Intermediate GNVQ Construction and the Built Environment Des Millward, Kemal Ahmet, Jeff Attfield, 2014-09-15
GNVQ Construction and the Built Environment Intermediate provides essential coverage of the general skills knowledge and understanding required for the four mandatory units in the Intermediate GNVQ. The book covers all the underpinning knowledge the student needs to know to satisfy the evidence indicators of the course and this is reinforced by worked examples, short answer questions as well as some more detailed assignments. This second edition has been revised in line with the 1997 content revision. Each chapter is written around the specifications of one unit and includes brief introduction, key areas covered by the chapter, list of key learning objectives drawn from the performance criteria, key terms picked out in bold type and included in glossary, student tasks interspersed throughout the text, improved integration of key skills. While the text is primarily designed to satisfy the requirements of the Intermediate GNVQ course, it can also be used as a reference source at Foundation level.

British Vocational Qualifications Kogan Page, 2003. Over the last decade, as the importance of vocational qualifications has been firmly established, the system has become increasingly complex and hard to grasp. Now in its sixth edition, this popular and accessible reference book provides up-to-date information on over 3500 vocational qualifications in the UK. Divided into five parts, the first clarifies the role of the accrediting and major awarding bodies and explains the main types of vocational qualifications available. A directory then lists over 3500 vocational qualifications classified by professional and career area, giving details of type of qualification, title, level, awarding body, and where possible the course code and content. The third section comprises a glossary of acronyms used together with a comprehensive list of awarding bodies, industry lead bodies, professional institutes and associations with their contact details. Section four is a directory of colleges offering vocational qualifications in the UK, arranged alphabetically by area. Finally, section five is an index of all qualifications listed alphabetically by title.
