Metodologias ativas, gamificação com quizz José Luiz Teixeira da Silva, 2023-06-16 Com a evolução tecnológica a aprendizagem se tornou mais interessante aos que optaram em desenvolver uma metodologia em que o educando o protagonista de sua própria aprendizagem uma forma de atrair a atenção e o interesse dos educandos aos jogos educativos gamifica es quizzes com imagens mensagens e sons que possam estimular a aprendizagem significativa de forma lúdica Com essas abordagens os educandos podem desenvolver habilidades e competências cada vez mais complexas de que os cursos técnicos na área de saúde necessitam Além de desenvolver responsabilidade e compromisso com os estudos determinar horários para acessar plataforma fazer trabalhos e cumprir metas pré estabelecidas Assim os educandos têm um diferencial que não limita suas possibilidades de aprendizagem tendo suporte em tecnologias poder estudar quando e onde quiser acessando o Google Classroom

Information Technology in Health Science Education E. de Land, 2013-11-11 This first volume is but an introduction to the growing use of computer based systems in health science education It is unlikely that the intellectual or applied system constructs herein are either exhaustive of the field or immutable growth is inevitable For one thing the field is still fractured and loosely organized which is an inevitable description of an adolescent science in a rich mine of ideas There is emerging however an organizing concept A short look into the future indicates that educational system design will be dominated by a concept which for want of a better term we may call an information system Actually this term derives from an early New York World's Fair exhibition designed by Charles Eames entitled the Informational Machine in which the designer illustrated once again his insight into the future by showing how in a fundamental manner the digital computer promised to affect and to change our lives and this change is by no means completed Even during the publication of this volume the basic sciences requisite to the development of an information machine have evolved significantly The three intellectual areas to watch are developments in artificial intelligence graphics and man machine interaction and basic component and computer system design
