making remembering and erasing of martyrs hierarchies are re produced and possible futures are foreclosed The contributors argue that critical anthropological engagement with death martyrdom and afterlife is indispensable if we want to understand the making of pasts and futures in a revolutionary present This book was originally published as a special issue of *Ethnos Journal of Anthropology*

Understanding Death Angela Sumegi, 2024-11-04. What is death? How can we respond to death? Why must we die? Where do we go from here? Do we go anywhere? *Understanding Death* offers a thorough introduction to the views and practices of various religions regarding death and life after death. Drawing on examples from Christian, Jewish, Hindu, Buddhist, and Shamanic traditions, this student-oriented textbook explores how different conceptions of the self or soul inform the way humans interpret life and assign meaning to the phenomenon of death. Incorporating contributions from members of each faith, *Understanding Death* provides readers with a comparative overview of how death is expressed and constructed in religious texts and canonical interpretations. Accessible chapters discuss how major religions address the nature of death itself while illustrating how history, philosophy, and ritual reflect what is important in understanding the meaning of death in that religion. Now in its second edition, *Understanding Death* is revised and updated throughout, featuring three entirely new chapters on Sikhism, Jainism, as well as changing attitudes and new technologies related to death and dying in the twenty-first century. *Understanding Death: Ideas of Self and the Afterlife in Religions of the World, Second Edition* is an ideal textbook for undergraduate students and lecturers in Religious Studies programs and an excellent resource for non-specialist readers interested in the subject.
