The 2011 Global Economic Crime Survey instituted by PricewaterhouseCoopers confirms the economic crime in Malaysia to be on the increase and, therefore, requires immediate attention to stem the tides. In anticipation of the challenges occasioned due to a shift from the modified cash basis to the accrual basis of accounting, the Malaysian State's determination to move from a developing nation to a developed nation and to be ranked among the first 10 in 2020, this paper presents the need for forensic accountant and auditor capability (i.e., mindset and skills) on forensic accountant and auditor competence (i.e., task performance fraud risk assessment (TPFRA)) in the Malaysian public sector. It also draws the attention of the users of public sector accountants and auditors to the understanding of fraud mechanisms and how to deal with fraudsters. The objective of this paper is to investigate the competence requirements of accountants and auditors in the effective and efficient utilization of capability requirements, which have the potentials to usher in the best global practices in fighting fraud in the Malaysian public sector.

Mostly affected sectors as a target for crime are hospitality and leisure and financial services (PwC, 2011).

Similarly, the red flags emanating from the Auditor General's 2011 Audit Report on the government financial statements indicate the overspending of allocated budgets and public officials indulge in wasteful
