

CHAPTER 16 AVIONICS

INTRODUCTION

This chapter is an overview of the avionics systems and does not contain complete details of every part of each system. Detailed operational information on the G1000 integrated flight deck system is available in the Garmin Cockpit Reference Guide, P/N 190-00600-00 as revised for the Cessna Citation Mustang. It is incumbent upon the pilot to adhere to the procedural policies stated within Garmin and Cessna FAA-approved documents, which include warnings, cautions, and notes. Refer to Chapter 1—"Aircraft General" for a list of Mustang publications.

GENERAL

The Cessna Citation Mustang utilizes a highly integrated electronics/instrumentation package (Figure 16-1). The Garmin G1000 integrated flight deck avionics suite is the main element of the system. In addi-

tion to normal flight operations with the G1000, standby and manual systems provide backup capabilities for essential flight operations and system control.
