

10th Grade Honors Chemistry Final Exam Flashcards With Complete Solutions

Thermochemistry CORRECT ANSWERS The study of heat effects in chemical reactions.

Exothermic Reaction CORRECT ANSWERS A reaction that releases energy in the form of heat.

Examples: Combustion, freezing water.

Heat generated is added to the product side (right side) because heat is released.

Endothermic Reaction CORRECT ANSWERS A reaction that absorbs energy in the form of heat.

Examples: Melting ice, evaporating liquid water, boiling water.

Heat generated is added to the reactant side (left side) because heat is added.

Enthalpy (H or ΔH) CORRECT ANSWERS The energy after taking into account the pressure and volume of a substance.

If pressure remains constant, then heat absorbed or released during a chemical reaction is equal to the enthalpy change for the reaction.

$\Delta H =$ CORRECT ANSWERS $H \text{ Products} - H \text{ Reactants}$.

Standard State of Element (Temperature and Pressure) CORRECT ANSWERS
Temperature = 25° Celsius.
Pressure = 1 atm.

ΔH° CORRECT ANSWERS Standard enthalpy change = the heat transferred in a reaction with reactants and products in standard states.

Determining Enthalpy Change CORRECT ANSWERS $\Delta H = (-)$ Exo.
 $\Delta H = (+)$ Endo.

If heat is released as in an exothermic process the temperature will increase, but the product will have less energy than the reactant so enthalpy will be negative.

Seeing With Poetic Eyes Benjamin Blaisdell,2019-02-11 Seeing with poetic eyes is a phrase used by a teacher to describe one of his students a teenager who could recognize the disconnect between U S society s claims about racial equity and its actual commitment towards that equity As a teacher he saw it as his mission to help all of his students see the world in such a critical way with that hope that they would be motivated to pursue antiracism more actively in their lives In this book I discuss how critical race theory CRT can motivate research on race in sociology of education in a similar way Specifically I describe how CRT helped me work with seven white teachers on developing more critical understandings of race In my ethnographic interviews with these teachers the analytical tools of CRT gave me a way to openly dialogue with them about issues of race in education I was able to not only learn from the teachers but also work with them on developing racial awareness Instead of relying on more liberal forms of sociological research where the researcher extracts data from participants CRT helped me promote a more critical approach one where the researcher and participants work together to actively pursue antiracism in the research act itself So seeing with poetic eyes refers the way that I have come to view research as a means of antiracism Similarly I propose that CRT can promote such a critical approach to research on race in the field of sociology of education Present Practices in Mathematics Instruction and Supervision Veryl Schult,United States.
