Modernity and the Construction of Sacred Space Aaron French, Katharina Waldner, 2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but

space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today **Health Progress** ,2010 *Your Well-Being Garden* DK,2020-07-14 Your garden could be even better for you Discover How certain plants can form a barrier against air and noise pollution Which birdsong alleviates anxiety How plants can help to save energy Why green is so good for us Learn how connecting with nature can reduce stress and improve wellbeing You don t even need a garden even a balcony or houseplants can help to boost your mood Every recommendation is backed by scientific research drawn together by a team of scientists and experts Your Well Being Garden also suggests how to translate the science into ideas for your green space With this groundbreaking book find out how in sometimes very simple ways you can create an outdoor space that nourishes your mind and body and is good for our planet too *Messy Ethnographies in Action* Alexandra Plows,2018-04-30 This edited collection of chapters showcases original and interdisciplinary ethnographic fieldwork in a range of international settings including studies of underground pub life in North East England Finnish hotels and bio scientific institutions in the Amazonian rainforest Informed by John Law s concept of ethnographic mess this book makes a unique empirically informed contribution to an understanding of the social construction of knowledge and the role that ethnography can and does play Law 2004 It provides a range of colourful snapshots from the field showing how different researchers from multiple research environments and disciplines are negotiating the practicalities and epistemological and ethical implications of messy ethnographic practice as a means of researching messy social realities Law notes that social science investigations interfere with the world things change as a result The issue then is not to seek disengagement but rather with how to engage *ibid* p14 Drawing on their own situated experiences the book s contributors address the messy implications of this and also explore the equally messy issue of why engage They reflect on the process of undertaking research and their role in the research process as they negotiate their own position in the field What is ethnography for What impact should or do we have in the field and after we leave the research site What about unintended consequences When if ever are we off duty What does informed consent mean in a constantly shifting dynamic ethnographic context Is ethnography by its very nature a form of action research By providing a wide range of situated explorations of messy ethnographies the book presents a unique hands on guide to the challenges of negotiating ethnography in practice which will be of use to all researchers and practitioners who use ethnography as a method **The Art of Bouncing Back: Find Your Flow to Thrive at Work and in Life — Any**
