the early years of the 20th century and began recording a momentum in its second half. There is therefore a lot more to do in terms of the institutionalization of such a young and dynamic field and this book aims to introduce tourism scholars with their widest geographical representation dating from the first years of tourism research back in the early 1900s. Volume III of IV includes tributes to 20 scholars who have defined tourism as an object of academic study, established its foundations and organisations and widened its scope to encompass thousands of empirical studies. Each of these volumes contains different profiles thereby bringing 80 of the pioneers in tourism more vividly to life. This book was originally published as a special issue of *Anatolia: An International Journal of Tourism Hospitality Research*.
