Gender-Responsive Governance in Sierra Leone John Idriss Lahai, 2023-07-28 This book investigates gender equality and women's empowerment in Sierra Leone focusing especially on women's interactions with the state and its development partners. In particular, it highlights women's increasing agency in acquiring knowledge, diffusing power, engaging in grassroots politics, and compelling the government to adopt more gender-responsive policies. Exploiting extensive fieldwork and original multidisciplinary research methods including econometric and statistical models, the book first sets out the history and impact of inequality in Sierra Leone and then goes on to shed light on the constructive and collaborative engagement of women and the state on a variety of local and external strategies for promoting gender equality. Drawing throughout on insights from across gender studies, sociology, anthropology, economics, and political science, the book highlights how women are succeeding in transforming marginality into agency in order to build a platform for influencing change. By qualifying and quantifying the challenges of gender inequality in Sierra Leone and the progress that is being made, this book provides important insights that will be relevant to other fragile post-conflict states within Africa. The book will be of interest to students and researchers studying women and gender studies, African studies, economics, international development, sociology, and political science, and international relations. It will also deepen policymakers and practitioners' understanding of women's diverse trajectories and experiences and how the typology of government affects the patterns of inequality and equality.

The current emphasis in research and education on women and girls is fraught with problems. It has raised a concern that boys and men should be included in research and intervention work on gender equality and transformation. As a result, academics with a background of many years of work in women's and gender studies undertook a research project focusing on the construction of masculinities among young men. *From Boys to Men* was born out of this project. This highly original work arises from the conference *From Boys to Men* held in January 2005. It represents the work of some of the best-known theorists and researchers in masculinities and feminism in South Africa, on the continent, and internationally. The subjects covered are based on rich ethnographic studies, mostly in South Africa but also elsewhere in Africa. Acknowledging that there are multiple versions of masculinity and that some are more valued than others, this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts.

of space and time *From Boys to Men* provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males inform community based interventions and facilitate theory building This impressive collection of research on men boys and masculinities would have been impossible just a generation ago It took the worldwide impact of the women s liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system Raewyn Connell Professor at the University of Sydney author of *Masculinities* 1995 Given the extant paucity of research and literature on masculinities this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies The editors of the volume should be commended for this timely well constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally Norman Duncan Chair of Psychology University of the Witwatersrand Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV Aids This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade The volume usefully opens up new avenues of analysis telling us that masculinities are always in process under negotiation contradictory for ever in crisis Vasu Reddy Gender and Development Unit Human Sciences Research Council
