with SAGE Publications Cheryl Cisero Durwin and Marla Reese Weber's EdPsych Modules uses an innovative implementation of case studies and a modular format to address the challenge of effectively connecting theory and research to practice. Each module is a succinct stand-alone topic that represents every subject found in traditional chapter texts and can be used in any order for maximum flexibility in organizing your course. Each of the book's eight units of modules begins with a set of four case studies: early childhood, elementary, middle school, and secondary, and ends with Assess and Reflect and Evaluate questions and activities to encourage comprehension and application of the research and theories presented. The case approach and the extensive pedagogy that support it allows students to constantly see the applications of the theories and research that they are studying in the text.

Handbook of Research on Digital-Based Assessment and Innovative Practices in Education Keengwe, Jared, 2022-05-06

Even though digital technologies are ubiquitous in education, assessment methods continue to employ traditional assessments even though they are inadequate to provide information about a student's reasoning and conceptual understanding. Digital-based assessment models allow students to demonstrate higher-order skills while integrating digital technologies as a powerful teaching tool. Digital technologies can support inquiry-based learning that is essential to developing a deep conceptual understanding of the content. The *Handbook of Research on Digital-Based Assessment and Innovative Practices in Education* identifies digital tools and applications for effective assessment of learning, shares various models of digital-based assessment in education, and considers best pedagogical practices for assessment in education. Covering a range of topics such as formative assessments, design thinking, virtual reality, and equity, this major reference work is crucial for educational technologists, instructional designers, policymakers, administrators, faculty, researchers, academicians, scholars, practitioners, instructors, and students.

Digital Systems for Open Access to Formal and Informal Learning Demetrios G. Sampson, Dirk Ifenthaler, J. Michael Spector, Pedro Isaias, 2014-07-17

Today, digital systems and services for technology-supported learning and education are recognized as the key drivers to transform the way that individuals, groups, and organizations learn and the way to assess learning in the 21st century. These transformations influence objectives moving from acquiring new knowledge to developing new and relevant competences; methods moving from classroom-based teaching to context-aware, personalized learning; and assessment moving from life-long degrees and certifications to on-demand and in-context accreditation of qualifications. Within this context, promoting Open Access to Formal and Informal Learning is currently a key issue in the public discourse, and the global dialogue on education, including Massive Open Online Courses (MOOCs) and Flipped School Classrooms. This volume on *Digital Systems for Open Access to Formal and Informal Learning* contributes to the international dialogue between researchers, technologists, practitioners, and policy makers in technology-supported education and learning. It addresses emerging issues related with both theory and practice as well as methods and technologies that can support Open Access to Formal and Informal Learning. In the twenty chapters contributed by international experts who are actively shaping the future of

Educational Technology around the world topics such as The evolution of University Open Courses in Transforming Learning Supporting Open Access to Teaching and Learning of People with Disabilities Assessing Student Learning in Online Courses Digital Game based Learning for School Education Open Access to Virtual and Remote Labs for STEM Education Teachers and Schools ICT Competence Profiling Web Based Education and Innovative Leadership in a K 12 International School Setting are presented An in depth blueprint of the promise potential and imminent future of the field Digital Systems for Open Access to Formal and Informal Learning is necessary reading for researchers and practitioners as well as undergraduate and postgraduate students in educational technology
