Living in Latin America

Fill in the Blanks

DIRECTIONS: Use the information in your textbook to fill in the blanks for the following sentences.

- Many agricultural crops in Latin America are intended for export to other countries.
- Today large-scale, money-making farms require fewer workers because they are highly mechanized.
- The cool, fertile highlands of Brazil and Columbia grow some of the world's best coffee.
- Hot, tropical areas of Latin America, particularly in Cuba and Brazil, grow large crops of bananas and sugarcane.
- If natural disasters such as floods destroy their main crop, the economy^{-ies} of these countries suffer, as do their people.
- In some Latin American countries, geographical features such as the high Andes Mts have hindered transportation and communication.
- Mexico's industries are growing; it is a major producer of textiles, processed foods, and motor vehicles.
- Venezuela is a major oil-producing country in Latin America.
- Manufacturing plants built in Latin America by foreign companies that use cheap local labor are called maquiladoras.
- The North American Free Trade Agreement (NAFTA) promotes trade among the United States, Mexico, and Canada.
- In the United States, some people dislike NAFTA because they fear the loss of jobs to generally lower-paid Mexican workers.
- Money borrowed to boost industrialization has led to enormous foreign debt in many Latin American countries.
- Despite physical barriers, some Latin American countries have well-developed rail-roads or computers.
- Every Latin American country is improving its communications, but few people have telephones in their homes.

Final Environmental Impact Statement for Hydropower License ,2007 **Klamath Hydroelectric Project, FERC Project No. 2080-027, Oregon and California** ,2007 **180 Days**: Geography for First Grade Rane Anderson,2018-03-01 180 Days of Geography is a fun and effective daily practice workbook designed to help students learn about geography This easy to use first grade workbook is great for at home learning or in the classroom The engaging standards based activities cover grade level skills with easy to follow instructions and an answer key to quickly assess student understanding Each week students will explore a new topic focusing on map skills applying information and data and connecting what they have learned Watch students build confidence as they learn about location place human environment interaction movement and regions with these quick independent learning activities Parents appreciate the teacher approved activity books that keep their child engaged and learning Great for homeschooling to reinforce learning at school or prevent learning loss over summer Teachers rely on the daily practice workbooks to save them valuable time The ready to implement activities are perfect for daily morning review or homework The activities can also be used for intervention skill building to address learning gaps Resources in Education ,1989-05 Introduction to Geography: Where in the world do Muslims Live? Susan Douglass,1995-01-01 This supplementary unit is an introduction to the geography of regions where Muslims live as majorities and a description of the circumstances in which Muslims live as minorities The focus is more regional than national so as to overstep the arbitrary modern borders that divide Muslim populations among numerous countries The unit is designed to complement typical geography surveys offered in elementary social studies curricula It is designed for grade four but may be used for grades five and six if the curriculum so requires Study of this unit may be undertaken after the students have received an introduction to basic geography and map skills It is probably best undertaken during the second half of the fourth grade year but since important geography concepts and skills are both introduced and reviewed here the teacher may be confident to proceed earlier The structure of the unit is unique in that the student text is in the form of a play script whose characters a teacher and her students model a cooperative learning experience as they study regions of the world where Muslims live The main objectives of this unit are to provide students with an overview of the places where Muslims live as majority and minority communities and to investigate selected aspects of geographic and cultural diversity within the context of Islamic unity The unit consists of an eight lesson student text with teaching suggestions and enrichment activities Comprehension questions map skills and worksheets accompany the text for concept reinforcement and skill building While the unit is designed for flexibility it is recommended that the students be exposed to the entire student text If time does not allow extensive study of the unit materials the teacher may select only basic material from the teaching suggestions rather than covering these with depth and enrichment *Park Science* ,1981 **I Have, Who Has?
