Farman's involvement with Communism and the way he documents the Leftist intellectuals agenda through literature At the same time she offers a new detailed reading of his virtuoso use of the Arabic language This book presents an in depth study of the unique metaphors and the image of Baghdad which play a prominent role in Farman's works and hence paves the way to a better understanding of how this prolific writer coped with the predatory regime and his own inner world The insights on the theme of exile in the book can also be applied on the lives of other intellectuals in the period in question in and outside Iraq alike

Pluralism in the Iraqi Novel after 2003 Ronen Zeidel,2020-01-13 Pluralism in the Iraqi Novel is about the use of literature and the novel to express the new content of an Iraqi national identity constructed after the American invasion of 2003 Instead of the homogenizing national identity in Iraqi literature created before 2003 postoccupation literature presents Iraqi society as a kaleidoscope of multiple religious identities converging in an accommodating Iraqi national identity The author argues that this could not have happened without the upheaval of 2003 and its consequent results democracy and political restructuring that incorporated Shia for the first time into the ruling political coalition in recognition of their numerical majority Literature was consequential to processing the complicated subject of Shia Sunni relations and the sectarian identity of each and even more in the wake of the geopolitical events of 2003 literature was instrument in bringing representation of the Kurds the small minorities and even the last Jews of Iraq to the fore As such literature demonstrated its revolutionary power and formed the basis for a New Iraq

How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future

The Politics of Mass Violence in the Middle East Laura Robson, 2020-09-17 The Middle East today is characterized by an astonishingly bloody civil war in Syria an ever more highly racialized and militarized approach to the concept of a Jewish state in Israel and the Palestinian territories an Iraqi state paralyzed by the emergence of class and region inflected sectarian identifications a Lebanon teetering on the edge of collapse from the pressures of its huge numbers of refugees and its sect bound political system and the rise of a wide variety of Islamist paramilitary organizations seeking to operate outside all these states The region s emergence as a zone of violence characterized by a viciously dystopian politics of identity is a relatively recent phenomenon developing only over the past century but despite these shallow historical roots the mass violence and dispossession now characterizing Syria Lebanon Israel Palestine and Iraq have emerged as some of the twenty first century s most intractable problems In this study Laura Robson uses a framework of mass violence

encompassing the concepts of genocide ethnic cleansing forced migration appropriation of resources mass deportation and forcible denationalization to explain the emergence of a dystopian politics of identity across the Eastern Mediterranean in the modern era and to illuminate the contemporary breakdown of the state from Syria to Iraq to Israel *Contemporary Sephardic and Mizrahi Literature* Dario Miccoli, 2017-04-21 This book argues that the literary texts produced by Sephardic and Mizrahi Jews who migrated from the Middle East and North Africa in the 1950s onwards should be considered as part of a transnational arena in which forms of Jewish diasporism and postcolonial displacement interweave Through an original perspective that focuses on novelists poets professional and amateur writers the book explains that these Sephardic and Mizrahi authors are part of a global literary diaspora at the crossroads of past Arab legacies new national identities and persistent feelings of Jewishness **Arab Liberal Thought after 1967** Meir Hatina, Christoph Schumann, 2016-04-29 This volume aims at confronting the image of the Middle East as a region that is fraught with totalitarian ideologies authoritarianism and conflict It gives voice and space to other more liberal and adaptive narratives and discourses that endorse the right to dissent question the status quo and offer alternative visions for society
