Crying About? Brian M. Holmes, 2014-06-09 For thousands of years humanity has been told that grief is a necessary part of life that deep sorrow over the passing of our loved ones is expected and a natural process Brian Holmes says emphatically that No it is not We can be sad when a friend or family member leaves us but sad as if they are moving to another country not disappearing from existence forever You can and ought to be emotionally stable and spiritually content after the death of a loved one People sometimes spend months or years of their lives mired in crippling grief which sidetracks them from school career positive and healthy parenting or other fruitful endeavors Grief sabotages happy productive lives Sometimes people in extreme grief become angry abuse drugs and alcohol or even take their own lives It doesn't have to be this way Sadness when someone leaves our lives is normal Intense grief need not be If you are a Christian Muslim Hindu Buddhist or Jew there is plenty of support for the afterlife in the holy books and teachings of your faith All combined these religions encompass the spiritual beliefs of most of the people on Earth If you Believe grief is not for you emotional peace and happiness is Defeat your grief now What's Inside Death and Dying The Common View Grieving The Common View Anger with God Religious and Philosophical Views on Death Suicide Got Faith Ten Faith Enhancers What Is a Human The Afterlife the Spirit World Heaven and Hell Where the Hell Is Heaven Our Family Among Us Spirits Present What to Say to the Bereaved and Dying The topics are many and each one as important as the next Mr Holmes possesses a writing style that is admirable and one that makes this book easy to read He writes about deep and complicated subjects with ease that carries the reader through corridors of learning in such a way that I as a reader did not feel intimidated or lost in heavy discourses difficult to follow Joseph B Its really well structured well researched and well written In short it is a great book Geoff C I took quite a bit from this book and

Heaven Through Hell: A Book About Challenging and Changing Destructive Religious Beliefs Sue Wilson,2014-03-13 Whether we re talking about eternal Heaven and Hell in Western religions or Reincarnation and Karma in religions of the East Sue Wilson shares overwhelming evidence that what most religions teach about what happens when we die is totally wrong and fosters irrational fear and extreme codependency She asserts that contrary to these unsubstantiated teachings death is a positive experience for everyone Wilson is not an outsider looking in on this subject She s a former minister s wife and missionary to Africa a world traveler and a retired world history and geography teacher In To Heaven Through Hell she shares an incredible journey into the invisible realm beyond the physical world through a number of spontaneous paranormal or sixth sense experiences along with her extensive research from theologians psychologists psychiatrists doctors scientists and a host of others in the helping professions all of which refute religion s erroneous teachings concerning life after death Among her many sixth sense experiences are a powerful near death experience in which she cries out to the God she has learned to fear in fundamental Christianity and is assured that God s love is unconditional not only for herself but for all of us the appearance of her father s ghost who tells her that when he died he went to God immediately and was fully immersed in love and understanding as we ll all be when we die and an amazing regression experience which helps her understand that the purpose of reincarnation is opportunity not karma Wilson encourages readers to formulate healthy beliefs about God and the universe She shows how embracing positive beliefs about life after death especially removes the fear of dying and enables us to get on with the wonderful business of living She helps readers tap their own sixth sense and gives a problem solving model that incorporates all the senses the five traditional ones the controversial sixth and a seventh sense we often overlook in our desperate search for answers common sense And though she acknowledges that religious institutions have done much good in the world she challenges them to admit to the damage they

have also done with destructive teachings about life and death and to replace them with better ones To acknowledge that all religions are resources not roadmaps including their own And to turn their buildings into lively classrooms where their members can find solutions to the real problems they face as human beings using good ideas from all disciplines in society and rejecting the rest

The New Children and Near-Death Experiences P. M. H. Atwater, 2003-11-06 Presents an in depth look at children who have experienced the near death phenomenon and the heightened abilities that these children exhibit Provides compelling evidence for the existence of a generation of children who represent the spiritual evolution of the human race Includes firsthand testimonies of children who have returned from near death The New Children and Near Death Experiences is the first book to provide from the view of the child an in depth study of children who have experienced the near death phenomenon and its aftereffects Atwater notes that the child who returns from a near death experience is not the same child as before but is a remodeled rewired reconfigured refined version of the original Presenting data to support her contention that these children have experienced structural chemical and functional changes in the brain she also shows how their greater empathic abilities as well as dramatically higher intelligence are qualities that are also present in children born since 1982 enhanced abilities that cannot be tied to simple genetics Atwater shows that understanding the near death experiences of children can help us prepare for a quantum leap in the evolution of humanity

Worlds Heiner Schwenke, 2019-01-31 The idea of the resurrection of the physical body and the eternal continuation of life with this body in a future paradisiacal kingdom of God on earth is one of the most enigmatic of religious ideas. It fully contradicts our knowledge of the transitoriness of all things in this universe. According to the author, the origin for this idea lies in certain forms of otherworld experiences, as for example reported by people who had near death experiences, encounters with the dead in brilliantly beautiful bodies, and the experience of paradisiacal seemingly earthly landscapes. He observes that cultures with a pre-modern cosmology sometimes projected such otherworld experiences onto this world to distant and unknown locations on earth. These experiences were the blueprint for an expectation of paradisiacal conditions on earth. The author establishes parallels between the reports of otherworld experiences and the eschatological ideas of Zoroastrianism, Judaism, and Christianity. He shows that otherworld experiences can indeed foster the expectation of paradisiacal conditions on earth by referring to the Ghost Dance movement of the Lakota people in 1890. He presumes that the confusion of worlds proved fatal not only for the Lakota people but also for Jesus of Nazareth.
