History Africa Kevin Shillington

Timothy J. Stapleton

History Africa Kevin Shillington:

History of Africa Kevin Shillington, 2018-08-28 This fourth edition of this best selling core history textbook offers a richly illustrated single volume narrative introduction to African history from a hugely respected authority in the field. The market leading range of illustrated material from prior editions is now further improved featuring not only additional and redrawn maps and a refreshed selection of photographs but the addition of full colour to make these even more instructive evocative and attractive. Already hugely popular on introductory African History courses the book has been widely praised for its engaging and readable style and is unrivalled in scope both geographically and chronologically while many competitors limit themselves to certain regions or eras. Shillington chronicles the entire continent from prehistory right up to the present day. For this new edition both content and layout have been thoroughly refreshed and restructured to make this wealth of material easily navigable and even more appealing to students unfamiliar with the subject. New to this Edition: Now in full colour with fresh new design. Part structure and part intros added to help navigation. New and improved online resources include a new testbank, interactive timelines, lecturer slides, debates, in African history essay questions and further readings. Revised and updated in light of recent research.

History of Africa, Revised 2nd Edition Kevin Shillington, 2005-10-14 Now fully revised and updated, this classic text offers an illustrated and critical narrative introduction to the history of Africa from earliest times to the present. Beginning with the evolution of mankind itself, the book traces the history of Africa through the millennia of the ancient world to the centuries of medieval and modern Africa. The clear and simple language and the wealth of carefully chosen maps and photos combine to make an essential and accessible text.

Encyclopedia of African History Kevin Shillington, 2005. Covering the entire continent from Morocco, Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar, Mauritius and Seychelles in the east, this A-Z reference examines the history of the entire African continent. With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty-first century, this comprehensive three-volume Encyclopedia is the first reference of this scale and scope. In nearly 1,100 entries, the Encyclopedia not only examines the well-established topics in African history but also looks at the social, economic, linguistic, anthropological and political subjects that are being re-evaluated or newly opened for historical analysis by recent research and publication.

A History of Genocide in Africa Timothy J. Stapleton, 2017-04-17 Based on a series of detailed case studies, this book presents the history of genocide in Africa within the specific context of African history, examining conflicts in countries such as Burundi, Democratic Republic of Congo, Namibia, Rwanda and Sudan. Why has Africa been the subject of so many accusations related to genocide? Indeed, the number of such allegations related to Africa has increased dramatically over the past 15 years. Popular racist mythology might suggest that Africans belong to tribes that are inherently antagonistic towards each other and therefore engage in tribal warfare which cannot be rationally explained. This concept is wrong, as Timothy J. Stapleton explains in *A History of*

Genocide in Africa the many conflicts that have plagued post colonial Africa have had very logical explanations and very few of these instances of African warring can be said to have resulted in genocide Authored by an expert historian of Africa this book examines the history of six African countries Namibia Rwanda Burundi Democratic Republic of Congo Sudan and Nigeria in which the language of genocide has been mobilized to describe episodes of tragic mass violence It seeks to place genocide within the context of African history acknowledging the few instances where the international legal term genocide has been applied appropriately to episodes of mass violence in African history and identifying the many other cases where it has not and instead the term has been used in a cynical manipulation to gain some political advantage Readers will come to understand how to a large extent genocide accusations related to post colonial Africa have often served to prolong wars and cause greater loss of life The book also clarifies how in areas of Africa where genocides have actually occurred there appears to have been a common history of the imposition of racial ideologies and hierarchies during the colonial era which when combined with other factors such as the local geography demography religion and or economics resulted in tragic and appalling outcomes

Africa in Global History Toyin Falola, Mohammed Bashir Salau, 2021-12-06 This handbook places emphasis on modern contemporary times and offers relevant sophisticated and comprehensive overviews It aims to emphasize the religious economic political cultural and social connections between Africa and the rest of the world and features comparisons as well as an interdisciplinary approach in order to examine the place of Africa in global history This book makes an important contribution to the discussion on the place of Africa in the world and of the world in Africa An outstanding work of scholarship it powerfully demonstrates that Africa is not marginal to global concerns Its labor and resources have made our world and the continent deserves our respect Mukhtar Umar Bunza Professor of Social History Usmanu Danfodiyo University Sokoto and Commissioner for Higher Education Kebbi State Nigeria This is a deep plunge into the critical place of Africa in global history The handbook blends a rich set of important tapestries and analysis of the conceptual framework of African diaspora histories imperialism and globalization By foregrounding the authentic voices of African interpreters of transnational interactions and exchanges the Handbook demonstrates a genuine commitment to the promotion of decolonized and indigenous knowledge on African continent and its peoples Samuel Oloruntoba Visiting

Research Professor Institute of African Studies Carleton University **A Primer for Teaching African History** Trevor R. Getz, 2018-03-15 A Primer for Teaching African History is a guide for college and high school teachers who are teaching African history for the first time for experienced teachers who want to reinvigorate their courses for those who are training future teachers to prepare their own syllabi and for teachers who want to incorporate African history into their world history courses Trevor R Getz offers design principles aimed at facilitating a classroom experience that will help students navigate new knowledge historical skills ethical development and worldviews He foregrounds the importance of acknowledging and addressing student preconceptions about Africa challenging chronological approaches to history exploring identity and

geography as ways to access historical African perspectives and investigating the potential to engage in questions of ethics that studying African history provides In his discussions of setting goals pedagogy assessment and syllabus design Getz draws readers into the process of thinking consciously and strategically about designing courses on African history that will challenge students to think critically about Africa and the discipline of history A History of West Africa Toyin Falola,2023-12-29 This book introduces readers to the rich and fascinating history of West Africa stretching all the way back to the stone age and right up to the modern day Over the course of twenty seven short and engaging chapters the book delves into the social cultural economic and political history of West Africa through prehistory revolutions ancient empires thriving trade networks religious traditions and then the devastating impact of the Trans Atlantic slave trade and subsequent colonial rule The book reflects on the struggle for independence and investigates how politics and economics developed in the post colonial period By the end of the book readers will have a detailed understanding of the fascinating and diverse range of cultures to be found in West Africa and of how the region relates to the rest of the world Drawing on decades of teaching and research experience this book will serve as an excellent textbook for entry level History and African Studies courses as well as providing a perfect general introduction to anyone interested in finding out about West Africa

Encyclopedia of the Peoples of Africa and the Middle East Jamie Stokes,2009 Encyclopedia of the Peoples of Africa and the Middle East is a two volume A to Z reference to the history and culture of the peoples of Africa and the Middle East

Africa , **Becoming Zimbabwe. A History from the Pre-colonial Period to 2008** Brian Raftopoulos,Alois Mlambo,A. S. Mlambo,2008-12-31 a profoundly new history of Zimbabwe that tears apart all of the old certainties Book Jacket **The Islamist Challenge and Africa** Samory Rashid,2018-11-15 The Islamist Challenge and Africa explores Islamist militancy in Africa south of the Sahara perhaps the most dangerous region in the world today It examines Islamist militancy s longstanding presence among Africans its distinct ideological features and ways to minimize if not eliminate its violence It warns policy makers to abandon marginalizing Africa before it is too late *Africa in Contemporary Perspective* Manuh, Takyiwaa,Sutherland-Addy, Esi,2014-05-08 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africa s

resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa s people **Nigeria's Resource Wars** Egodi Uchendu,2021-03-02 Nigeria s Resource Wars reflects on the diversity of conflicts over access to and allocation of resources in Nigeria From the devastating effects of crude oil exploration in the Niger Delta to desertification caused by climate change and illegal gold mining in Zamfara to mention a few Nigeria faces new dimensions of resource related struggles The ravaging effects of these resource conflicts between crop farmers and Fulani herders in Nigeria s Middlebelt and states across Southern Nigeria call for urgent scholarly interventions with the Fulani cattle breeders onslaught altering the histories of many Nigerian families through deaths loss of homes and investments and permanent physical incapacity Currently there is an almost total breakdown of interethnic relations with political commentators acknowledging that Nigeria has never been so divided as it presently is in its history The struggles have now degenerated into kidnaps armed robbery and incessant targeted and random killings across the country compounding the already complex problem of insecurity in Nigeria The chapters in this volume engage with these issues presenting the different arguments on resource conflicts in Nigeria They draw insights from similar conflicts in Nigeria s colonial post independence past and events from around the world to proffer possible solutions to resource related confrontations in Africa By offering a collection of different intellectual perspectives on resource conflicts in Nigeria this volume will be an important reference material for understanding the diversity of thought patterns that underpin the struggle and policy approaches towards resolving conflict situations in Africa This volume will be of considerable interest to scholars of Africa researchers in the humanities social sciences and conflict studies and policymakers interested in understanding the resource crisis in Africa **Approaching African History**

Michael Brett,2013 Africa is a huge continent as large as the more habitable areas of Europe and Asia put together This book takes as its subject the last 10 000 years of African history and traces the way in which human society on the continent has evolved from communities of hunters and gatherers to the complex populations of today The Complete Idiot's Guide to World History Timothy C. Hall,2008 A guide to world history discusses major events from the beginning of civilization to the late twentieth century including the birth of early cultures the rise of major religions and the growth of Western domination

Black Theology--Essays on Global Perspectives Dwight N. Hopkins,2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the

genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today s international challenges The essays in this book draw on tradition and point forward in the midst of today s worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures Walk Together Children Dwight N. Hopkins,Linda E. Thomas,2010-01-01 Walk Together Children Black and Womanist Theologies Church and Theological Education draws on the long religious cultural and singing history of blacks in the U S A Through the slavery and emancipation days until now black song has both nurtured and enhanced African American life as a collective whole Communality has always included a variety of existential experiences What has kept this enduring people in a corporate process is their walking together through good times and bad relying on what W E B DuBois called their dogged strength to keep from being torn asunder Somehow and somehow they intuited from historical memory or received from transcendental revelation that keeping on long enough on the road would yield ultimate fruit for the journey

White Men's Dreams, Black Men's Blood Christopher M. Paulin,2001 This book contends that one of the primary motivations of British colonialism in southern Africa at the end of the 19th century was to create a cheap readily available supply of African labour through conquest dispossession taxation and the creation of native reserves or locations doing everything in its power to reduce southern Africa s indigenous population to wage earners dependent on Europeans for their survival In doing so they laid the foundation for apartheid in the 20th century **Tuscany in the Age of Empire** Brian Brege,2021-07-13 A new history explores how one of Renaissance Italy s leading cities maintained its influence in an era of global exploration trade and empire The Grand Duchy of Tuscany was not an imperial power but it did harbor global ambitions After abortive attempts at overseas colonization and direct commercial expansion as Brian Brege shows Tuscany followed a different path one that allowed it to participate in Europe s new age of empire without establishing an empire of its own The first history of its kind Tuscany in the Age of Empire offers a fresh appraisal of one of the foremost cities of the Italian Renaissance as it sought knowledge fortune and power throughout Asia the Americas and beyond How did Tuscany which could not compete directly with the growing empires of other European states establish a global presence First Brege shows Tuscany partnered with larger European powers The duchy sought to obtain trade rights within their empires and even manage portions of other states overseas territories Second Tuscans invested in cultural intellectual and commercial institutions at home which attracted the knowledge and wealth generated by Europe s imperial expansions Finally Tuscans built effective coalitions with other regional powers in the Mediterranean and the Islamic world which secured the duchy s access to global products and empowered the Tuscan monarchy in foreign affairs These strategies allowed Tuscany to punch well above its weight in a world where power was equated with the sort of imperial possessions it lacked By finding areas of common interest with stronger neighbors and forming alliances with other marginal polities a small state was able to protect

its own security while carving out a space as a diplomatic and intellectual hub in a globalizing Europe *Pan-Africanism in Modern Times* Olayiwola Abegunrin, Sabella Ogbobode Abidde, 2016-06-15 For about one hundred years Pan Africanism as a social cultural economic political and philosophical idea thrived Towards the tail end of the twentieth century however it waned But in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in Africa s landscape and consciousness In an increasingly interdependent and interrelated world this book also suggests that Pan Africanism will undergo a metamorphosis problems and challenges will be seen and tackled from the globalization and global common perspective Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory
