Ahmet Davutoglu:

The Foreign Policy of Modern Turkey Ozgur Tufekci, 2017-01-30 In the last three decades Turkey has attempted to build close relationships with Russia Iran and the Turkic World As a result there has been ongoing debate about the extent to which Turkey's international relations axis is shifting eastwards Ozgur Tufekci argues that Eurasianist ideology has been fundamental to Turkish foreign policy and continues to have influence today The author first explores the historical roots of Eurasianism in the 19th century comparing this to Neo Eurasianism and Pan Slavism The Ozal era 1983 1993 the Cem era 1997 2002 and Davutoglu era since 2003 are then examined to reveal how foreign policy making has been informed by discourses of Eurasianism and how Eurasianist ideas were implemented through internal and external socio economic and political factors

Five Rising Democracies Ted Piccone, 2016-02-23 Shifting power balances in the world are shaking the foundations of the liberal international order and revealing new fault lines at the intersection of human rights and international security Will these new global trends help or hinder the world's long struggle for human rights and democracy The answer depends on the role of five rising democracies India Brazil South Africa Turkey and Indonesia as both examples and supporters of liberal ideas and practices Ted Piccone analyzes the transitions of these five democracies as their stars rise on the international stage While they offer important and mainly positive examples of the compatibility of political liberties economic growth and human development their foreign policies swing between interest based strategic autonomy and a principled concern for democratic progress and human rights In a multipolar world the fate of the liberal international order depends on how they reconcile these tendencies

Systemic Earthquake and the Struggle for World Order Ahmet Davutoğlu, 2020-01-23 Using the analogy of a devastating series of earthquakes Davuto lu provides a new theoretical approach conceptualization and methodology for understanding crisis in the post Cold War era In order to grasp the scale and scope of the ongoing crises we are experiencing today Davuto lu conceptualizes them as aftershocks following in the wake of the four great quakes that have shaken the world in recent times namely the geopolitical earthquake triggered by dissolution of the Soviet Union 1991 the security earthquake post 9 11 2001

the economic earthquake associated with the global economic crisis 2008 and the structural earthquake of the Arab Spring 2011 By contextualizing international order as being impacted by a number of intertwined processes the book then looks to the possible futures ahead Following his analysis of the ongoing systemic crisis Davuto lu forges a vision for a new order of global democracy built from the rubble of the systemic earthquake **The New York Times Magazine** ,2011 The Parliamentary Debates (Hansard).
