## Ahmet Davutoglu:

**New Approaches to the Study of Religion: Regional, critical, and historical approaches** Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches *Border Crossings* Fred Reinhard Dallmayr, 1999-01-01 Comparative political theory is at best an embryonic and marginalized endeavor As practiced in most Western universities the study of political theory generally involves a rehearsal of the canon of Western political thought from Plato to Marx Only rarely are practitioners of political thought willing and professionally encouraged to transgress the canon and thereby the cultural boundaries of North America and Europe in the direction of genuine comparative investigation *Border Crossings* presents an effort to remedy this situation fully launching a new era in political theory Thirteen scholars from around the world examine the various political traditions of West South and East Asia and engage in a reflective cross cultural discussion that belies the assumptions of an Asian essence and of an unbridgeable gulf between West and non West The denial of essential differences does not however amount to an endorsement of essential sameness As viewed and as practiced by contributors to this ground breaking volume comparative political theorizing must steer a course between uniformity and radical separation this is the path of border crossings **The Foreign Policy of Modern Turkey** Ozgur Tufekci, 2017-01-30 In the last three decades Turkey has attempted to build close relationships with Russia Iran and the Turkic World As a result there has been ongoing debate about the extent to which Turkey's international relations axis is shifting eastwards Ozgur Tufekci argues that Eurasianist ideology has been fundamental to Turkish foreign policy and continues to have influence today The author first explores the historical roots of Eurasianism in the 19th century comparing this to Neo Eurasianism and Pan Slavism The Ozal era 1983 1993 the Cem era 1997 2002 and Davutoglu era since 2003 are then examined to reveal how foreign policy making has been informed by discourses of Eurasianism and how Eurasianist ideas were implemented through internal and external socio economic and political factors **Turkey's Rise as an Emerging Power** Paul Kubicek, Emel Parlar Dal, H. Tarik Oğuzlu, 2016-04-14 Turkey is emerging as an important actor in world politics exerting growing influence both in its immediate region and beyond This book aims to understand and explain this phenomenon utilizing a variety of perspectives from international relations theory One prominent issue is how Turkey long embedded in the West via NATO and other European organizations is growing more confident and is asserting more independent foreign policy positions This is particularly marked in the Middle East where some suggest Turkey is pursuing a

neo Ottomanist agenda At times this competes with and creates tensions with the West However a rising Turkey can also be a constructive phenomenon and complement the West This book examines geopolitical economic and cultural dimensions of Turkey s rise pointing to both Turkish success and the limits of Turkish power and influence It includes consideration of Turkey s relations with NATO the European Union the Middle East and BRIC countries This book was published as a special issue of Turkish Studies

Security and Cross-Border Cooperation in the EU, the Black Sea Region and Southern Caucasus A. Ergun,H. Isaxanli,2013-02-28 Cross border cooperation is vital to overcoming obstacles to security building and the consolidation of stability particularly in regions prone to political upheaval and conflict This book presents papers from the NATO Advanced Research Workshop entitled Security and Cross Border Cooperation in the EU Black Sea Region and Southern Caucasus This workshop was part of the NATO Science for Peace and Security Programme and was held in Ankara Turkey in September 2011 It focused on developing a future research agenda strengthening regional studies and increasing interdisciplinarity and the means to improve cross border cooperation and was aimed at providing a comprehensive interactive and interdisciplinary account of security building and cross border cooperation in which domestic regional and international dimensions were discussed The book is divided into three sections The first provides an analysis of the role of international and domestic actors in contributing to security building in the Euro Atlantic the Black Sea and the Southern Caucasus regions The second section discusses the patterns of cross border cooperation in Eastern and Central Europe and the wider Black Sea region concentrating on Romania Moldova Ukraine Georgia and the Russian Federation With references to the nature of international involvement in conflict resolution the last section focuses on cross border cooperation in the

Southern Caucasus where conflicts have an enormous impact on nation building state building and democratization and where prospects for stability and a viable peace remain in serious question This book is a valuable contribution to the literature on area studies cross border cooperation security and peace studies *Humanitarian Intervention and the Responsibility to Protect* Birsen Erdogan,2016-12-07 This book offers a discursive analysis of the Turkish Foreign Policy on Humanitarian Interventions HI and the doctrine of the Responsibility to Protect R2P Across the chapters the author addresses important questions such as what is the position of the HI and R2P in the Turkish foreign policy discourse Is there any variation between cases when it comes to the use of these concepts How do these discourses shape change transform or sustain the Turkish identity Despite the tendency in some countries to incorporate HI and R2P principles into their foreign policy UK Netherlands Canada Japan and the fact that some countries are lobbying to make these principles a part of international or UN law in the developing world these policies and concepts have not gained widespread recognition or approval Countries like China Brazil and India approach these concepts with suspicion or with reservation The same tendency can be observed in the MENA region and in some parts of Africa and Asia In this book the author looks at the reasons behind these differences in approach and explores how the concept of identity affects Turkish foreign policy specifically This study is invaluable for researchers and students of R2P and HI and foreign policy discourse in general

*Neo-Ottoman Imaginaries in Contemporary Turkey* Catharina Raudvere,Petek Onur,2022-12-13 This book presents gendered readings of cultural manifestations that relate to the Ottoman era as a preferred past and a model for the future By means of claims of authenticity and the distribution of imaginaries of a homogenous desirable alternative to everyday concerns as well as invoking an imperial past at the national level In this mode of thinking shaped around a polarised worldview Republican ideals serve as a counter image to the promoted splendour and harmony of the Ottomans Yet the stereotypical gender roles inextricably linked with this neo Ottoman imaginary remain largely unacknowledged dissimulated in the construction of the desire of an idealised past Our adaption of a cultural studies perspective in this volume puts special emphasis on agency gender and authority It provides a shared ground for the interrogation through the contributions comprising this project of knowledge production about the past in light of what constitutes acceptable legitimacy in interpreting not only the canonical literature but history at large

fulfilled and the world was reminded that America's place and role in the world would not change dramatically not even under the inspirational Obama

**Empires of Eurasia** Jeffrey Mankoff, 2022-04-19 How the collapse of empires helps explain the efforts of China Iran Russia and Turkey to challenge the international order This is a must read to understand the backstory of conflicts from Crimea to Xinjiang Fiona Hill author of *There Is Nothing for You Here* Eurasia's major powers China Iran Russia and Turkey increasingly intervene across their borders while seeking to pull their smaller neighbors more firmly into their respective orbits While analysts have focused on the role of leaders such as Vladimir Putin and Recep Tayyip Erdoğan in explaining this drive to dominate neighbors and pull away from the Western dominated international system they have paid less attention to the role of imperial legacies Jeffrey Mankoff argues that what unites these contemporary Eurasian powers is their status as heirs to vast terrestrial empires whose collapse left all four states deeply entangled with the lands and peoples along their peripheries but outside their formal borders Today they have all found new opportunities to project power within and beyond their borders in patterns shaped by their respective imperial pasts

*The New Turkish Foreign Policy: Reassessment and Change* Tugba Akyazi, 2013-08-09 During the recent years Turkey has put immense efforts in healing relations with its neighbors establishing closer ties regarding various interest areas be it economic cultural or political issues and acting as a facilitator in its close environment However once one looks back in history Turkey during the 1900s conducted a very different foreign policy strategy and viewed its close neighbors with suspicion and mistrust This study argues that there has been a reassessment in Turkish Foreign Policy which has helped Turkey to acquire a new role in the Middle East In this regard this research aims to analyze whether there has been a changeover in Turkish Foreign Policy and if so what were the consequences regarding Turkey's relations with its neighbors Along with that purpose this study will elaborate on the factors which have shaped Turkish Foreign Policy primarily on economic aspirations Furthermore the goal of this research is to focus particularly on Turkey's relations towards its Middle Eastern neighbors Consequently this research will help to understand fully Turkey's recent involvement regarding the Arab uprisings and increasing commitment to the Middle East

**Turkey's Relations With Israel** Ekavi

Athanassopoulou, 2024-12-03 This book offers the first comprehensive history and analysis of Turkey's relations with Israel since 1948 when the state of Israel was established up until 2010 and places them within the wider framework of Turkey's foreign policy It highlights the remarkable lack of consistency in Turkey's foreign policy towards Israel under different Turkish governments which has given the relationship a pervasive sense of unpredictability Combining empirical analytical evidence with role theory insights as developed in Foreign Policy Analysis FPA it explores Turkish foreign policy makers' perceptions regarding the proper role and function of the country in the international system and the sub system of the Middle East and how they affected the policy towards Israel The author argues that Ankara's ambivalent policy towards Israel for over sixty years can be explained by Turkey's multiple and often contradictory national role conceptions The study which draws from archival material and over fifty interviews with Turkish Israeli American and Arab officials and experts places Ankara's policy into a larger analytical framework which helps link the past to the present and future The book is essential reading for students and scholars interested in understanding Turkey's foreign policy in general and towards the Middle East in particular

*Public Diplomacy at Home* Ellen Huijgh, 2019-06-03 This book is about the domestic dimension of public diplomacy which must be understood within the context of public diplomacy's evolution over time In the virtually connected world of today newcomers such as supranational organizations sub states and Asian countries have had less difficulty than Western nation states including a domestic dimension in public diplomacy Doing so does not separate the domestic and international components rather it highlights that there is a holistic integrative approach to public involvement at home and abroad In Huijgh's comprehensive analysis including case studies from North America Europa and the Asia Pacific public diplomacy's international and domestic dimensions can be seen as stepping stones on a continuum of public participation that is central to international policymaking and conduct
