Savage Time:

International Relations and the Problem of Time Andrew R. Hom, 2020 This book develops a novel approach to the issue of time's widespread but poorly understood influence on the study of international politics Arbitration Board No. 192, N. M. B. Case A-4400 United States. National Mediation Board, 1953

Savage Lies Bill Bowman, 2006-09 Radio talk show host and author Michael Savage has for years been given free rein to distort facts cherry-pick information and just plain lie in supporting his radical conservative opinions Nowhere is this more apparent than in the three books Savage considers his legacy But now award winning journalist Bill Bowman puts the truth to Savage's lies revealing Savage's rampant egotism sloppy research and willingness to spin facts out of whole cloth This is not an attack on Savage's opinions It is however a long overdue fact checking of some of the bedrock arguments Savage uses to substantiate those opinions

Howard Weinbrot and the Precincts of Enlightenment Kevin L. Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot this volume re-examines rebuilds and upgrades the most prominent pillars of long eighteenth century scholarship The collection is divided into four thematic sections beginning with a series of chapters offering fresh analyses of Swift Dryden Hogarth and other major authors and artists of the period In the sections that follow the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today The final section features chapters that probe the complex interaction of identity persona and place traversing the countless locales in which the British and the international eighteenth century emerged The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to Romantic era France Juxtaposing the local and particular against the grand and universal Howard Weinbrot and the Precincts of Enlightenment testifies to the complexity and ongoing significance of eighteenth century culture

Savage Economics David L. Blaney, Naeem Inayatullah, 2010-01-04 Challenges the powerful and pervasive ideas concerning political economy international relations and ethics in the modern world This title provides a fundamental cultural critique of political economy and critically describes the nature of the mainstream understanding of economics

Sympathy and the State in the Romantic Era Robert Mitchell, 2013-10-31 Sympathy and the State in the Romantic Era explores a fascinating connection between two seemingly unrelated Romantic era discourses outlining the extent to which eighteenth and early nineteenth century theories of sympathy were generated by crises of state finance Through readings of authors such as David Hume Adam Smith William Wordsworth and P. B. Shelley this volume establishes the ways in which crises of state finance encouraged the development of theories of sympathy capable of accounting for both the fact of social systems as well as the modes of emotional communication by means of which such systems bound citizens to one another Employing a methodology that draws on the systems theory of Niklas Luhmann Michel Serres and Giovanni Arrighi as well as Gilles Deleuze's theories of time and affect this book argues that eighteenth and early nineteenth century philosophies of

sympathy emerged as responses to financial crises Individual chapters focus on specific texts by David Hume Adam Smith Jean Jacques Rousseau Ann Yearsley William Wordsworth and P B Shelley but Mitchell also draws on periodicals pamphlets and parliamentary hearings to make the argument that Romantic era theories of sympathy developed new discourses about social systems intended both to explain as well as contain the often disruptive effects of state finance and speculation

Thunder Shaman Ana Mariella Bacigalupo, 2016-05-17 As a wild drumming thunder shaman a warrior mounted on her spirit horse Francisca Kolipi's spirit traveled to other historical times and places gaining the power and knowledge to conduct spiritual warfare against her community's enemies including forestry companies and settlers As a civilized shaman Francisca narrated the Mapuche people's attachment to their local sacred landscapes which are themselves imbued with shamanic power and constructed nonlinear histories of intra and interethnic relations that created a moral order in which Mapuche become history's spiritual victors Thunder Shaman represents an extraordinary collaboration between Francisca Kolipi and anthropologist Ana Mariella Bacigalupo who became Kolipi's granddaughter trusted helper and agent in a mission of historical reconstruction and myth making The book describes Francisca's life death and expected rebirth and shows how she remade history through multitemporal dreams visions and spirit possession drawing on ancestral beings and forest spirits as historical agents to obliterate state ideologies and the colonialist usurpation of indigenous lands Both an academic text and a powerful ritual object intended to be an agent in shamanic history Thunder Shaman functions simultaneously as a shamanic bible embodying Francisca's power will and spirit long after her death in 1996 and an insightful study of shamanic historical consciousness in which biography spirituality politics ecology and the past present and future are inextricably linked It demonstrates how shamans are constituted by historical political and ecological events while they also actively create history itself through shamanic imaginaries and narrative forms

Magical Criticism Christopher Bracken, 2008-09-15 During the Enlightenment Western scholars racialized ideas deeming knowledge based on reality superior to that based on ideality Scholars labeled inquiries into ideality such as animism and soul migration savage philosophy a clear indicator of the racism motivating the distinction between the real and the ideal In their view the savage philosopher mistakes connections between signs for connections between real objects and believes that discourse can have physical effects in other words they believe in magic Christopher Bracken's Magical Criticism brings the unacknowledged history of this racialization to light and shows how even as we have rejected ethnocentric notions of the savage they remain active today in everything from attacks on postmodernism to Native American land disputes Here Bracken reveals that many of the most influential Western thinkers dabbled in savage philosophy from Marx Nietzsche and Proust to Freud C S Peirce and Walter Benjamin For Bracken this recourse to savage philosophy presents an opportunity to reclaim a magical criticism that can explain the very real effects created by the discourse of historians anthropologists philosophers the media and governments
