African Law and Legal Theory Gordon R. Woodman, Akintunde Olusegun Obilade, 1995 The papers presented in this volume aim to contribute to the development of African legal theory Issues discussed include legal anthropology customary law in the state legal system legal concepts and procedural and substantive justice *African Law and Legal Theory* Gordon R. Woodman, Akintunde Olusegun Obilade, 1995 This Major Reference series brings together a wide range of key international articles in law and legal theory Many of these essays are not readily accessible and their presentation in these volumes will provide a vital new resource for both research and teaching Each volume is edited by leading international authorities who explain the significance and context of articles in an informative and complete introduction *Library of Congress Law Library: An Illustrated Guide* Jolande E. Goldberg, 2005 **Welfare Law** Lucy A. Williams, 2020-11-25 This title was first published in 2001 Welfare law is a legal field integral to most jurisprudential formulations whether artificially designated as doctrinal theoretical or practical At its core legal discourse regarding welfare challenges the formulations traditionally viewed as pre legal the background rules of property tort and contract law In addition it affects a large percentage of the world's population highlights the social construction of identities and perhaps more than any other area of law graphically epitomizes the intersection of class race and gender distinctions However within both the legal academy and practice welfare law has been marginalized and viewed as a field that does not connect to any but a small sector of lawyers and legal clients Isolated as an arcane domain of either statutory and regulatory legal minutiae or jurisprudential insignificance welfare law has never realized its potential as a major hub for legal theoretical discourse The articles in this volume seek to expose the roots of the essentialized view of welfare law as nonessential and re establish its value and importance *The Idea of Property* Laura S. Underkuffler, 2003 Legal scholars and philosophers have long been engaged in studying the secret of the internal structure of property in law This text aims to advance our understanding of property as an idea and the power that claimed property rights should have against competing public interests **Current Legal Theory**, 1996 *Law, Society and Community* Richard Nobles, David Schiff, 2016-04-22 This collection of socio legal studies written by leading theorists and researchers from around the world offers original perceptive and critical contributions to ideas and theories that have been expounded by Roger Cotterrell over a long and distinguished career Engaging with many classic issues and theories of the sociology of law the contributions are likely to become classics themselves as they tackle some of the most significant challenges that modern law faces They do not shy away from what one of the contributors describes as the complexity and multiplicity of our contemporary legal world The book is organized in three parts socio legal themes methodological and jurisprudential themes globalization cultural and comparative law themes Starting with a chapter that re engages with the need to interpret legal ideas sociologically and ending with one that explores the global significance of modern fascination with the idea of the rule of law this selection offers important additions to the oeuvre of Roger Cotterrell

a list of whose academic writings is included in the book Rights Carlos Nino,1992-08 The essays in this volume concern the topic of legal rights how they are related to morality the place of rights on moral theory and the legal recognition of rights *Law Books Published 1993 Suppl* ,1994 **Gender-related Legal Reform and Access to Economic Resources in Eastern Africa** Gita Gopal,1999 The impetus for change in African legal reform is coming primarily from African women themselves as they respond to their personal and practical experiences with the law Top down imposition of norms has not worked if legal reform is to lead to sustainable equity for women the voices of these women must be heard Given that previous efforts to ensure greater equity in personal laws have not been fully successful in eastern African countries any new legal initiatives must not repeat the mistakes of the past Law must not again remain merely on the books as a legitimizing tool that reinforces or supports gender discrimination but must actively protect and guard the interests of both men and women This paper attempts to draw out some possible lessons from past experience to inform new efforts at legal reform in these countries It examines the laws related to allocation of economic resources within households in the broader historical social and cultural context in some of these countries and examines the effectiveness of these laws in challenging gender relationships **Reimagining Nonprofits** Eva Witesman,Curtis Child,2024-02-01 What is the nonprofit sector and why does it exist Collecting the writing of some of the most creative minds in the field of nonprofit studies this book challenges our traditional understanding of the role and purpose of the nonprofit sector It reflects on the ways in which new cultural and economic shifts bring existing assumptions into question and offers new conceptualizations of the nonprofit sector that will inform provoke and inspire Nonprofit organization and activity is an enormously important part of social cultural and economic life around the world but our conceptualization of their place in modern society is far from complete Reimagining Nonprofits provides fresh insights that are necessary for understanding nonprofit organizations and sectors in the 21st century Bibliographie Internationale D'anthropologie Sociale Et Culturelle 1992 British Library of Political and Economic Science,1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Law and Psychology** Martin Lyon Levine,1995 This volume is based on the idea that law is intertwined with the liberal arts and also that the discipline of law is itself part of the humanities and one of the social sciences The book therefore looks at psychology as one of a range of interdisciplinary approaches to the law **Towards Africa-oriented Risk Analysis Models** Korwa Gombe Adar,Richard O. Iroanya,F. O. C. Nwonwu,2008 Risk analysis studies on Africa conducted by a number of international organisations have addressed a number of complex and interlocking socioeconomic and political issues largely painting a bleak picture of the continent These reports have been used by the Western countries as benchmarks for the flow of donor funds often with disastrous consequences The failure of the Structural Adjustment Programmes SAPs introduced by the Bretton Woods institutions in the 1970s and 1980s serve as a good example Taking

cognisance of these interpretations the case studies in this volume have employed appropriate methodological conceptual and theoretical approaches with the objective of reaching balanced assessments on the underlying principles of risk and threat in Africa The authors take a more holistic view clearly defining the concept of risk and its corollaries and going beyond the somewhat limited view of those organisations which apply largely Eurocentric values to their assessments IBSS: Sociology: 2002 Vol.52 Compiled by the British Library of Political and Economic Science,2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2003 234x156 Hb 0 415 32634 6 195 00 Economics 2002 Vol 51 December 2003 234x156 Hb 0 415 32635 4 195 00 Political Science 2002 Vol 51 December 2003 234x156 Hb 0 415 32636 2 195 00 Sociology 2002 Vol 52 December 2003 234x156 Hb 0 415 32637 0 195 00 *Law in History (Vol. 1)* David Sugarman,1996-12 This Major Reference series brings together a wide range of key international articles in law and legal theory Many of these essays are not readily accessible and their presentation in these volumes will provide a vital new resource for both research and teaching Each volume is edited by leading international authorities who explain the significance and context of articles in an informative and complete introduction Intellectual Property, Traditional Knowledge and Cultural Property Protection Sharon Le Gall,2014-01-10 International developments since the mid 1990s have signalled an awareness of the importance and validity of traditional knowledge and cultural property The adoption of the Convention on Biological Diversity and the establishment of the WIPO Intergovernmental Committee on Intellectual Property and Genetic Resources Traditional Knowledge and Folklore demonstrate an emerging trend towards the recognition of the rights of communities and the importance of culture in shaping international law and policy This book examines how developments to protect collectively held knowledge transpose to circumstances which may not meet the usually understood criteria of what is considered to be an indigenous or traditional group This includes communally derived cultural products which have emerged out of communities and subsequently formed a part of the national or popular culture The book considers the steel pan of Trinidad and Tobago punta rock music from Belize Brazilian capoeira and the caj n of Peru as key cases studies of this By exploring the impact of past and recent international developments to protect traditional knowledge

Sharon Le Gall highlights a category of cultural signifiers which lies outside the scope of intellectual property protection as well as the protection proposed for traditional knowledge and advocated for intangible cultural property The book proposes a reinterpretation of Joseph Raz's interest theory of group rights in order to accommodate the rights advocated for collectively derived cultural signifiers on the basis of their value as symbols of identity In doing so Le Gall offers an original account of how those signifiers which may not be described as exclusively traditional or indigenous and held in ways which are not traditional or customary may be accommodated in emerging traditional knowledge laws Restorative Justice Declan Roche, 2017-11-30 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice **A Companion to Harry S. Truman**

Daniel S. Margolies, 2012-07-30 With contributions from the most accomplished scholars in the field this fascinating companion to one of America's pivotal presidents assesses Harry S Truman as a historical figure politician president and strategist Assembles many of the top historians in their fields who assess critical aspects of the Truman presidency Provides new approaches to the historiography of Truman and his policies Features a variety of historiographic methodologies

Law and Language Frederick F. Schauer, 1993-04 This Major Reference series brings together a wide range of key international articles in law and legal theory Many of these essays are not readily accessible and their presentation in these volumes will provide a vital new resource for both research and teaching Each volume is edited by leading international authorities who explain the significance and context of articles in an informative and complete introduction
