

Assessment of Knowledge, Attitude, and Practices on HIV/AIDS Patient Care among Clinical Medical Students at KIUTH

Ihato Ivor Twirire

Medicine and Surgery at Kampala International University, Ishiaka Western Campus, Uganda

ABSTRACT

Globally, HIV-related deaths have fallen, most likely due to the intervention of Highly Active Anti-Retroviral Therapy (HAART). New HIV infections have fallen by about 35% since 2016, with approximately 180 000 newly infected in 2021, compared to approximately 270 000 in 2016. The study assessed knowledge, attitude, and practices on HIV/AIDS patient care among clinical medical students at Kampala International University Teaching Hospital (KIUTH). Using a questionnaire as a method of data collection, the descriptive study design included both male and female participants from a population of 322 people. The study showed that there was good knowledge of students on HIV patient care, as all the students knew how HIV is diagnosed at an odds ratio of 1.0 (0.5–4.22) and a p-value of 0.05, although 127 (70.6%) of those who had never taken care of people living with HIV didn't know different HIV ART combinations. The study also showed good student attitudes towards HIV patient care, in which most students were willing to stay near HIV patients and treat them at an odds ratio of 0.7 (0.002–8.05) and a p-value of 0.444, but poor practices, in which only 142 (44.1%) had cared for HIV and 61.7% had never counselled HIV patients at an odds ratio of 1.5 (0.75–7.78) and a p-value of 0.24. In conclusion, the majority of the participants had knowledge, attitude, and practice of HIV patient care among clinical medical students. The study recommends that medical students should be given health education about patient care so as to increase their knowledge and capacity to look after patients. The study recommends that the government decentralise HIV services to low-level health centres so as to bring services closer to people. The study also recommends that there should be outreach to communities to do voluntary testing and counselling for the population to know the people who could be HIV positive but are not yet tested.

Keywords: Assessment, Knowledge, Attitude, Practices, HIV/AIDS Patient, Clinical students.

INTRODUCTION

Medical education is one of the professional trainings that aim to turn a layperson into a professional, a doctor in this context. Transformations in theoretical perspectives and teaching strategies are abounding in medical education in order to produce doctors who are not only knowledgeable and skilled but also behave professionally [1]. Globally, HIV-related deaths have fallen, most likely due to the intervention of Highly Active Anti-Retroviral Therapy (HAART) [2–3]. New HIV infections have fallen by about 35% since 2016, with approximately 180 000 newly infected in 2021, compared to approximately 270 000 in 2016 [6]. Approximately 21.7 million people with HIV were accessing antiretroviral therapy by June 2021, as compared to an estimate of 15.8 million in June 2019 and 7.5 million in 2016 [6]. An estimated 46% of people with HIV had access to treatment, and about 77% of HIV-positive pregnant women had access to antiretroviral medication for the prevention of HIV transmission from mother to

baby [7]. In 2021, an estimated 36.9 million people were living with HIV (including 1.8 million children), with a global HIV prevalence of 0.8% among adults. Around 25% of these same people do not know that they have the virus [8]. The vast majority of people living with HIV are located in low- and middle-income countries, with an estimated majority living in sub-Saharan Africa [9–11]. Among this group, 19.6 million are living in East and Southern Africa, which saw 800,000 new HIV infections in 2021 [6].

In Uganda, as of 2019, the estimated HIV prevalence among adults (aged 15 to 49) stood at 5.9%. Women are disproportionately affected, with 8.8% of adult women living with HIV compared to 4.5% of men [12]. Other groups particularly affected by HIV in Uganda are sex workers, young girls and adolescent women, men who have sex with men, people who inject drugs, and people from Uganda's transient fishing communities [13]. In 2017, Uganda reached a tipping point whereby the number of new

Science Commerce Volume 5 *Health of HIV Infected People* Ronald Ross Watson, 2015-04-29 Health of HIV Infected People Food Nutrition and Lifestyle Without Antiretroviral Drugs defines the supportive roles of bioactive foods exercise and dietary supplements on the health of HIV infected people who do not have access to resources or those who choose not to utilize antiretroviral drugs Approaches such as the application of traditional herbs and foods are given careful definition by experts who define the risks and benefits of such practices within this important context Readers learn how to treat or ameliorate the effects of chronic retroviral disease using readily available cheap foods and dietary supplements Ultimately this work delivers a current concise scientific appraisal of the efficacy of key foods nutrients dietary plants and behavioral changes in preventing and improving the quality of life of HIV infected infants and adults who are not undergoing antiretroviral therapy Covers the role of nutrients in the prevention and treatment of HIV induced physiological changes Delivers important coverage on the relationship between HIV infection and infant feeding practice along with public health policy recommendations in social and cultural context Provides coverage of fitness and exercise regimens physical activity and behavioral and lifestyle changes on HIV infected individuals Explores food and treatment of obesity diabetes and cardiovascular disease in HIV infected patients including those without antiretroviral therapeutic treatment **Psychology of Sexuality & Mental Health Vol. 2** Naveen Pant, 2025-02-23 This book is the second volume of Psychology of Sexuality Mental Health It is about modern approaches in the psychology of sexuality and mental health This is a unique book which focuses mainly on current trends in Human Sexuality its psychology and its relationship with mental health In this book s sections and scientific chapters effort is made to include common fields of modern sexuality thoughts which relates to Psychology and Mental Health The first section of the book is Modern Approaches on Psychology of Sexuality which through its different chapters discusses and scientifically explores modern aspects of sexuality including current trends sexuality education asexuality sexual orientation and the issues of the LGBT community and effects of menopause etc The section is supported by both systematic reviews and empirical approach The second section of the book is Modern Psychology of Sexuality and Mental Health which discusses modern correlates of combining sexuality and mental health including HIV pornography mental illness and sexuality and mental health correlates for LGBT and transgender people The section further looks at the attitude towards sexuality education and its impact on mental health among students Both sections include genuine scientific studies empirical research and systematic reviews Thus this book rich in content text is addressed to students researchers scientists and readers of the field Characterizing the HIV/AIDS Epidemic in the Middle East and North Africa Francisca Ayodeji Akala, Iris Semini, 2010 Despite global progress in understanding the epidemiology of the human immunodeficiency virus HIV knowledge about the epidemic in the Middle East and North Africa MENA remains limited and subject to much controversy In the more than 25 years since the discovery of HIV no scientific study has provided a comprehensive data driven synthesis of the spread of HIV AIDS acquired immunodeficiency syndrome in the region

Consequently the effectiveness of policies programs and resources intended to address the spread of HIV AIDS has been compromised This report aims to fill the knowledge gap by providing the first ever comprehensive scientific assessment and data driven epidemiological synthesis of HIV s spread in MENA It is based on a literature review and analysis of thousands of largely unrecognized publications reports and data sources extracted from scientific literature or collected from sources at the local national and regional levels The resulting collection of data provides a solid foundation on which efforts to stem the spread of HIV AIDS can be based Characterizing the HIV AIDS Epidemic in the Middle East and North Africa will be of particular interest to policy makers researchers development practitioners and specialists in public health and epidemiology

Knowledge, Attitude and Practice Related to HIV/AIDS Prevention Among Secondary School Students in Klang, Malaysia Mahtab Mohammadi,2010 The HIV AIDS has killed more than 25 million people since it was first recognized in 1981 making it one of the most destructive pandemics in recorded history The adolescents generally tend to have high levels of knowledge about the meaning of HIV transmission However somewhat lower levels of knowledge about effective means of protection lack some critical information and hold a number of misconceptions about the risks associated with casual contact Knowledge about HIV AIDS is clearly important to young people to preventive actions such as condom use The aim of this study was to determine the level of knowledge attitude and practices related to HIV AIDS prevention among secondary school students in Klang district A cross sectional study design was used The study population was secondary school students in Klang district Data was collected from 9th of February to 28th of March 2009 using a pre tested self administered Bahasa Malaysia questionnaire Data was analyzed using SPSS version 16.0 Out of the 2273 students 61.7% were male Majority were Malays 37.2% followed by Chinese 35.7% and Indians 26.0% The mean age ranged from 14 to 18 years The overall mean age among the males 15.48 SD 1.14 years was not significantly different from that of the females 15.49 SD 0.04 years $t = 0.26$ df 2271 $p = 0.05$ The main sources of information for HIV AIDS awareness reported by the respondents were the print media 62.3% The overall mean knowledge score of the respondents was 7.01 SD 3.62 and ranged from 0 to 15 points One hundred and eighteen students 5.2% obtained 0 zero marks in knowledge questions score and 88.8% of students had less than 75% of full marks in knowledge question score The result of this study revealed that although the majority 77.7% of students knew that AIDS is a fatal disease almost 52% were not aware that there is no cure for AIDS and only 23.7% knew that there is no vaccine that can stop people from getting HIV More than half of the participants believed that HIV transmission was possible through casual contact with HIV positive persons such as sharing food 68.6% sharing a glass of water 71.1% and from mosquito bites 60.4% Abstaining from sexual intercourse having one uninfected faithful sex partner and use of condoms as an HIV prevention measure was not well understood among the participants as indicated by incorrect response rate of 55.7% 63.5% and respectively Mean attitude score toward HIV AIDS was 25.32 SD 3.60 and ranged from 8 to 45 points Mean practice score regarding HIV AIDS was 4.53 SD 1.063 and ranged from 0 to 6 points and mean sexual

behavior score was 3.73 SD 0.78 and ranged from 0 to 6 points. The results also showed that knowledge of respondents was significantly associated with age $F(33, 41) p = 0.001$ and academic grade $F(31, 47) p = 0.001$. Attitude related to HIV/AIDS was significantly associated with age $F(10, 52) p = 0.001$, mother's education $F(2, 87) p = 0.035$ and academic grade $F(21, 03) p = 0.002$. The practice of respondents related to HIV/AIDS was significantly associated with gender $F(153, 95) p = 0.001$, age $F(9, 32) p = 0.001$, religion $F(2, 82) p = 0.024$, family income $F(2, 88) p = 0.035$ and academic grade $F(4, 56) p = 0.001$. In conclusion, the result of study showed that the level of knowledge related to HIV/AIDS among secondary school students in Klang is not satisfactory. There is considerable misconception regarding transmission and prevention of HIV/AIDS. The respondents seem to have unfavorable attitude on the prevention of HIV/AIDS. Among 6.1% of student that admitted to have ever had sexual intercourse, only 43.1% of them reported that they or their partners used condom at last sexual intercourse. It is recommended that peer education intervention on improvement of knowledge, attitudes and behavior of secondary school children related to HIV prevention be implemented.

Aids Awareness Through Community Participation Meenu Sharma, 2006. AIDS is the most devastating epidemic mankind has ever faced. The book delves into the lives of some such communities with a modest attempt to create AIDS awareness amongst them. The book makes a concerted effort to understand various issues related to AIDS. HIV/Aids in the Western Balkans, 2005-01-01. In recent years, Europe and Central Asia has experienced the world's fastest growing HIV/AIDS epidemic. Yet in the Western Balkan countries, the HIV prevalence rate is under 0.1 percent, which ranks among the lowest. This may be due to a low level of infection among the population or partly due to inadequate surveillance systems. All major contributing factors for the breakout of an HIV/AIDS epidemic are present in the Western Balkans. HIV/AIDS disproportionately affects youth; 80 percent of HIV infected people are 30 years old or younger. Most of the Western Balkan countries have very young populations.

Index Medicus, 2001. *Strategies for Prevention of Sexual Transmission of HIV/AIDS Among Adolescents* Njeri Mbugua, 1999. **An Insight into University Medical and Health Science Courses** Sunjoo Kang, Melody Goodman, Harshad Thakur, 2022-12-26. *Inside Xinjiang* Anna Hayes, Michael Clarke, 2015-12-14. The Xinjiang Uyghur Autonomous Region is China's largest province, shares borders with Kazakhstan, Kyrgyzstan, Tajikistan, Afghanistan, Pakistan, Russia, and Mongolia, and possesses a variety of natural resources including oil. The tensions between ethnic Muslim Uyghurs and the growing number of Han Chinese in Xinjiang have recently increased, occasionally breaking out into violence. At the same time, as being a potential trouble spot for China, the province is of increasing strategic significance as China's gateway to Central Asia, whose natural resources are of increasing importance to China. This book focuses in particular on what life is like in Xinjiang for the diverse population that lives there. It offers important insights into the social, economic, and political terrains of Xinjiang, concentrating especially on how current trends in Xinjiang are likely to develop in the future. In doing so, it provides a broader understanding of the region and its peoples.

HIV/AIDS Victor R. Preedy, Ronald Ross Watson, 2017-11-21. *HIV/AIDS: Oxidative Stress and Dietary Antioxidants* provides comprehensive coverage of oxidative stress.

in HIV AIDS focusing on both the pathological process around molecular and cellular metabolism and the complications that can arise due to nutritional imbalance It provides a pathway for researchers and clinicians to gain an in depth understanding of the role of oxidative stress bridging the transdisciplinary divide between virologists immunologists physicians clinical workers food scientists and nutritionists to advance medical sciences and enable preventative treatment strategies Very often oxidative stress is a feature of HIV AIDs or of the treatment of HIV AIDs While immunologists physicians and clinical workers understand the processes in HIV AIDs they may be less conversant in the science of nutrition and dietetics Similarly nutritionists and dietitians may be less conversant with the detailed clinical background and science of HIV AIDs Offers holistic coverage of HIV AIDS and the role of oxidative stress Written by a leading team of international experts Provides a roadmap to therapeutic potential and crosses the trans tissue or transdisciplinary divides **Reference Guide of**

Knowledge Attitude And Practices Regarding Hiv Aids Among Introduction

In today's digital age, the availability of Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Knowledge Attitude And Practices Regarding Hiv Aids Among versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain,

meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Knowledge Attitude And Practices Regarding Hiv Aids Among books and manuals for download and embark on your journey of knowledge?

FAQs About Knowledge Attitude And Practices Regarding Hiv Aids Among Books

What is a Knowledge Attitude And Practices Regarding Hiv Aids Among PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Knowledge Attitude And Practices Regarding Hiv Aids Among PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Knowledge Attitude And Practices Regarding Hiv Aids Among PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Knowledge Attitude And Practices Regarding Hiv Aids Among PDF to another file**

format? There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
