Cim 9 Emerging Themes Study Text:

The New Book of Christian Martyrs Johnnie Moore, Jerry Pattengale, 2023-03 An inspiring keepsake that honors the heroic sacrifice of today's martyrs for the Christian faith and shows how their actions mirror the courage of a long line of brave Christians In the twenty first century we are witnessing an escalation in Christian persecution like we have rarely seen since the first century Many people don't realize that today thousands of Christians are dying cruel deaths throughout much of the world There were in fact more martyrs in the last century than in all the previous Christian centuries combined Millions have given their lives since the fall of Rome and today tens of thousands die annually for their faith in Jesus Most of these modern stories are not legendary in fact many are unknown The New Book of Christian Martyrs commemorates those modern day heroes In this update to Foxe's Book of Martyrs Johnnie Moore and Jerry Pattengale highlight key martyrs of past centuries and feature stories of contemporary martyrs around the world Through tears Johnnie and Jerry offer this compendium of heroes from the first century to the twenty first century from Europe to Africa and from Asia to the Americas to inspire Christians around the globe Today we live in solidarity with them and in the next life we will rejoice by their side We will never forget their sacrifice for the truth

Keeping Up with Emerging Technologies Nicole Hennig, 2017-06-21 The acceleration of technological change demands that today's information professionals and educators not only be constantly acquiring new knowledge and skills but also that they cultivate the ability to make sound judgments on which technologies to embrace Today's librarians and information specialists know it's imperative that they keep up with new technologies But not all technologies are equally important either within the library setting or to library patrons So how does one decide which ones to pursue and integrate into services In the uphill battle to stay current with new and emerging technologies deciding which ones to pursue and integrate into services is a major challenge A secondary problem is simply finding the time to consider the question Readers of Keeping Up with Emerging Technologies will learn all of the best practices and skills to keep up with new technologies and to analyze the ability of specific technologies to meet recognized user needs all in this single source You'll learn the best ways to gather information about new technologies and user needs to evaluate and analyze information to curate technology information for others to set up experiments and evaluate the results and to present your findings to persuade decision makers Written by the former head of user experience at MIT's library system this guidebook serves information professionals educators education technology specialists and anyone with emerging technology or innovation in their job titles It will also be useful for library administrators and those who manage these positions as well as for students seeking a technology oriented or curriculum design career path in libraries
