Masters Theses in the Pure and Applied Sciences W. H. Shafer, 2013-03-14 Masters Theses in the Pure and Applied

Sciences was first conceived published and disseminated by the Center for Information and Numerical Data Analysis and Synthesis CINDAS at Purdue University in 1957 starting its coverage of theses with the academic year 1955 Beginning with Volume 13 the printing and dissemination phases of the activity were transferred to University Microfilms Xerox of Ann Arbor Michigan with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination Hence starting with Volume 18 Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year the coverage was broadened to include Canadian universities All back issues can also be ordered from Plenum We have reported in Volume 24 thesis year 1979 a total of 10 033 theses titles from 26 Canadian and 215 United States universities We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work While Volume 24 reports these submitted in 1979 on occasion certain universities do report theses submitted in previous years but not reported at the time

Disaster Risk Reduction Approaches in Bangladesh Rajib Shaw, Fuad Mallick, Aminul Islam, 2013-05-31 This book outlines disaster risk reduction DRR approaches in Bangladesh drawing examples and lessons from the national and community level programs projects and relevant experiences of the country The content is based on a selection of available documents a consultative workshop with academicians from different universities undertaking DRR higher education programs and the editors own knowledge and experience in the field Special emphasis is given to analyzing field experiences from academic perspectives and to highlighting key issues and the policy relevance of disaster risk reduction The book has three parts Part I provides the outline and basics of DRR with examples from a global review and from national policies and priorities Part II covers seven different hazards in Bangladesh focusing on both shocks and stresses Part III provides examples of approaches and issues of DRR practices The primary target groups for this book are students and researchers in the fields of environment disaster risk reduction and climate change studies The book will provide them with a good idea of the current trend of research in the field and will furnish basic knowledge on this important topic in Bangladesh Another target group comprises practitioners and policy makers who will be able to apply collective knowledge to policy and decision making

Health and Cultural Values Vitalis Pemunta Ngambouk, 2011-01-18 This book provides a nuanced analysis of the transformations that the ritual cutting of Female Circumcision FC recently underwent within the changing medical and institutional context of the HIV AIDS pandemic among Ejagham tribes in Southwest Cameroon Based on local level ethnography it captures the multivocal perspectives and agency of participants thereby putting to question the uncritical feminist stance that Third World Women lack agency and are chattel As the highest rite of patriarchy the quintessential icon of gendered personhood and femininity FC remains salient even when it is no longer the

criterion for membership into the Moninkim secret society especially within the new medical and institutional context of the HIV AIDS pandemic because it is intertwined with the whole cultural political economy of the Ejaghams The commercialization of this feminine institution charged with feminine personhood through its spectacular performances enacting matrimonial relations within and beyond the Ejagham locale is evidence of its continuous centrality in the life world of participants By focusing on health alone anti HIV AIDS and anti FC interventions by both the state and civil society actors miss the point FC is increasingly becoming a human social gender rights and development issue calling for a multi pronged development approach The threat of the HIV AIDS pandemic led to ferocious intergenerational debates over moral values about female inordinate sexuality and to the double appropriation of the concept of human security Conservatives maintain that FC tempers women s sexuality and is therefore a useful mechanism to keep women in matrimonial service a moral check on inordinate sexuality and a native antidote against the scourge of the pandemic Anti FC advocates point to the bloodletting entailed by the ritual procedures as fuelling the spread of the pandemic through the spread of diseases with HIV AIDS inclusive among participants A third group of cultural insiders opt for the cautious appropriation of modernity while simultaneously maintaining tradition medicalisation of the ritual procedures By reducing the complexity and nuances of the ritual cutting to health alone anti FC activism has instead produced a backlash marked by simultaneous contestation and practice Paradoxically the anti FC campaigns have resulted in the privatization of FC on increasingly younger girls However the recent waiving of the ritual cutting as a precondition for membership into the Moninkim cult because of the ageing of the initial initiates the health risk of the HIV AIDS pandemic and anti FC advocacy campaigns by local NGOs shows that change is underway Simultaneously inter tribal marriages with members of non circumcising tribes and romantic love relationships beyond the purview of the traditional patriarchal orbit have led younger lovers increasingly to seek mutually satisfying love relationships for which FC a virtuous cut becomes an obstacle

The Impact of Head Start on Children, Families, and Communities Ruth Hubbell McKey,1985 **Software Architecture: A Case Based Approach** Varma, Vasudeva,2009

Diversity within Diversity Management Andri Georgiadou,Maria Alejandra Gonzalez-Perez,Miguel R. Olivas-Luján,2019-04-10 This book enhances our understanding as to how diversity and equality are managed in different national contexts Focusing on workplace equality diversity and inclusion this book brings together a unique blend of scholarly research and professional practice evidenced through an array of individuals both outside and inside organizations

Regoverning Markets Bill Vorley,Andrew Fearne,Derek Ray,2016-04-08 The internationalisation of food retailing and manufacturing that has swept through the agri food system in industrialised countries is now moving into middle and low income countries with large rural populations causing significant institutional changes that affect small producer agriculture

and the livelihoods of rural communities the world over Farmers and policy makers are struggling to keep up with the wave of new demands being made on their supply chains by food manufacturers and retailers In the process new questions and challenges are arising Can small scale farmers organise to meet the demands of corporate giants Should governments liberalise Foreign Direct Investment in the retail sector and expose numerous small shops to competition from multinationals Can distribution systems be adapted to make markets work better for the poor This book offers a contemporary look at what happens when the modernisation of food supply chains comes face to face with the livelihoods of rural and poor people The authors are drawn from eighteen countries participating in the Regoverning Markets programme which aims to not only improve our understanding of the way modernisation and re structuring of food supply chains is affecting food production and distribution systems but also identify best practice in involving small scale producers in supermarket supply chains and ascertain the barriers to inclusion which need to be removed The book is aimed primarily at academics but will also appeal to practitioners in developing countries civil servants policy makers and NGOs Rabies in the Streets Deborah

Nadal,2020-04-13 Found in two thirds of the world rabies is a devastating infectious disease with a 99.9 percent case fatality rate and no cure once clinical signs appear Rabies in the Streets tells the compelling story of the relationship between people street animals and rabies in India where one third of human rabies deaths occur Deborah Nadal argues that only a One Health approach of interspecies camaraderie can save people and animals from the horrors of rabies and almost certain death Grounded in multispecies ethnography this book leads the reader through the streets and slums of Delhi and Jaipur where people and animals such as dogs cows and macaques interact intimately and sometimes violently Nadal explores the intricate web of factors that bring humans and animals into contact with one another within these urban spaces and create favorable pathways for the transmission of the rabies virus across species This book shows how rabies is endemic in India for reasons that are as much social cultural and political as they are biological ranging from inadequate sanitation to religious customs from vaccine shortages to reliance on traditional medicine The continuous emergence and reemergence of infectious diseases despite technical medical progress is a growing concern of our times and clearly questions the way we think of animal and environmental health This original account of rabies challenges conventional approaches of separation and extermination arguing instead that a One Health approach is our best chance at fostering mutual survival in a world increasingly overpopulated by humans animals and deadly pathogens **Race and the Origins of American**

Neoliberalism Randolph Hohle,2015-06-12 Why did the United States forsake its support for public works projects public schools public spaces and high corporate taxes for the neoliberal project that uses the state to benefit businesses at the expense of citizens The short answer to this question is race This book argues that the white response to the black civil rights movement in the 1950s 60s and early 70s inadvertently created the conditions for emergence of American neoliberalism Neoliberalism is the result of an unlikely alliance of an elite liberal business class and local segregationists that sought to

preserve white privilege in the civil rights era The white response drew from a language of neoliberalism as they turned inward to redefine what it meant to be a good white citizen The language of neoliberalism depoliticized class tensions by getting whites to identify as white first and as part of a social class second This book explores the four pillars of neoliberal policy austerity privatization deregulation and tax cuts and explains how race created the pretext for the activation of neoliberal policy Neoliberalism is not about free markets It is about controlling the state to protect elite white economic privileges

Planning for Healthy Communities Joongsub Kim, 2025-09-16 This book investigates multi disciplinary approaches to addressing the health of disadvantaged communities through equitable community development systems CDSs The core concepts underlying the book are three dimensions of support infrastructure people human centering place place cultivating and ecosystem sustainable capitalization leveraging several theories community capital social justice from community development This book is based on the results of a recent grassroots citywide engagement driven initiative in Detroit and on best practice case studies in Chicago Indianapolis Cleveland Boston Philadelphia Minneapolis Richmond and Portland The initiative s significant outcomes include a consensus bolstered by those case studies on seven components deemed essential to an equitable system for community development This book proposes that the CDS can enhance community health if at least the following requirements are met 1 adoption of a community vitality framework as a citywide shared narrative 2 coordination across financial institutions to allocate funds equitably to underserved communities and 3 implementation of system governance with stronger attention to resident voices This book demonstrates that bottom up CDSs can and should be leveraged to enhance the health of underserved communities and investigates how best to address the three requirements to make the equitable system based approach work effectively in practice The audience of community development and community health actors will learn from Detroit and the case studies offering lessons for other cities facing similar issues how to leverage equitable CDSs to promote healthy communities

growth and secure jobs in an innovative and sustained manner Hrd Practices in Apsrtc Dr. Santosha Pavani
Tammineni, 2016-06-28 A complete study on implementation of HRD practices in APSRTC at zonal level is rare in number In contrast to the earlier practices an attempt has been made by the researcher to trace out the impact of HRD practices on employees at zonal level and to investigate whether it is implemented in letter and spirit or not by reviewing operational performance of APSRTC and its financial function This work is not only an in depth study of HRD practices in APSRTC the study also presents an overview of the road transport sector in India With the advent of globalization transport sectors are confronted with challenges in improving productivity by successfully meeting the intense level of competition from its counterparts Business today is in a period of change and uncertainty The success will largely depend on how these challenges are matched with the utilization of human resources that is at our disposal It has been very unfortunate that the APSRTC has limited its human resource developmental practices for some cadres at apex level only without taking organizational climate of various zones into account while training their managerial personnel But the need of the hour is to put more emphasis on all the HRD practices at managerial level in the background of their level of climate The researcher looks at the problems of implementing HRD practices in the context of changing technological advancement and government policies
