Herzog Saul Bellow, 2012-07-26 Saul Bellow's *Herzog* is part confessional part exorcism and a wholly unique achievement in postmodern fiction. Is Moses Herzog losing his mind? His formidable wife Madeleine has left him for his best friend and Herzog is left alone with his whirling thoughts yet he still sees himself as a survivor raging against private disasters and the myriad catastrophes of the modern age. In a crumbling house which he shares with rats, his head buzzing with ideas, he writes frantic unsent letters to friends and enemies, colleagues and famous people, the living and the dead, revealing the spectacular workings of his labyrinthine mind and the innermost secrets of his troubled heart. This Penguin Modern Classics edition includes an introduction by Malcolm Bradbury. Spectacular, surely Bellow's greatest novel. Malcolm Bradbury. A masterpiece. Herzog's voice for all its wildness and strangeness and foolishness is the voice of a civilization, our civilization. The New York Times Book Review

When Marx Mattered Harold J. Bershad, 2017-09-08 A beautifully written trenchant and moving memoir. *When Marx Mattered* follows Harold J. Bershad's odyssey from childhood through his coming of intellectual age. The wounds and pleasures of his childhood include fear of Nazis, poverty, the joys and constraints of Jewishness, his caring family and love of music, and the confusion surrounding World War II. In this book Bershad describes his teenage encounter with Marxism and how it provided some understanding of the world and hope for peace. Bershad gives us a serious portrayal of the evolution of scholarly judgment but also a social history of the second half of the twentieth century refracted through the author's own experiences in which Jewish Americans played an important but underappreciated part. Along the way the author corrects the misapprehension that Jewish or non-Jewish American political radicals only evolve into conservatives. Through his own mistakes and hard-won lessons, Bershad shows the power, importance, and morality that intellectual standards play in enabling an intellectual to achieve sound and fair judgments. Bershad firmly believes that his achievements in the social sciences are grounded in the fact that he also studied philosophy, literature, and history, all of which immeasurably deepened his understanding of social life. The generational portrait in this book is both an homage to those who preceded him and a hope for educational broadening of social science in the generation to come.

Surfing in the Movies John Engle, 2015-10-19 Surfing has fascinated filmmakers since Thomas Edison shot footage of Waikiki beachboys in 1906. Before the 1950s surf craze, surfing showed up in travelogues or as exotic background for studio features. The arrival of *Gidget* 1959 on the big screen swept the sport into popular culture, but surfer filmmakers were already featuring the day's best surfers in self-narrated two-reelers. Hollywood and independent filmmakers have produced about three dozen surf films in the last half century, including the frothy Beach Party movies *Point Break* 1991 and *Chasing Mavericks* 2012. From Bud Browne's earliest efforts to *The Endless Summer* 1966 *Riding Giants* 2004 and today's brilliant videos, over 1,000 surfing movies have celebrated the stoke. This first full-length study of surf movies gives critical attention to hundreds of the most important films.

A Simpler Life Talia Dan-Cohen, 2021-03-15 *A Simpler Life* approaches the developing field of synthetic biology by focusing on the experimental and institutional lives of practitioners in two labs at Princeton University. It highlights the distance between hyped technoscience and the more plodding and entrenched aspects of academic research. Talia Dan-Cohen follows practitioners as they wrestle with experiments, attempt to publish research findings, and navigate the ins and outs of academic careers. Dan-Cohen foregrounds the practices and rationalities of these pursuits that give both researchers lives and synthetic life their distinctive contemporary forms. Rather than draw attention to avowed methodology, *A Simpler Life* investigates some of the more subtle and tectonic practices that bring knowledge, doubt, and technological intervention into new configurations. In so doing, the book sheds light on the more general conditions of contemporary academic technoscience.

Why Harry Met Sally Joshua Louis Moss, 2017-07-18 Explicating one of the most potent and recurring mass culture fantasies, this book explores Jewish-Christian couplings across a century of popular American literature, theater, film, and television.

Hope for a Heated Planet Robert K. Musil, 2009 *Hope for a Heated Planet* is an important and timely book. Musil not only makes a strong case that a real climate movement is underway, he shows how a public health perspective can help to accelerate this hopeful new movement.

Southern Cultures: Southern Waters Issue Harry L. Watson, Jocelyn Neal, 2014-08-15 In the Fall 2014 issue of *Southern Cultures*, from mullet fishing on Brown's Island to shrimping on the Gulf Coast, from recreation on the Great Lakes of the South to coastal tourism in the Sunbelt and tramping in the swampy lowlands of eastern NC, we take a look at tourism's vital role in regional economies and the challenges of conservation and sustainability. Also in this issue, Andrew W. Kahrl examines the Sunbelt's foundation, placing the coast at the center of the story and seeking to understand how beaches came to reflect and influence broader changes in the region's cultures and political economy. Christopher J. Manganiello details the rise of dams on the Savannah River, which now block the migration of shad and sturgeon. What did the shoals look like when the lilies bloomed, he asks. And what would it be like to witness the great shad migrations and fishing parties of the past? Ian Draves addresses that question by exploring the Tennessee Valley Authority's impact on tourism, and John James Kaiser chronicles the battle over rate hikes and regulated energy from North
