

Thor's Study Guide – CISM® Domain 1

Defense in Depth – Also called Layered Defense or Onion Defense

- We implement multiple overlapping security controls to protect an asset.
- This applies both to physical and logical controls.
 - To get to a server, you may have to go through multiple locked doors, security guards, man traps.
 - To get to the data, you may need to get past firewalls, routers, switches, the server, and the application's security.
 - Each step may have multiple security controls.
- No single security control secures an asset.
- By implementing Defense in Depth, you improve your organization's Confidentiality, Integrity, and Availability.

CISA and CISM Exam FOCUS Study Notes and Review Questions 2013 ExamREVIEW, 2012-09-20 CISA and CISM are NOT pure technical certs In fact they tend to focus more on the policies programs auditing and management side of IS There are technical questions but the questions are not like those that you can find in the MS Cisco exams CISA topics The Process of Auditing Information Systems Governance and Management of IT Information Systems Acquisition Development and Implementation Information Systems Operations Maintenance and Support Protection of Information

Assets CISM topics Information Security Governance Information Security Program Development Information Security Program Management Incident Management and Response You need to know the basics of new IT technologies but you also need to know the older technologies since many old stuff are still at work in the modern business world CISA and CISM are supposed to be different in that one focuses on auditing and another on management HOWEVER they are practically sharing many of the knowledge areas Think about it the IS auditor needs to know management so they can audit IS management On the other hand management needs to know IS auditing so they can request for and evaluate the various audit options Experience shows that clear cut boundaries between the involved topics can hardly be established Studying on a track by track basis may save you time but the coverage received may not be sufficient for clearing the exam In fact it may be a way better approach for you to go through everything included in this guide as a whole rather than to restrict your focus on the track specific topics when they overlap so much you better play safe When we develop our material we do not classify topics the BOK way We follow our own flow of instructions which we think is more logical for the overall learning process Don't worry it does not hurt to do so as long as you truly comprehend the material
