interpreting crime punishment safety equality and justice The findings reveal that race ethnicity gender class and several other variables continue to play a significant role in the legal decision making process With the social control from police brutality to immigration discourse reaching unprecedented levels the book will have broad appeal for students police officers advocates activists attorneys the media and the general public *Hispanics in the U.S Criminal Justice System* Martin Guevara Urbina, Sofía Espinoza Álvarez, 2018-05-07 This updated and expanded new edition resumes the theme of the first edition and the findings reveal that race ethnicity gender class and several other variables continue to play a significant and consequential role in the legal decision making process The book is structured into three sections each of which corresponds to a different body of work on Latinos Section One explores the historical dynamics and influence of ethnicity in law enforcement and focuses on how ethnicity impacts policing field practices such as traffic stops use of force and the subsequent actions that police departments have employed to alleviate these problems A detailed examination of critical issues facing Latino defendants seeks to better understand the law enforcement process The history of immigration laws as it pertains to Mexicans and Latinos explains how Mexicans have been excluded from the United States through anti immigrant legislation Latino officers must cope with structural and political issues the community and media as these practices and experiences within the American police system are explored Section Two focuses on the repressive practices against Mexicans that resulted in executions vigilantism and mass expulsions The topic of Latinos and the Fourth Amendment reveals that the constitutional right of people to be protected against unreasonable searches and seizures has been eviscerated for Latinos and particularly for Mexicans Possible remedies to existing shortcomings of the court system when processing indigent defendants are presented Section Three studies the issue of Hispanics and the penal system The ethnic realities of life behind bars probation and parole the legacy of capital punishment and life after prison are discussed Section Four addresses the globalization of Latinos social control and the future of Latinos in the U S Criminal justice system Lastly the race and ethnic experience through the lens of science law and the American imagination are explored concluding with policy recommendations for social and criminal justice reform and ultimately humanizing differences Written for professionals and students of law enforcement this book will promote the understanding of the historical legacy of brutality manipulation oppression marginalization prejudice discrimination power and control and white America s continued fear about racial and ethnic minorities *American Ethnicity* Adalberto Aguirre, Jonathan H. Turner, 2007 This brief text provides an accessible introduction to the dynamics of racial and ethnic relations After summarizing key concepts and theories the authors develop a simple theoretical framework that guides the presentation of data on each of the prominent ethnic groups in America As a result the book examines each ethnic group from the same perspective allowing students to compare the dynamics of discrimination against African Americans Native Americans Asian Americans white ethnic Americans and Latinos **Digital Media Strategies of the Far Right in Europe and the United States** Patricia Anne Simpson, Helga Druxes, 2015-05-06

With the leverage of digital reproducibility historical messages of hate are finding new recipients with breathtaking speed and scope The rapid growth in popularity of right wing extremist groups in response to transnational economic crises underscores the importance of examining in detail the language and political mobilization strategies of the New Right In Europe for example populist right wing activists organized around an anti immigration agenda are becoming more vocal providing pushback against the increase in migration flows from North Africa and Eastern Europe and countering support for integration with a categorical rejection of multiculturalism In the United States anti immigration sentiment provides a rallying point for political and personal agendas that connect the rhetoric of borders with national racial and security issues Digital Media Strategies of the Far Right in Europe and the United States is an effort to examine and understand these issues informed by the conviction that an interdisciplinary and transnational approach can allow productive comparison of far right propaganda strategies in Europe and the United States With a special emphasis on performing ideology in the far right music scene on violent anti immigrant stances and on the far right s skillful creation and manipulation of virtual communities the contributions foreground the cultural shibboleths that are exchanged among far right supporters on the Internet which serve to generate a sense of group belonging and the illusion of power far greater than the known numbers of neo Nazis in any one country might suggest Moreover with attention to transatlantic right wing movements and their use of particularly digital media the essays in this volume put pressure on the similarities among the various national agents while accommodating differences in the virtual and sometimes violent identities created and nurtured online

Crossing Boundaries Brian D. Behnken, Simon Wendt, 2013-06-27 Crossing Boundaries Ethnicity Race and National Belonging in a Transnational World explores ethnic and racial nationalism within a transnational and transcultural framework in the long twentieth century late nineteenth to early twenty first century The contributors to this volume examine how national solidarity and identity with their vast array of ideological political intellectual social and ethno racial qualities crossed juridical territorial and cultural boundaries to become transnational how they altered the ethnic and racial visions of nation states throughout the twentieth century and how they ultimately influenced conceptions of national belonging across the globe Human beings live in an increasingly interconnected transnational global world National economies are linked worldwide information can be transmitted around the world in

seconds and borders are more transparent and fluid In this process of transnational expansion the very definition of what constitutes a nation and nationalism in many parts of the world has been expanded to include individuals from different countries and more importantly members of ethno racial communities But crossing boundaries is not a new phenomenon In fact transnationalism has a long and sordid history that has not been fully appreciated Scholars and laypeople interested in national development ethnic nationalism as well as world history will find Crossing Boundaries indispensable

Multicultural America Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors *Religion and Inequality in America* Lisa A. Keister, Darren E. Sherkat, 2014-07-10 Examines how social inequality is affected by religious beliefs and affiliation with contributions in the fields of religion and sociology **Contemporary Sociological Theory** Jonathan H. Turner, 2012-09-20 Written by award winning scholar Jonathan Turner Contemporary Sociological Theory covers the range of diversity of theory in nine theoretical traditions and variants of theoretical approaches in these traditions The result is a comprehensive review of present day theorizing in sociology covering functional evolutionary ecological conflict interactionist exchange structuralist cultural and critical theories and the major proponents of these theories Moreover for each theoretical tradition its origins are examined in a separate chapter with an eye to how classical theorists influenced the work of key contemporary scholars This book will serve as a valuable resource for those readers seeking in depth and comprehensive coverage of contemporary traditions in

their historical contexts Unlike many texts coverage is comprehensive and deep The theories and their origins are examined in detail so that readers can fully understand the origins and present profile of theories in present day sociology Unlike many texts that skim over theories on the surface this book seeks to unlock for the reader their underlying structure of each theory The book is written in a modular format so that theories and traditions can be examined in any order and in many diverse combinations If desired only the contemporary theories can be read without attention to their historical contexts or the reverse is true if readers want to understand the historical origins of a particular theoretical tradition Since Jonathan Turner is an active theorist in his own right he brings to the book an appreciation of how theories are created as an insider rather than as only a commentator on theory As such he is able to bring out the underlying assumptions structure and form of a theory in new and interesting ways for casual readers and scholars alike

LATINO POLICE OFFICERS IN THE UNITED STATES Martin Guevara Urbina, Sofia Espinoza Alvarez, 2015-03-01 Considering the long lasting and complicated history of U S race and ethnic relations the multiple array of issues currently confronting both ethnic and racial communities and the shifting trends in the ethnic racial landscape this book seeks to provide a comprehensive account of the simultaneous interaction of pressing historical and contemporary forces shaping the Latino experience as well as police minority relations to better understand the current state of policing and gain further insight into the future role of Latino police in American law enforcement across the country Delineating the confines of policing a highly diverse and multicultural society in the twenty first century this book conjoins historical theoretical and empirical research placing Latino policing within a broader law enforcement and community context Major topics include the need for Latino police officers employment of Latino officers by federal state and local law enforcement agencies Chicano police officers working in the Latino community Latino officers policy practice and ethnic realities Mexican American law enforcement bridging the gaps future research and change in American institutions policy recommendations toward a new police force and the future of Latino officers in the American police Additional issues highlighted include racial ethnic profiling police brutality underpolicing and overpolicing which challenge the quest for representation equality justice and due process Finally the contributing authors demonstrate that the lack of knowledge on Latino police and the overall American police is not inevitable and thus the book concludes with policy and research recommendations to help bridge this long neglected void ultimately the creation of a new police force for the twenty first century The text represents a most timely and essential tool for all levels of policing law enforcement administrators criminal justice educators civic managers criminologists sociologists and others vested in police reform

The Ku Klux Klan's Campaign Against Hispanics, 1921-1925 Juan O. Sánchez, 2018-07-26 The Ku Klux Klan's persecution of Hispanics during the early 1920s was just as brutal as their terrorizing of the black community a fact sparsely documented in historical texts The KKK viewed Mexicans as subhuman foreigners supporting a Catholic conspiracy to subvert U S institutions and install the pope as leader of the nation and mounted a campaign of intimidation and violence against them

Drawing on numerous Spanish language newspapers and Klan publications of the day the author describes the KKK's extensive anti Hispanic activity in the southwest

Latino Access to Higher Education Martin Guevara Urbina, Claudia Rodriguez Wright, 2015-10-01 While the black and white racial experience has been delineated over the years the ethnic realities of Latinos have received minimal attention Therefore with Latinos projected as the upcoming U S population majority the central goal of this book is to document the Latino experience in the world of academia focusing primarily but not exclusively on first generation Latino students in higher education delineating the dynamics of the educational journey while situating their experiences within the ethnic community the overall American society and the international community The text focuses on 1 ethnic realities including Latino student access to higher education retention graduation rates and career success 2 analysis of historic trends 3 extensive review of prior empirical studies 4 a holistic portrayal of education in the U S 5 a qualitative study conducted in an institution of higher education in Texas placing the stories of participating Latino students in theoretical context 6 vivid documentation of historically entrenched racial ideologies in American education 7 exploration of potential solutions to historical and contemporary barriers confronting Latino students 8 development of a model of empowerment for Latino students 9 information for the establishment of a balanced educational system 10 accountability of higher education institutions 11 review of revolutionizing education in the midst of current globalization and 12 venturing into the future of Latino education in the overall American experience Finally the book seeks to examine not only America's racism that is evident but also the structural cultural and ideological forces that have influenced and continue to perpetuate the current educational situation for Latinos

TWENTY-FIRST CENTURY DYNAMICS OF MULTICULTURALISM Martin Guevara Urbina, 2014-09-19 In the twenty first century few studies have delineated the U S multiculturalism story beyond black and white to include the truths and realities of other Americans over time resulting in highly skewed academic publications While the white experience and to a lesser extent the black experience has been well documented the brown experience for instance has been neglected minimized or excluded from the pages of history Clearly there has been a great need for researchers to examine the multiple intertwining forces of historical and contemporary movements defining shaping and governing the everyday experience of America's people In the face of centuries of manipulation exploitation oppression and sometimes brutal violence blacks browns reds yellows and others are still here fighting not only for ethnic and racial tolerance but also for equality justice respect and human dignity In fact despite the long legacy of hate violence and oppression against America's most disadvantaged communities particularly undocumented people the minority population will continue to grow and with pressing demographic shifts ethnic and racial minorities will soon become the new face of America In delineating the dynamics of multiculturalism over the years contributing authors illustrate that the United States is nowhere near a post racial society and thus we must prioritize equality justice and multiculturalism if the U S is in fact going to have a balanced system Globally the United States must

actively engage in significant and positive social transformation in the new millennium if the U S is going to be situated and reflective of a post racial society in the twenty first century Twenty First Century Dynamics of Multiculturalism will be of benefit to professionals in the fields of sociology history minority studies Mexican American Chicano studies ethnic Latino studies law political science and also those concerned with sociolegal issues Race and Family Roberta L.

Riding the Academic Freedom Train Jeanett Castellanos,Joseph L. White,Veronica Franco,2023-07-03 Mentoring demonstrably increases the retention of undergraduate and graduate students and is moreover invaluable in shaping and nurturing academic careers With the increasing diversification of the student body and of faculty ranks there s a clear need for culturally responsive mentoring across these dimensions Recognizing the low priority that academia has generally given to extending the practice of mentoring let alone providing mentoring for Black indigenous and people of color BIPOC and first generation students this book offers a proven and holistic model of mentoring practice developed in the field of psychology that not only helps mentees navigate their studies and the academy but provides them with an understanding of

the systemic and racist barriers they will encounter validates their cultural roots and contributions and attends to their personal development Further recognizing the demands that mentoring places on already busy faculty the model addresses ways of distributing the work inviting White and BIPOC faculty to participate developing mentees capacities to mentor those that follow them building a network of mentoring across generations and adopting group mentoring Intentionally planned and implemented the model becomes self perpetuating building an intergenerational cadre of mentors who can meet the growing and continuing needs of the BIPOC community Opening with a review of the salient research on effective mentoring and chapters that offer minority students views on what has worked for them as well as reflections by faculty mentors the core of the book describes the Freedom Train model developed by the godfather of Black psychology Dr Joseph White setting out the principles and processes that inform the Multiracial Multiethnic Multicultural M3 Mentoring Model that evolved from it and offers an example of group mentoring While addressed principally to faculty interested in undertaking mentoring and supporting minoritized students and faculty the book also addresses Deans and Chairs and how they can create Freedom Train communities and networks by changing the cultural climate of their institutions providing support and modifying faculty evaluations and rewards that will in turn contribute to student retention as well as creative and productive scholarship and research This is a timely and inspiring book for anyone in the academy concerned with the success of BIPOC students and invigorating their department s or school s scholarship *Middle Eastern Lives in America* Amir B. Marvasti,Karyn D. McKinney,2004 The place of Middle Easterners in the racial hierarchy of the United States remains relatively unexplored in scholarly research In this book this authors present the everyday experiences of this population by specifically focusing on Arab and Iranian Americans Using focus groups and interviews respondents were asked to comment on their everyday experiences in the realms of public spaces educational settings work housing and family Through concrete descriptions and analysis of how Arab and Iranian Americans are confronted with matters of ethnic and racial inequality this work s primary aim is to debunk entrenched stereotypes by bringing to the forefront the human complexity of the Middle Eastern experience Marvasti and McKinney argue that the discrimination and exclusion faced by this group cannot be fully understood using the existing paradigm of minority majority group interactions The political tensions between the U S and various Islamic countries in the Middle East combined with the September 11th terrorist attacks have cast Arab and Iranian Americans as a unique minority group These facts have created a condition of hostility and suspicion in the daily interactions between Middle Eastern Americans and other Americans that is not faced by any other ethnic group today At the same time while there is a growing recognition in the sociological study of race and ethnicity of the so called browning of America the research literature does not address how Middle Easterners figure into this demographic shift This text will fill these general gaps in the race and ethnicity literature by making visible this minority group s everyday experiences and their strategies for coping with and resisting discrimination Critical Issues in Crime and Justice Mary Maguire,Dan Okada,2014-11-11 A
