Parton,2013-03-15 It is said if you answer one question ten others pop up in its place Not only in philosophical mapping is it true the questions multiply even more for all who look in the God domain Questions may seem similar but the diversity of

human experience and the cultural milieu tend to make one think things are actually different language systems Meeting and knowing God varies for societies diversity varies within societies religious intuitions family traditions and an untold more make God communication very difficult Underneath them all they are basically the same This book on meeting God is not intended to answer questions it is for the thinking person who has spent a lifetime of examination of oneself and the larger world We ask with you the reader and do not tell because we are like you studying the issues We offer an open question format We are not silly enough to think there are absolute answers We suggest information until something better comes along on the journey The task is to search and to research some more until we feel comfortable with a place where we have sought This may be at the same place where we have started or arrive at a strange place which we never thought existed before our exploration began **The Hermits of Big Sur** Paula Huston,2021-11-01 Between World War II and Vatican II as Italy struggled to rebuild after decades of Mussolini's fascism an eleventh century order of contemplative monks in the Apennines were urged by Thomas Merton to found a daughter house on the rugged coast of California A brilliant but world weary ex Jesuit who had recently withdrawn from a high intensity public life to go into reclusion at the ancient Sacro Eremo of Camaldoli was tapped for the job Based on notes kept for over sixty years by an early American novice at New Camaldoli Hermitage The Hermits of Big Sur tell the compelling story of what unfolds within this small and idealistic community when medievalism must finally come to terms with modernism It traces the call toward fuga mundi in the young seekers who arrive to try their vocations only to discover that the monastic life requires much more of them than a bare desire for solitude And it describes the miraculous transformation that sometimes occurs in individual monks after decades of lectio divina silent meditation liturgical faithfulness and the communal bonds they have formed through the practice of the privilege of love

Faith Without Dogma Margaret Isherwood,2013-05-02 Life is a constant search for meaning and reflective minds need to find deeper and more comprehensive meaning than that normally proffered by the orthodox teaching of any creedal religion When this book was initially published in 1964 religion had begun to recognize the importance of psychology and psychology had considered a spiritual principle in man Miss Isherwood's purpose in writing this book is to relate science and religion more closely Her theme is that the evolution of consciousness from protozoa provides a link which not only gives grounds for faith in life and an inspiration for carrying development forward but which reveals that as we continuously work at deepening our insight into the realms of spirit the life process appears to us as steadily more meaningful Her engaging writing style makes this a fascinating glimpse at a philosophy of religion starting to engage with science *The Routledge History of Happiness* Katie Barclay,Darrin McMahon,Peter N. Stearns,2024-05-09 Unmatched in originality breadth and scope The Routledge History of Happiness features chapters that explore the history anthropology and psychology of happiness across the globe Through a chronological approach that ranges from the Classical and Postclassical to the twenty first century this volume balances intellectual history treatments and wider efforts to deal with relevant popular culture and experience
