Saunders Comprehensive Review for the NCLEX-RN® Examination - E-Book Linda Anne Silvestri, Angela Silvestri, 2022-06-25 Prepare for success on the NCLEX RN exam with this complete review Often called the best NCLEX exam review book ever Saunders Comprehensive Review for the NCLEX RN Examination reviews all nursing content areas related to the current test plan This new edition includes 5 700 NCLEX exam style questions in the book and online including alternate items formats and Next Generation NCLEX questions Don't make the mistake of assuming the quality of the questions is the same in all NCLEX exam

review books because only this book includes the kinds of questions that consistently test the clinical judgment skills necessary to pass today's NCLEX exam. Even better, all answers include detailed rationales to help you learn from your answer choices as well as test-taking strategies with tips on how to best approach each question. Written by the most trusted names in NCLEX review, Linda Anne Silvestri and Angela Elizabeth Silvestri, this is THE book of choice for NCLEX preparation. But don't just take our word for it; read any customer review or ask your classmates to see why there's nothing else like it. More than 5,700 practice questions in the text and on the Evolve website offer ample testing practice. UNIQUE Detailed test-taking strategy is included for each question, offering clues for analyzing and uncovering the correct answer option with rationales provided for both correct and incorrect answers. UNIQUE Pyramid Points icons indicate important information identifying content that is likely to appear on the NCLEX RN examination. UNIQUE Pyramid Alerts appear in red text and highlight important nursing concepts and identify content that typically appears on the NCLEX RN examination. UNIQUE Priority Concepts: two in each chapter discuss important content and nursing interventions and reflect the latest edition of Giddens' *Concepts for Nursing Practice* text. UNIQUE Priority Nursing Action boxes provide information about the steps you will take in clinical situations requiring clinical judgment and prioritization. UNIQUE Audio review summaries on Evolve cover pharmacology, acid-base balance and fluids and electrolytes. New graduate's perspective is offered on how to prepare for the NCLEX RN in addition to nonacademic preparation: the CAT format and test-taking strategies. Mnemonics are included to help you remember important information. Alternate item format questions cover multiple response, prioritizing, ordered response, fill-in-the-blank, figure illustration, hot spot, chart exhibit, video, and audio questions. 75-question comprehensive exam in the book covers all content areas in the book in the same percentages that they are covered on the actual NCLEX RN test plan. Practice questions on Evolve are organized by content area, cognitive level, client needs area, integrated process, health problem, clinical judgment, and priority concepts, allowing completely customizable exams or study sessions.

Garrett** K. Chan,2005 Emergency departments EDs are places of high stress are fast paced and are generally a place of transition in the hospital Patients do not usually stay in the ED and are often transferred to an inpatient unit transferred to another hospital for a higher level of care or discharged home Even though we confront transition in this rescue area ED clinicians may not be cognizant of the types of death that they attend The closing of a person's life is the end of a biography and the person may not ever leave the ED The purpose of this interpretive study is to describe the lived experience of ED clinicians clinical and ethical decision making distress and resolution of actual or potential dying and resuscitative events in an effort to unravel the perceived personal ethical cultural environmental and clinical factors that influence the care of dying ED patients This interpretive project aims at making explicit caring practices

of clinicians and seeking common meaning in ED end of life care This dissertation is a thick description of the ED culture and characteristics a theoretical examination of end of life models a philosophical investigation of how ED clinicians understand and recognize patients are dying and how patients approach death and die in the ED End of life research has not focused on end of life in the ED This is a new frontier to be explored Chapter Two is a description of ED culture and characteristics with a review critique and theoretical examination of the applicability of current end of life models to ED care Current end of life models that are based on chronic care or oncology models are difficult to apply in the ED setting The limitations of these models are that they do not allow for the uncertainty of prognosis or for mortality in sudden illness or injury do not take in account unpredictability of the course of treatments and cannot accommodate the suddenness of presentation of illness or injury or the sudden change in patient condition Chapter Three is a philosophical examination of end of life care in the ED in an effort to help us understand how core medical and nursing values are embodied as care practices and ethical comportment This chapter integrates Aristotle and other philosophers notions of phronesis and praxis with Merleau Ponty s ontological notions of intentional arc and maximum grip in the context of the culture and practices at the end of life in the emergency department setting Chapter Four is a review of phenomenology as a research methodology Chapter Five is the dissertation study that describes the seven trajectories of how patients approach death and die in the ED These seven trajectories are 1 dead on arrival 2 resuscitation in the field resuscitative efforts in the ED died in the ED 3 resuscitation in the field resuscitative efforts in the ED resuscitated and admitted to the hospital 4 terminally ill comes to the ED 5 frail hovering near death 6 arrives at the ED alive then arrests dies suddenly in the ED and 7 potentially preventable death by omission or commission
