Cold War Containment Mini Q Answers:

Practical Lessons from US Foreign Policy James E. Goodby, Kenneth Weisbrode, 2019-11-05 In foreign policy the Trump administration has appeared to depart from long standing norms of international behavior that have underwritten American primacy for decades in a more interdependent and prosperous world In this book a diplomat and a historian revisit that perception by examining and reproducing several of their own essays during the past twenty years The essays reveal that Trump's style exaggerates tendencies towards unilateralism already present in the actions if not the policies of previous presidents and in their neglect of three imperatives collective security regional integration and diplomatic imagination It is not too late however to remedy the problem by learning the lessons of the recent past **Encyclopedia of Violence, Peace, and Conflict**, 1999-08-16

The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world *Proxy Warfare on the Cheap*

Wojciech Michnik, Spyridon Plakoudas, 2023-02-06 This book illuminates on the US strategy of proxy warfare in modern times with the Syrian Civil War as a case study Spyridon Plakoudas and Wojtek Michnik fuse modern history with international relations and strategic studies in order to offer an up to date and critical analysis of this unique partnership between a state USA and a non state actor Syrian Kurds against another non state actor ISIS amidst the wider Syrian civil war They argue that this partnership ended up as a double edged sword on the one hand it defeated ISIS at a minimum cost in money and blood in comparison to the Iraq War but on the other hand it ensnared the USA into a tangled web of competition and conflict with other powers with no easy way out In other words proxy warfare may prove a not so cheap investment in the end
