North Carolina at Chapel Hill. Graduate School,1965 Advertising Theory Shelly Rodgers, Esther Thorson, 2019-04-15 Advertising Theory provides detailed and current explorations of key theories in the advertising discipline The volume gives a working knowledge of the primary theoretical approaches of advertising offering a comprehensive synthesis of the vast literature in the area Editors Shelly Rodgers and Esther Thorson have developed this volume as a forum in which to compare contrast and evaluate advertising theories in a comprehensive and structured presentation With new chapters on forms of advertising theories and concepts and an emphasis on the role of new technology this new edition is uniquely positioned to provide detailed overviews of advertising theory Utilizing McGuire s persuasion matrix as the structural model for each chapter the text offers a wider lens through which to view the phenomenon of advertising as it operates within various environments Within each area of advertising theory and across advertising contexts both traditional and non traditional approaches are addressed including electronic word of mouth advertising user generated advertising and social media advertising contexts This new edition includes a balance of theory and practice that will help provide a working knowledge of the primary theoretical approaches and will help readers synthesize the vast literature on advertising with the in depth understanding of practical case studies and examples within every chapter It also looks at mobile advertising in a broader context beyond the classroom and explores new areas such as native advertising political advertising mobile advertising and digital video gaming **Accounting History 1976-1986 (RLE Accounting)** Peter Boys, John Freear, 2013-12-04 The

journal *Accounting History* was published in eight volumes intermittently between 1976 and 1986. It had a relatively small circulation and this re issue of its anthology provides the opportunity for many of the articles which appeared in the journal over the years to once again reach a wider audience. The volume begins with items of a general nature covering the importance of preserving accounting records and accounting history in general. Subsequent categories deal with the methodology of historical accounting research, government accounting, taxation, bankruptcy, professional accountancy and accounting theory as well as auditing and management accounting.

Media Economics Colin Hoskins, Stuart McFadyen, Adam Finn, 2004-06-16

Hoskins, McFadyen and Finn de-dismalise economics. Their book is clearly written, full of cogent and apposite examples and analyses persuasively what makes media and communications like and unlike other economic sectors. From network externality to public good, from experience goods to superstars, from dumping to quotas, they lucidly guide the reader through the tangles of the new economy and why it now matters less if maids burn books. Eat your heart out, Thomas Carlyle!

Richard E. Collins, The Open University, U.K. How does the Internet affect the supply of information-based entertainment and cultural goods? Why do telephone companies have peak and off-peak prices for long distance calls? Why is broadcasting but not newspaper publishing usually regulated and sometimes subsidized?

Media Economics: Applying Economics to New and Traditional Media provides a thorough foundation of the microeconomic principles and concepts needed to understand media industries and issues in the converging media environment. *Media Economics* differs from ordinary media economic texts by taking a conceptual approach to economic issues. As the book progresses through economic principles, authors Colin Hoskins, Stuart McFadyen and Adam Finn use cases and examples to demonstrate how these principles can be used to analyze media issues and problems. *Media Economics* emphasizes economic concepts that have distinct application within media industries, including corporate media strategies and mergers, public policy within media industries, how industry structure and changing technologies affect the conduct and performance of media industries, and why the United States dominates trade in information and entertainment.

Key Features: Chapter opening vignettes introduce the issues analyzed in each chapter. Concise definitions of key terms for a clear understanding of basic microeconomic and managerial economic concepts. Examples from a variety of media industries, including those in the United States, Canada, the United Kingdom, and Australia. A concept-driven approach enabling a longer shelf life as technologies, structures, and revenues change. A recognition of the reality of convergence and consolidation in media industries rather than addressing each media outlet individually. *Media Economics* assumes no prior background in economics and is designed for undergraduate and graduate students studying media economics and media industries. The book is an ideal text for public policy and the media, as well as media and society courses with an economic perspective taught in Media Studies, Communication, Business Journalism, Film Studies, Political

Studies and Economics programs *Strategic Communication Theory and Practice* Carl H. Botan, 2017-10-13 A guide to strategic communication that can be applied across a range of subfields at all three levels grand strategic strategic and tactical communication Communication is a core function of every human organization so when you work with communication you are working with the very core of the organization Written for students academics and professionals Strategic Communication Theory and Practice The Cocreational Model argues for a single unified field of strategic communication based in the three large core subfields of public relations marketing communication and health communication as well as strategic communicators working in many other subfields such as political communication issues management crisis communication risk communication environmental and science communication social movements counter terrorism communication public diplomacy public safety and disaster management and others Strategic Communication Theory and Practice is built around a cocreational model that shifts the focus from organizational needs and the messages crafted to achieve them to a publics centered view placing publics and their ability to cocreate new meanings squarely in the center of strategic communication theory and practice The author a noted expert in the field outlines the theories campaign strategies common issues and cutting edge challenges facing strategic communication including the role of social media ethics and intercultural strategic communication As the author explains the term strategic communication properly refers only to the planned campaigns that grow out of research and understanding what publics think and want This vital resource answers the questions of whether and how strategic level skills can be used across fields as it Explores the role of theory and the cocreational meta theory in strategic communication Outlines ethical practices and problems in the field Includes information on basic campaign strategies Offers the most recent information on risk communication preparedness and terrorism communication and employment in strategic communication Redefines major concepts such as publics from a cocreational perspective
