Classical Theories Of Allegory And Christian Culture:

Classical Theories of Allegory and Christian Culture Philip B. Rollinson, 1981 Classical Theories of Allegory and Christian Culture Philip Rollinson, 1981 Readings from Classical Rhetoric Patricia P. Matsen, Philip B. Rollinson, Marion Sousa, 1990 Here for the first time in one volume are all the extant writings focusing on rhetoric that were composed before the fall of Rome This unique anthology of primary texts in classical rhetoric contains the work of 24 ancient writers from Homer through St Augustine including Herodotus Thucydides Plato Aristotle Cicero Quintilian Tacitus and Longinus Along with many widely recognized translations special features include the first English translations of works by Theon and Nicolaus as well as new translations of two works by important sophists Gorgias encomium on Helen and Alcidamas essay on composition The writers are grouped chronologically into historical periods allowing the reader to understand the scope and significance of rhetoric in antiquity Introductions are included to each period as well as to each writer with writers biographies major works and salient features of excerpts Allegory Studies Vladimir Brljak, 2021-08-30 *Allegory Studies Contemporary Perspectives* collects some of the most compelling current work in allegory studies by an international team of researchers in a range of disciplines and specializations in the humanities and cognitive sciences The volume tracks the subject across disciplinary cultural and period based divides from its shadowy origins to its uncertain future and from the rich variety of its cultural and artistic manifestations to its deep cognitive roots Allegory is everything we already know it to be a mode of literary and artistic composition and a religious as well as secular interpretive practice As this volume attests however it is much more than that much more than a sum of its parts Collectively the phenomena we now subsume under this term comprise a dynamic cultural force which has left a deep imprint on our history whose full impact we are only beginning to comprehend and which therefore demands precisely such dedicated cross disciplinary examination as this book seeks to provide **Interpreting the Parables** Craig L. Blomberg, 2012-07-16 Craig Blomberg surveys the contemporary critical approaches to the parables including those that have emerged in the twenty years since the first edition This widely used text has taken a minority perspective and made it mainstream with Blomberg ably defending a limited allegorical approach and offering brief interpretations of all the major parables Allegory in America D. Madsen, 1995-12-18 *Allegory in America* surveys the history of American allegorical writing from the Puritans through the period of American romanticism to postmodernism In a series of theoretical chapters the cultural function of allegory is discussed in relation to the mythology of American exceptionalism Each theoretical chapter is followed by a chapter that analyzes a specific text or group of texts Allegorical indeterminacy is seen to produce a literary tradition that both represents and subverts the ideals of American orthodoxy Walter Benjamin, Religion and Aesthetics S. Brent Plate, 2005-07-08 *Walter Benjamin Religion and Aesthetics* is an innovative and creative attempt to unsettle and reconceive the key concepts of religious studies through a reading with and against Walter Benjamin Constructing what he calls an allegorical aesthetics Plate sifts through Benjamin s writings

showing how his concepts of art allegory and experience undo traditionally stabilizing religious concepts such as myth symbol memory narrative creation and redemption

Allegory and Enchantment Jason Crawford, 2017-01-19 What is modernity Where are modernity's points of origin Where are its boundaries And what lies beyond those boundaries Allegory and Enchantment explores these broad questions by considering the work of English writers at the threshold of modernity and by considering in particular the cultural forms these writers want to leave behind From the fourteenth to the seventeenth centuries many English writers fashion themselves as engaged in breaking away from an array of old idols magic superstition tradition the sacramental the medieval Many of these writers persistently use metaphors of disenchantment of awakening from a broken spell to describe their self consciously modern orientation toward a medieval past And many of them associate that repudiated past with the dynamics and conventions of allegory In the hands of the major English practitioners of allegorical narrative William Langland John Skelton Edmund Spenser and John Bunyan allegory shows signs of strain and disintegration The work of these writers seems to suggest a story of modern emergence in which medieval allegory with its search for divine order in the material world breaks down under the pressure of modern disenchantment But these four early modern writers also make possible other understandings of modernity Each of them turns to allegory as a central organizing principle for his most ambitious poetic projects Each discovers in the ancient forms of allegory a vital powerful instrument of disenchantment Each of them therefore opens up surprising possibilities that allegory and modernity are inescapably linked that the story of modern emergence is much older than the early modern period and that the things modernity has tried to repudiate the old enchantments are not as alien or as absent as they seem

The Romance of the Rose Guillaume de Lorris, Jean de Meun, 2023-06-06 Many English speaking readers of the Roman de la rose the famous dream allegory of the thirteenth century have come to rely on Charles Dahlberg's elegant and precise translation of the Old French text His line by line rendering in contemporary English is available again this time in a third edition with an updated critical apparatus Readers at all levels can continue to deepen their understanding of this rich tale about the Lover and his quest against the admonishments of Reason and the obstacles set by Jealousy and Resistance to pluck the fair Rose in the Enchanted Garden The original introduction by Dahlberg remains an excellent overview of the work covering such topics as the iconographic significance of the imagery and the use of irony in developing the central theme of love His new preface reviews selected scholarship through 1990 which examines for example the sources and influences of the work the two authors the nature of the allegorical narrative as a genre the use of first person and the poem's early reception The new bibliographic material incorporates that of the earlier editions The sixty four miniature illustrations from thirteenth and fifteenth century manuscripts are retained as are the notes keyed to the Langlois edition on which the translation is based

God and Gold in Late Antiquity Dominic Janes, 1998-02-19 From the conversion of the emperor Constantine in the early fourth century vast sums of money were spent on the building and sumptuous decoration of churches The resulting works of

art contain many of the greatest monuments of late antique and early medieval society But how did such expenditure fit with Christ's message of poverty and simplicity In attempting to answer that question this 1998 study employs theories on the use of metaphor to show how physical beauty could stand for spiritual excellence As well as explaining the evolving attitudes to sanctity decorum and display in Roman and medieval society detailed analysis is made of case studies of Latin biblical exegesis and gold ground mosaics so as to counterpoint the contemporary use of gold as a Christian image in art and text

Forgotten Paths Davide Del Bello, 2007-09 In *Forgotten Paths* Davide Del Bello draws on the insights of Giambattista Vico and examines exemplary texts from classical medieval and Renaissance culture with the intent to trace the links between etymological and allegorical ways of knowing writing thinking and arguing

Midrash and Theory David Stern, 1996 In *Midrash and Theory* David Stern presents an approach to midrashic literature through the prism of contemporary theory As midrash the literature of classical Jewish Scriptural interpretation has become the focus of new interest in contemporary literary circles it has been invoked as a precursor of post structuralist theory and criticism At the same time the midrashic imagination has undergone a revival in the larger Jewish community and shown itself capable of exercising a powerful influence and hold on a new type of contemporary Jewish writing Stern examines this resurgence of fascination with ancient Jewish interpretation from the perspective of the cultural relevance of midrash and its connection to its original historical and literary contexts

Places Made After Their Stories Paul Carter, 2015 *Places Made After Their Stories* shows how the emotional geographies we carry inside us and the ecstatic desire at the heart of democratic community making can come together to inform contemporary landscape and urban design Using Australian case studies of public space design from Alice Springs to Perth and Melbourne Paul Carter describes a new approach to place making in which topography and choreography fuse He counters the symbolic neglect of functionalist design with a brilliant account of poetic and graphic techniques developed to materialize ambience Carter describes a practice of sense making and form making that embodies fundamental gestures of welcome arrangement and exchange in the built setting

Augustine's Theology of Preaching Peter T. Sanlon, 2014-07-01 Scholarship has painted many pictures of Augustine the philosophical theologian the refuter of heresy or contributor to doctrines like Original Sin but the picture of Augustine as preacher says Sanlon has been seriously neglected When academics marginalize the *Sermones ad Populum* the real Augustine is not presented accurately In this study Sanlon does more however than rehabilitate a neglected view of Augustine How do the theological convictions that Augustine brought to his preaching challenge sustain or shape our work today By presenting Augustine's thought on preaching to contemporary readers Sanlon contributes a major new piece to the ongoing reconsideration of preaching in the modern day a consideration that is relevant to all branches of the twenty first century church

The Shaping of English Poetry Gerald Morgan, 2010 This collection of essays is conceived not as a summary of past endeavours but as the beginning of an attempt to present a sense of the wholeness of a distinctively English literature

from Beowulf to Spenser The native alliterative tradition of England is represented by its final flowering in two essays on Sir Gawain and the Green Knight and three on Piers Plowman The renewal of English letters in the fourteenth century inspired by continental models in French and Italian is represented by four essays on Chaucer The poetic achievement of these three medieval masters remains unmatched until Spenser announces himself in a third great age in the history of English poetry and this is represented by three essays on the first three books of The Faerie Queene Spenser's indebtedness to Langland and Chaucer and his philosophical conservatism in drawing on the thought of Aristotle and the tradition of medieval commentary surrounding the works of Aristotle ensure that the tradition of English poetry in the Renaissance is securely rooted in its medieval inheritance

Truthfulness, Realism, Historicity Peter Turner, 2016-02-17 Were holy men historical figures or figments of the theological imagination Did the biographies devoted to them reflect facts or only the ideological commitments of their authors For decades scholars of late antiquity have wrestled with these questions when analysing such issues as the Christianization of Europe the decline of paganism and the rise of the holy man and of the hagiographical genre In this book Peter Turner suggests a new approach to these problems through an examination of a wide range of spiritual narrative texts from the third to the sixth centuries A D pagan philosophical biographies Greek and Latin Christian saints lives and autobiographical works by authors such as Julian and Augustine Rather than scrutinizing these works for either historical facts or religious and intellectual attitudes he argues that a deeper historicity can be found only in the interplay between these types of information On the textual level this analysis recognises the genuine commitment of spiritual authors to write truthfully and to record realistically a world felt to be replete with spiritual and symbolic meaning On the historical level it argues that holy men expecting the same symbolism within their own lives adopted lifestyles which ultimately provoked and confirmed this world view Such praxis is detectable not only in the holy men who inspired biography but also in the period's scattered autobiographical writings As much a historical as a textual phenomenon this spiritually minded scrutiny of the world created interpretations which were always open and contested Therefore this book also associates spiritual narrative texts with only one possible voice of religious experience in a constant dialogue between believers opponents and the sceptical undecided

Medieval Hostageship c.700-c.1500 Matthew Bennett, Katherine Weikert, 2016-09-13 This volume explores the issues of taking using and being hostages in the Middle Ages It brings together recent research in the areas of hostages and hostageships looking at the act of hostage taking and the hostages themselves through the lenses of political and social history Building upon previous work this volume in particular critically examines not only the situations of hostages and hostageships but also the broader social and political context of each situation developing a more complete picture of the phenomenon

Rhetoric and the Writing of History, 400-1500 Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical

rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development

Philosophical Presences in the Ancient Novel J. R. Morgan, 2007 This collection of essays the result of a 2006 conference at the University of Wales in Lampeter look at the influence of philosophical texts on the ancient novel In both Greek and Latin novels substantial traces of philosophical ideas can be found these essays discuss the levels on which they were intended to operate and how they were meant to resonate with their audiences Specific authors discussed include Xenophon of Ephesus Achilles Tatius Longus Apuleius and Lucian while the philosophical influences include Plato Aristotle and the Stoics

Medieval Interpretation Robert Stuart Sturges, 1991 Viewing the medieval period as an era of constant change rather than as a monolithic whole Robert S Sturges examines a wide variety of English and French literary works within the cultural contexts of the early and late Middle Ages Sturges analyzes these medieval works in roughly chronological order thus providing a sense of historical change within the general period Seeking to discover which critical methods best serve each work he also compares medieval with postmodern approaches to interpretation pointing out of course where current critical practices do not apply Examining the *Chanson de Roland* and Chr tien s *Charrette* Sturges reveals how belief in an indeterminacy of literary meaning grew between the 12th and 15th centuries He argues that whereas the earlier Middle Ages Neoplatonic cultural context produced the directed vision of the early genres *chanson de gest* saint s life changes introduced in the 12th century and later allowed a second vision to emerge Supplementing rather than replacing the Neoplatonic view this new mind set emphasized a multiplicity of possible literal meanings in the world and in language Authoritative truths no longer could be revealed through allegorical interpretation In his second chapter Sturges compares Chr tien s *Conte del Graal* with the *Queste del saint Graal* to counterpoise the levels of interpretation required by allegory against the potential multiplicity of literal meanings possible when interpreting nonallegorical works Chr tien he notes rejects allegory in favor of ambiguity Chapter 3 compares Marie de France s *Lais* with Machault s *Voir Dit* making an analogy between the erotic activity of the represented lovers and the reader s interpretation of the literary works Sturges points out that by the 14th century semantic indeterminacy in love and in reading was expected conventional and enjoyable Still both Marie and Machault suggest the dangers of uncertainty in human relations if true knowledge of the other lover or text is impossible how can we communicate In his fourth chapter Sturges examines *The Book of the Duchess* *Troilus and Criseyde* and *The Wife of Bath s Tale* to determine how at various

points of his career Chaucer responded to the essential question how can any truth be communicated among people or between texts and readers Chapter 5 approaches such questions of truth and communication from the perspective of alterity and historical understanding in both *La Mort le roi Artu* and the final sections of Malory's *Mort Darthur* two works that present themselves as works of history Yet the ambiguity introduced from 13th century romance on through the 15th century undermined the historical foundation such works rest on Sturges considers four centuries two nationalities and the genres of verse and prose romance allegory Breton lay dit dream vision and frame story He convincingly applies his study of medieval literature to issues vital to 20th century literary theory issues ranging from the interplay of speech and writing to the reader's role in the production of meaning
