Radar Absorbing Materials From Theory To Design And Characterization:

Radar Absorbing Materials K.J. Vinoy,R.M. Jha,1996-08-31 Radar absorbing materials offers an electromagnetic EM perspective to the evolution of radar absorbing materials RAM The major aspects covered are the EM analysis design fabrication and characterization of RAM This is followed by an exhaustive discussion on the application areas and current trends in RAM All the major aspects of RAM technology are covered in this book The analytical techniques are developed from first principles

Radar Absorbing Materials K.J. Vinoy,R.M. Jha,1996-09-14 Due to its extensive applications in stealth technology much of the research effort in radar absorbing materials RAM has remained classified As is the wont with classified topics it has resulted in much awe and unfounded speculation The aim of this book is to demystify this topic The book in hand is concise but complete in itself The attention of the readers is first drawn towards the historical evolution of RAM to emphasize that the elementary principles of electromagnetics lead to the fundamental concepts of RAM These also form the basis for further mathematical analysis and design of RAM The performance plots for the various RAM designs to the extent possible are taken with respect to power reflection this should facilitate comparison of their relative performances In order to further induce the reader to take the first step towards RAM design we have included the relevant computer codes in a companion diskette This would enable the reader to try out elementary designs on his own EXE files should facilitate ready execution of codes on most DOS based computing platforms The corresponding source codes with comments are also included as FOR files The reader may wish to modify some of these codes for examining RAM design algorithms further We welcome comments from the reader on these codes
