Radiotelegraph & Radiotelephone Codes, Prowords and Abbreviations John W Alcorn VK2JWA, 2013-10-26 What started out as a minor Project in 1987 blew out like the national debt so with all this accumulated info it seemed worthwhile to produce the first book here now is the Latest Online Edition The sources and references have been many and varied and although the utmost care was taken the Lists are far from complete and may contain errors The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed The majority retain this influence but many have been modified and modernized to cover land and air applications Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted These are specialist terms of that mode not often encountered in telegraphy

The Complete Guide to Canada's General Mobile Radio Service Phillip J. Boucher, 2010-06-01 Many users of wireless devices and services spend money on a regular basis to contact colleagues friends or family members who are close by such as in a warehouse or on a job site at the mall or out hiking or camping Why spend the money when you can contact them for free Canada's General Mobile Radio Service or GMRS uses small UHF two way radios for short range wireless communications that cost nothing to the user Without monthly service usage or licencing fees GMRS is a perfect addition or substitute for other costly wireless services For businesses GMRS is perfect for short range communications on a job site in and around a warehouse or office building and for all types of hospitality and retail applications Personal safety security operations customer service and management employee intercommunication are just some of the uses corporations industries and businesses will find useful from GMRS radios For personal use GMRS keeps all members of a group in communications with each other Shopping in a mall camping fishing hiking at a carnival or local event traveling in two more vehicles or in and around the house are just a few of the extensive applications you will discover with GMRS radios GMRS is also the perfect primary or backup radio communications system for public service search and rescue security intelligence and military use With twenty two available channels and two watts of output power GMRS radios are far less expensive than commercial handheld radio units of equal specifications And GMRS gives personal users the freedom to access commercial quality radio communications for a fraction of the price All you pay for are the radios No operating licencing or usage fees apply Communications range over open water

is around 8 10km with reduced range in rural or urban settings Overall communications range in a warehouse or building setting can cover approximately two hundred thousand square feet or about twenty floors of a building The Complete Guide to Canada's General Mobile Radio Service shows you how to choose the right radio for your particular applications where to buy the radios radio specifications gives you great examples of some of the uses of GMRS and even has a glossary of GMRS terms If you want or need short range wireless communications without the costs of current wireless services and devices GMRS could be the perfect solution And The Complete Guide to Canada's General Mobile Radio Service is the only reference book that covers everything you need to know to get most out of the service and the radios

Hello World: A Life in Ham Radio Danny Gregory, Paul Sahre, 2003-03 To an outsider the world of ham radio is one of basement transmitters clunky microphones Morse code and crackly possibly clandestine worldwide communications a world both mysterious and geeky But the real story is a lot more interesting indeed there are more than two million operators worldwide including people like Walter Cronkite and Priscilla Presley Gandhi had a ham radio as do Marlon Brando and Juan Carlos king of Spain Hello World takes us on a seventy year odyssey through the world of ham radio From 1927 until his death in 2001 operator Jerry Powell transmitted radio signals from his bedroom in Hackensack New Jersey touring the world's most remote locations and communicating with people from Greenland to occupied Japan Once he made contact with a fellow ham operator he exchanged postcards known as QSLs cards with them For seven decades Powell collected hundreds of these cards documenting his fascinating career in amateur radio and providing a dazzling graphic inventory of people and places far flung This book is both an introduction to the fascinating world of ham and a visual feast for anyone interested in the universal language of graphic design
