Waters,2013-06-15 Texts by for and about preachers from the twelfth to the fourteenth centuries reveal an intense interest in the preacher s human nature and its intersection with his angelic role Far from simply denigrating embodiment or excluding it from consideration these works recognize its centrality to the office of preacher and the ways in which preachers like Christ needed humanness to make their performance of doctrine effective for their audiences At the same time the texts warned of the preacher s susceptibility to the fleshly failings of lust vainglory deception and greed Preaching s problematic juxtaposition of the earthly and the spiritual made images of women preachers real and fictional key to understanding and exploiting the power as well as the dangers of the feminized

flesh Addressing the underexamined bodies of the clergy in light of both medieval and modern discussions of female authority and the body of Christ in medieval culture Angels and Earthly Creatures reinserts women into the history of preaching and brings together discourses that would have been intertwined in the Middle Ages but are often treated separately by scholars The examination of handbooks for preachers as literary texts also demonstrates their extensive interaction with secular literary traditions explored here with particular reference to Chaucer's Canterbury Tales Through a close and insightful reading of a wide variety of texts and figures including Hildegard of Bingen Birgitta of Sweden and Catherine of Siena Waters offers an original examination of the preacher's unique role as an intermediary standing between heaven and earth between God and people participating in and responsible to both sides of that divide

Conceptions of Dreaming from Homer to 1800 G. W. Pigman III, 2019-01-31 Conceptions of Dreaming from Homer to 1800 traces the history of ideas about dreaming during the period when the admonitory dream was the main focus of learned interest from the Homeric epics through the Renaissance and the period when it began to become a secondary focus the eighteenth century The book also considers the two most important dream theorists at the turn of the twentieth century Sigmund Freud and Sante de Sanctis While Freud is concerned with questions of what a dream means and how to interpret it de Sanctis offers a synthesis of nineteenth century research into what a dream is and represents the Enlightenment transition from particular facts to general laws
