Reynolds, 2012-01 ALERT Before you purchase check with your instructor or review your course syllabus to ensure that you select the correct ISBN Several versions of Pearson's MyLab check with the seller before completing your purchase Used or rental books If you rent or purchase a used book with an access code the access code may have been redeemed previously and you may have to purchase a new access code Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code Check with the seller prior to purchase Seven Myths of Africa in World History David Northrup, 2017-09-01 Northrup's highly accessible book breaks through the most common barriers that readers encounter in studying African history Each chapter takes on a common myth about Africa and explains both the sources of the myth and the research that debunks it These provocative chapters will promote lively discussions among readers while deepening their understanding of African and world history The book is strengthened by its incorporation of actors and issues representing the African diaspora and African Americans in particular Rebecca Shumway College of Charleston The Atlantic in World History, 1490-1830 Trevor Burnard, 2019-12-12 The Atlantic in World History 1490 1830 looks at the historical connections between four continents Africa Europe North America and South America through the lens of Atlantic history It shows how the Atlantic has been more than just an ocean it has been an important site of circulation and transmission allowing exchanges and interchanges which have profoundly shaped the development of the world Divided into four thematic sections Trevor Burnard's sweeping yet concise narrative covers the period from the voyages of Columbus to the New World in the 1490s through to the end of the Age of Revolutions around 1830 It deals with key topics including the Columbian exchange Atlantic slavery and abolition war as a global phenomenon the Age of Revolution religious conversion nation building trade and commerce and intellectual movements such as the Enlightenment Rather than focusing on the rise of the West Burnard stresses the interactive nature of encounters between various parts of the world setting local case studies within his broader interconnected narrative Written by a leading historian of Atlantic history and including further reading lists images and maps as well as a companion website featuring discussion questions timelines and primary source extracts this is an essential book for students of Atlantic and world history

The History of Africa Molefi Kete Asante, 2014-10-10 There is a paradox about Africa it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity African historiography has typically consisted of writing Africa for Europe instead of writing Africa for itself as itself from its own perspectives The History of Africa redresses this by letting the perspectives of Africans themselves take center stage Authoritative and comprehensive this book provides a wide ranging history of Africa from earliest prehistory to the present day using the cultural social political and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans The result is a fresh survey that includes a wealth

of indigenous ideas African concepts and traditional outlooks that have escaped the writing of African history in the West The new edition includes information on the Arab Spring the rise of FrancAfrica the presence of the Chinese in Africa and the birth of South Sudan The chapters go up to the present day addressing US President Barack Obama's policies toward Africa A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter including images video and audio clips and links to sites for further research This straightforward illustrated and factual text allows the reader to access the major developments personalities and events on the African continent This groundbreaking survey is an indispensable guide to African history

The New World History Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today's practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field

Africa in World History Erik Gilbert, Jonathan T. Reynolds, 2004 This groundbreaking text is the first to examine Africa in the wider context of world history The authors show that Africans not only have shaped their own destiny but also have played a central role in a number of grand narratives of global history In doing so the text encourages readers to reconsider many popular or oversimplified myths regarding Africa and Africans and to explore the many issues controversies and debate within the field of African study With numerous maps full color photos primary sources timelines and a lively engaging narrative Africa in World History is as vibrant and multifaceted as the continent itself

Africa and the First World War De-Valera NYM Botchway, Kwame Osei Kwarteng, 2018-10-26 The First World War was a widespread conflagration in world history which despite its European origins had enormous effects throughout the world Fettered to European politics and diplomacy through colonialism Africa could not claim a position of neutrality meaning that it mobilised human and natural resources to support the imperial war effort Fighting both within and outside Africa colonised Africans who were compelled or coaxed by the colonial regimes of the warring European countries fought Europeans and Africans too The soldiers fought with great dedication and contributed significantly to successes attained by the belligerent European colonialists Similarly African non combatants like carriers brought zeal and enthusiasm to difficult wartime tasks The impact of the war on Africa was immense with far reaching consequences in specific colonies and touched the lives of all Africans under colonial rule Although the continent's connections to the war were immense and diverse these experiences are not

widely known among scholars and the general public This is because over the years most studies and commemorative events of the war have centred on the European theatre of the war and its outcomes This book brings together interesting essays written by scholars of African history society and military about African experiences of the war It complements and problematises some key themes on Africa and the First World War and offers a stimulating historiographical excursion providing possibilities for reconsidering normative conclusions on the war The volume will be of interest to general readers as well as students and researchers in different areas of scholarship including African history war studies postcolonial studies cultural studies labour history and the history of memory among others
