radical ideas of urbanism Kenz Tange's Plan for Tokyo 1960 further celebrated urban expansion as organic processes and pushed city design to an unprecedented scale Metabolists' visionary schemes of the city gave birth to revolutionary design paradigms which reinvented the discourse of modern Japanese architecture and propelled it through the years of Economic Miracle to a global prominence Their utopian concepts which often envisaged the sea and the sky as human habitats of the future reflected fundamental issues of cultural transformation and addressed environmental crises of the postindustrial society This new edition expands Zhongjie Lin's pathbreaking account on Tange and Metabolism centered at the intersection of urbanism and utopianism The thorough historical survey from Metabolism's inauguration at the 1960 World Design Conference to the apex of the movement at Expo 70 and further to the recent demolition of Nakagin Capsule Tower leads to a definition of three Metabolist urban paradigms megastructure group form and ruins which continue to inspire experiments in architecture city design and conservation Kenz Tange and the Metabolist Movement is a key book for architectural and urban historians architects and all those interested in avant garde design Japanese architecture and contemporary urbanism

Architecture and Identity Peter Herrle, Erik Wegerhoff, 2008 This book brings together complex fields of knowledge and globally splintered discourses on a subject that is experienced not only by scholars but in the everyday lives of people around the world There is a common complaint about the loss of identity which to a substantial degree is being associated with the built environment in cities and specifically with their architecture Architecture and Identity takes a global multidisciplinary look on how identities in contemporary architecture are constructed The general hypothesis underlying this book is that in a globalized world identity in architecture cannot be easily derived from distinct indigenous patterns The book presents forty contributions from various disciplines aiming to destroy the myth of an inheritable or otherwise prefabricated identity Some authors dismantle constructs of identity that have long been considered as solid and unbreakable while others meticulously unravel the construction process of identities in *Survival Boogie Woogie. Neo-Japonisme, Architectural Photography & Abstraction* Jean-Sébastien Cluzel, 2024-07-01 What links are there between Piet Mondrian's unfinished work Victory Boogie Woogie 1942-4 and post war Japanese and Japanese style architectural photography As far back as the mid 1950s critics and photographers were inclined to link Mondrian's painting with modern Japanese architecture and some historians were to go so far as to assert that Mondrian himself had been influenced by traditional Japanese architecture Powerful associations such as these contributed to the coming together of Western and Japanese architectural modernity They also underpinned the survival of Japonisme in architecture or put another way of the neo Japonisme that emerged after the Second World War However while this kinship between Mondrian's abstraction and the aesthetic of Japanese architecture is little apparent in architecture it does show in architectural photography This book which takes a sidelong look at Mondrian examines the works of the foremost among Japanese and American architectural photographers in an effort to interpret the dynamics of how the world of architecture was Japanized between 1945 and 1985
