Archival Theory, Records, and the Public Trevor Livelton, Society of American Archivists, 2003 Now in paperback Livelton considers the nature of public records from an archival perspective analyzing concepts rather than the daily realities with which public records archivists deal However his carefully reasoned conclusions provide a strong foundation on which principled rather than ad hoc decisions can be made and so will be of interest to teachers students and practitioners of archival science The author presents a general or theoretical view of public records as documents made or received and preserved by the sovereign or its agents in the conduct of governance This analysis is illustrated by a variety of examples including a discussion of freedom of information

What Is Landscape? John R. Stilgoe, 2018-04-20 A lexicon and guide for discovering the essence of landscape Mr Stilgoe does not ask that we take his book outdoors with us he believes that reading and experiencing landscapes are activities that should be kept separate But as I learned in his book the

hollow storage area in a car driver's door was once a holster the secure nesting place of a pistol I recommend you stow your copy there

The Wall Street Journal Landscape John Stilgoe tells us is a noun From the old Frisian language once spoken in coastal parts of the Netherlands and Germany it meant shoveled land *landschop* Sixteenth century Englishmen misheard or mispronounced this as *landskep* which became *landskip* then *landscape* designating the surface of the earth shaped for human habitation

In *What Is Landscape* Stilgoe maps the discovery of landscape by putting words to things zeroing in on landscape's essence but also leading sideways expeditions through such sources as children's picture books folklore deeds antique terminology out of print dictionaries and conversations with locals

What is that Well it's not really a slough not really it's a bayou He offers a highly original cogent compact gracefully written narrative lexicon of landscape as word concept and path to discoveries

What Is Landscape is an invitation to walk to notice to ask to see a sandcastle with a pinwheel at the beach and think of Dutch windmills icons of triumph markers of territory won from the sea to walk in the woods and be amused by the Elizabethans' misuse of the Latin *silvaticus* people of the woods to coin the word savages to see in a suburban front lawn a representation of the meadow of a medieval freehold

Discovering landscape is good exercise for body and for mind This book is an essential guide and companion to that exercise to understanding literally and figuratively what landscape is
