Leading the Life You Want Stewart Friedman, 2014-09-16 A Wall Street Journal Bestseller For nearly thirty years my life's work has been to help people like you find ways to bring the often warring aspects of life into greater harmony Stew Friedman from *Leading the Life You Want* You're busy trying to lead a full life But does it really feel full or are you stretched too thin Enter Stew Friedman Wharton professor adviser to leaders across the globe and passionate advocate of replacing the misguided metaphor of work life balance with something more realistic and sustainable If you're seeking

balance you'll never achieve it argues Friedman. The idea that work competes with life ignores the more nuanced reality of our humanity: the interaction of four domains—work, home, community, and the private self. The goal is to create harmony among them instead of thinking only in terms of trade-offs. It can be done. Building on his national bestseller *Total Leadership* and on decades of research, teaching, and practice as both consultant and senior executive, Friedman identifies the critical skills for integrating work and the rest of life. He illustrates them through compelling original stories of these remarkable people: former Bain Company CEO and Bridgespan co-founder Tom Tierney; Facebook COO and bestselling author Sheryl Sandberg; nonprofit leader and US Navy SEAL Eric Greiten; US First Lady Michelle Obama; soccer champion turned broadcaster Julie Foudy; renowned artist Bruce Springsteen. Each of these admirable though surely imperfect people exemplifies a set of skills for being real, being whole, and being innovative that produce a sense of purpose, coherence, and optimism. Based on interviews and research, their stories paint a vivid picture of how six very different leaders use these skills to act with authenticity, integrity, and creativity, and they prove that significant public success is accomplished not at the expense of the rest of life but as the result of meaningful engagement in all its parts. With dozens of practical exercises for strengthening these skills, curated from the latest research in organizational psychology and related fields, this book will inspire you, inform you, and instruct you on how to take realistic steps now toward leading the life you truly want. *Sheryl Sandberg, China and Me* J. T. Gilhool, 2013-07-01

Jennifer leaped at the opportunity to take her career to the next level. The Salt Mine was growing in Asia Pacific. Africa. It needed leaders from the home office in the States to move to China and pull together a cohesive team that could deliver the results the Board of Directors, shareholders, and analysts expected. It was an opportunity to build a team from the ground up, a chance to be the first director in Asia Pacific for her functional organization and one of only three women in leadership roles there. She knew the work would be hard. She would have to put in long hours, travel across the region, be away from her three children and husband for days or weeks at a time. It would be worth the sacrifice not only for her career but for the opportunity to take her children to China and across southeast Asia. A once-in-a-lifetime experience for all of them from the challenge of living in a new and very different country to traveling through Malaysian rain forests, Cambodian and Thai temples, and across China itself. But she had not anticipated that it would cost her almost everything: her relationships with her children, her sense of self, and at times her sanity. This first-hand account of journeying into corporate leadership gives readers a unique look inside the real life of an ambitious career woman who leaned in and tried to grasp the brass ring. As Jennifer discovered, not every brass ring is worth reaching for. **Sheryl Sandberg and Adam Grant on Option B: Building Resilience** Sheryl Sandberg, 2018 **Sheryl Sandberg** Michael A.
