Science Fraud:

Darwin's Plagiarism of Patrick Matthew's Theory Mike Sutton,2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book On Naval Timber and Arboriculture and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that gives origination of any science theory to the first to publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough Today Big Data research has uncovered Darwin's science fraud by

plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew's work in published literature before 1858 and that several were known influencers of Darwin's and Wallace's work in the field Additionally several people in Darwin's and Wallace's social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism
