Java Justin J. Corfield,1999 Empires of the Weak J. C. Sharman,2020-11-10 What accounts for the rise of the state the creation of the first global system and the dominance of the West The conventional answer asserts that superior technology tactics and institutions forged by Darwinian military competition gave Europeans a decisive advantage in war over other civilizations from 1500 onward In contrast *Empires of the Weak* argues that Europeans actually had no general military superiority in the early modern era J C Sharman shows instead that European expansion from the late fifteenth to the late eighteenth centuries is better explained by deference to strong Asian and African polities disease in the Americas and maritime supremacy earned by default because local land oriented polities were largely indifferent to war and trade at sea Europeans were overawed by the mighty Eastern empires of the day which pioneered key military innovations and were the greatest early modern conquerors Against the view that the Europeans won for all time Sharman contends that the imperialism of the late nineteenth and early twentieth centuries was a relatively transient and anomalous development in world politics that concluded with Western losses in various insurgencies If the twenty first century is to be dominated by non Western powers like China this represents a return to the norm for the modern era Bringing a revisionist perspective to the idea that Europe ruled the world due to military dominance *Empires of the Weak* demonstrates that the rise of the West was an exception in the prevailing world order **Oxford Dictionary of National Biography: Sartorius-Sharman** Henry Colin Gray Matthew,Brian Harrison,Brian Howard Harrison,2004 55 000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002 Nature Sir Norman Lockyer,1911 *Pacific Affairs* ,1979 **Nature: A Weekly Illustrated Journal of Science** ,1911 **The Illustrated Dictionary of Gardening** George Nicholson,1887 *IEEE Membership Directory* Institute of Electrical and Electronics Engineers,1988 *A Guide to Manuscripts and Documents in the British Isles Relating to Africa* Mary Doreen Wainwright,1971 This book constitutes the first comprehensive record of manuscripts and documents in Western languages together with a number of African languages in the British Isles which have relevance to Africa south of the Sahara *Women and Poverty in the Third World* International Center for Research on Women,1983 Conference papers on the conflicting social role and economic role of women partic Rural women in developing countries in the struggle against poverty examines women s paid employment unpaid work income generating activities and role as homemaker time budgets child care nutrition and access to education discusses the problems of female headed households looks at the methodology of poverty measurement Bibliography and statistical tables **Lloyd's Register of Shipping** ,1955 Contains a list of shipbuilders with existing ships they have built marine enginebuilders and boilermakers dry and wet docks telegraphic addresses and codes used by shipping firms maritime insurance companies **Index to the Correspondence of the Foreign Office for the Year** Great Britain.
