Coronary Blood Flow J.A. Spaan, 2012-12-06 by JULIEN IE HOFFMAN One of the earliest coronary physiologists was Scaramucci who in 1695 postulated that during systole the contracting myocardium inhibited coronary blood flow Since then the many contributions that have been made to our knowledge of the coronary circulation can be arbitrarily divided into three phases based on advances in technical methods The early phase of research into the coronary circulation done with great difficulty with crude methods may be regarded as ending in the 1940s and it included major discoveries made by such well known investigators as Georg von Anrep Ernest Starling Carl Wiggers and Louis Katz who formulated much of our basic understanding of the field After 1940 the field of coronary physiology entered a new phase when instruments for high fidelity registration of coronary flow and pressure became available This era was dominated by Donald Gregg who combined careful attention to the function of these instruments some of which he helped to develop with an extraordinary ability to discern mechanisms from apparently minor changes in coronary flow and pressure patterns His book *The Coronary Circulation in Health and Disease* set a new standard in the field After 1960 techniques for measuring regional myocardial blood flow became available and enabled a large group of eminent investigators to make major advances in understanding the physiology and pathophysiology of myocardial blood flow

The Fated Chronicles Books 1-3 Heirs of Magic / Prophecy of Fire / Trials of Initiation A Contemporary Portal Fantasy Adventure Humphrey Quinn, 2020-06-27 The Fated Chronicles A Contemporary Portal Fantasy Adventure When an aged and grizzled man insists on selling twins Meghan and Colin Jacoby an ancient book of spells and then vanishes from the carnival grounds moments later well to ignore this would also mean ignoring the other impossible things suddenly happening around them Magical type things like talking books animals popping out of fires creatures lurking in the lake fiery visions come true plus oddly dressed neighbors arriving out of nowhere and afraid of something that stalks the night sky And just when the twins think things can't get any stranger that's when the spell book has a dangerous warning an ancient evil is coming and it's coming for them But why Colin is thirteen going on eighteen but stuck in the body of a ten year old he lives to disappear into a fantasy novel for days His twin sister Meghan despises reading anything without pictures and spends her days picking fights with the bullies that target her geeky brother They're just regular thirteen year old twins well they have spent their lives traveling around the countryside with their uncle in his travel trailer Granted not completely normal but nothing at all remotely magical or otherworldly well if you don't count their ability to hear each other's thoughts or that their parents died mysteriously or that their uncle has a rule to move every few weeks until summertime when they return to the same campground like he's waiting for something But what could this possibly have to do with them A few oddities hardly equal a hidden magical history right Can they unravel the secrets in time Or will magic be lost to these ancient enemies plunging an unaware world into a magical nightmare I think these reviews help sum up the series well This sweeping complex series of

11 books is riveting rollicking and ultimately very satisfying Following the lives of 3 young children in particular whose identities and relationships like so many others in this saga are not what they initially appear to be these page turners are packed with Magic Pathos Teenage Angst Humor Anticipation Conspiracy War and Peace Bucolic Love Time Travel everything but the kitchen sink I picked up Book 1 on a Friday night and binge read all 11 by Tuesday morning If you ever thought you were somehow Special or ever wanted to Save the World these books are for YOU Totally engaging and completely believable the emotional roller coaster keeps the reader invested in each intricate convoluted detail while orchestrating its ultimate message of Love with a few lessons in Morality along the way So many comparisons to Past Present and Future situations are readily apparent So snuggle up on a rainy day and embark on a new adventure I can promise you a surprise around every corner and some serious Fun Amazon reviewer Ascend book 11 of the Fated Saga was an absolute joy and surprise to read While I believe most of us who have been along for the ride since the beginning expected some sort of happy ending I don't think anyone could have anticipated this Ascend wraps up each and every character's story arc and leaves no stone unturned The fact that the ending took me so completely by surprise is one of the things I loved most about this book Each character felt like a real person despite the magical world they lived in The series as a whole dealt with topics like love hate discrimination jealousy and finding yourself and was able to stay true to the story Nothing felt contrived The bottom line is just WOW I was thrown by the twists I never saw coming as well as the resolutions I'd hoped for but had no idea how the author could bring about I do hope we get to read about more of either the characters or the beautiful world created for them
