Livingstone, Charles W. J. Withers, 2011-12-01 In Geographies of Nineteenth Century Science David N Livingstone and Charles W J Withers gather essays that deftly navigate the spaces of science in this significant period and reveal how each is embedded in wider systems of meaning authority and identity Chapters from a distinguished range of contributors explore the places of creation the paths of knowledge transmission and reception and the import of exchange networks at various scales Studies range from the inspection of the places of London science which show how different scientific sites operated different moral and epistemic economies to the scrutiny of the ways in which the museum space of the Smithsonian Institution and the expansive space of the American West produced science and framed geographical understanding This volume makes clear that the science of this era varied in its constitution and reputation in relation to place and personnel in its nature by virtue of its different epistemic practices in its audiences and in the ways in which it was put to work **I am Marie Curie** Brad Meltzer, 2019-09-10 The first woman to win a Nobel Prize physicist and chemist Marie Curie is the 19th hero in the New York Times bestselling picture book biography series about heroes This friendly fun biography series focuses on the traits that made our heroes great the traits that kids can aspire to in order to live heroically themselves Each book tells the story of one of America's icons in a lively conversational way that works well for the youngest nonfiction readers and that always includes the hero's childhood influences At the back are an excellent timeline and photos Being a woman scientist in the 19th century meant Marie Curie faced plenty of obstacles but she never let them dull her love of science and passion for learning This friendly fun biography series inspired the PBS Kids TV show Xavier Riddle and the Secret Museum One great role model at a time these books encourage kids to dream big Included in each book are A timeline of key events in the hero's history Photos that bring the story more fully to life Comic book style illustrations that are irresistibly adorable Childhood moments that influenced the hero Facts that make great conversation starters A virtue this person embodies Marie Curie's perseverance was critical to making her discoveries known You'll want to collect each book in this dynamic informative series Resources in Education, 1989 **Holt Physics** Raymond A. Serway, 2009-07 Are We the Next Endangered Species? Richard M. Fleming, 2024-07-16 Are We the Next Endangered Species unravels the complex web of historical events misinformation and the ominous convergence of bioweapons and eugenics In this thought provoking new book Dr Fleming challenges us to navigate the murky waters of history exposing parallel programs developed over the last 170 years in the United States This riveting exploration unearths ancient civilizations that embraced slavery sterilization and eugenics drawing chilling parallels to our present reality Dr Fleming confronts the uncomfortable truth are we repeating the

mistakes of the past while expecting different outcomes Are we destined to replicate the errors that led to the rise of powerful individuals and organizations seeking ultimate control over others Key revelations include the stealthy usurpation of power in the United States since the 1850s the nation's pivotal role in developing biological and chemical weapons and its shocking collaboration with Nazi scientists doctors and intelligence officers Dr Fleming unveils the shadowy world of covert operations the establishment of the military industrial complex and the surrender of medical control to the federal government Readers will discover the intricate pathways of biowarfare and eugenics converging with the emergence of COVID They will learn about the gain of function bioweapons responsible for the pandemic and the parallel development of eugenic genetic vaccines Fleming reveals the control wielded by the military industrial complex and world leaders over your life movement property and freedoms This book is not just an exploration of the past or a revelation of how those in power are on the brink of realizing their ultimate control it's a call to action It doesn't just raise awareness it empowers readers to understand question and take decisive action to halt the ominous path we're on In a world where truth is elusive and power is coveted this book is a beacon of knowledge urging you to discover what you can do to stop the impending threats to our existence The future hangs in the balance and *Are We the Next Endangered Species* provides the roadmap to safeguard it

Faughn, 2009-01-01 **Future Consciousness** Thomas Lombardo, 2017-10-27 How do our unique conscious minds reflect and amplify nature's vast evolutionary process This book provides a scientifically informed psychologically holistic approach to understanding and enhancing our future consciousness serving as a guide for creating a realistic constructive and ethical future Thomas Lombardo reveals how we can flourish in the flow of evolution and create a prosperous future for ourselves human society and the planet **Paradigm Islands: Manhattan and Venice**

Teresa Stoppani, 2012-12-06 Concerning architecture and the city built imagined and narrated this book focuses on Manhattan and Venice but considers architecture as an intellectual and spatial process rather than a product A critical look at the making of Manhattan and Venice provides a background to addressing the dynamic redefinition and making of space today The gradual processes of adjustment the making of a constantly changing dense space the emphasis on forming rather than on figure the incorporation of new forms and languages through their adaptation and transformation make both Manhattan and Venice in different ways the ideal places to contextualize and address the issue of an architecture of the dynamic *The Scientific Sublime* Alan G. Gross, 2018 The sublime evokes our awe our terror and our wonder Applied first in ancient Greece to the heights of literary expression in the 18th century the sublime was extended to nature and to the sciences enterprises that viewed the natural world as a manifestation of God's goodness power and wisdom In *The Scientific Sublime* Alan Gross reveals the modern day sublime in popular science He shows how the great popular scientists of our time Richard Feynman Stephen Hawking Steven Weinberg Brian Greene Lisa Randall Rachel Carson Stephen Jay Gould Steven Pinker Richard Dawkins and E O Wilson evoke the sublime in response to fundamental questions How did the universe begin

How did life How did language These authors maintain a tradition initiated by Joseph Addison Edmund Burke Immanuel Kant and Adam Smith towering 18th century figures who adapted the literary sublime first to nature then to science though with one crucial difference religion has been replaced wholly by science In a final chapter Gross explores science s attack on religion an assault that attempts to sweep permanently under the rug two questions science cannot answer What is the meaning of life What is the meaning of the good life
