Arsenal of World War II Paul A. C. Koistinen, 2004 Prolific munitions production keyed America s triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen s fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership

between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military's supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe

Hard Living in America's Heartland Paula vW. Dáil, 2015-01-28 Despite living hard endlessly challenging lives the rural poor remain tirelessly optimistic believing things will get better next year As one struggling farmer explained Sometimes I feel like a jackass in a hailstorm I just have to stand here and take it but what the hell it ll stop hailing sooner or later The struggle to survive on the richest farmland in America has produced some of the nation's poorest people However rural poverty is not the same as urban poverty the usual definitions and criteria do not always apply the known predictors do not necessarily hold up and again and again the rural poor save themselves because they know no one else will This book refutes the common image of the poor as lazy slackers averse to work In reality fiercely independent politically astute hard working men and women who possess a wide array of useful skills populate the rural heartland and they struggle to stay afloat in small town economies that rise and fall on the whims of remote farm policy decisions a volatile world marketplace and Mother Nature who is a fickle wildly unpredictable business partner

Presidential Performance in the Progressive Era Fred Greenstein, Dale Anderson, 2024-06-18 Presidential Performance in the Progressive Era Leadership Style from McKinley to Wilson continues Fred I Greenstein's multivolume Presidential Difference Project It follows Greenstein's matrix for evaluating presidential leadership 1 public communication 2 organizational capacity 3 political skill and the extent to which it is harnessed to a 4 policy vision 5 cognitive style and 6 emotional intelligence Here these criteria are applied to the leadership styles of the four presidents of the Progressive Era William McKinley Theodore Roosevelt William H Taft and Woodrow Wilson The book begins by outlining Greenstein's matrix to assess presidential leadership style and providing an overview of the profound changes of and political challenges posed

by the Progressive Era Greenstein and coauthor Dale Anderson then examine each of the four presidents first considering their lives and careers prior to the presidency to suggest influences on their character and leadership style Next is a review of their performance as chief executive highlighting key issues and policy decisions and the discussion concludes with an analysis of their leadership according to the matrix In the final chapter the authors compare and contrast the four presidents as to each of the six criteria in the matrix **The New York Times Index** ,2009 *Making Men Moral* Nancy K. Bristow,1997-10 Nancy Bristow successfully combines military history with anecdotes of cultural reform efforts to educate and mold with movies dances exercises books and sing alongs sexually active soldiers into model citizens LIBRARY JOURNAL 39 photos Ordering America William H. Young,2010 Ordering America painting a felicitous portrait of Western civilization shows that its defining ideals rooted in man s common human nature a perception newly substantiated by modern evolutionary psychology were best fulfilled by realization of the American founding order Twentieth century progressivism and postmodern multiculturalism detoured America down the way of social constructionism human nature and equality are produced by culture and the state through groups The book sets a course to revive the Western ideals and return to an opportune center right American order applying latest scientific insights and restoring individual responsibility and reciprocity under more limited still energetic government befitting our century Communists and Perverts under the Palms Stacy Braukman,2012-03-01 In 1956 state Senator Charley Johns was appointed the chairman of the newly formed Florida Legislative Investigation Committee now remembered as the Johns Committee This group was charged with the task of unearthing communist tendencies homosexual persuasions and anything they saw as subversive behavior in academic institutions throughout Florida With the cooperation of law enforcement the committee interrogated and spied on countless individuals including civil rights activists college students public school teachers and university faculty and administrators Today the actions of the Johns Committee are easily dismissed as homophobic and bigoted Communists and Perverts under the Palms reveals how the creation of the committee was a logical and unsurprising result of historic societal anxieties about race sexuality obscenity and liberalism Stacy Braukman illustrates how the responses to those societal anxieties particularly the Johns Committee laid the foundation for the resurgence of conservatism in the 1960s Braukman is considered and nuanced in her stance refusing a blanket condemnation of the extremism of a committee whose influence even decades after its dissolution continues to be felt in the culture wars of today Modern Jeremiahs Mark Stephen Jendrysik,2008-01-01 This book identifies where modern Jeremiahs place the sources of national decline and their purposed solutions and its analysis also reveals the central problem faced by this form of writing the need to balance condemnation of certain practices within the democratic polity with calls for repentance For these writers and political actors the tensions created by these demands prove impossible to resolve as the modern jeremiad further divides an already divided nation Empty Mills Timothy J. Minchin,2012-12-16 With the economy struggling there has been much discussion about the effects of

deindustrialization on American manufacturing While the steel and auto industries have taken up most of the spotlight the textile and apparel industries have been profoundly affected In *Empty Mills* Timothy Minchin provides the first book length study of how both industries have suffered since WWII and the unwavering efforts of industry supporters to prevent that decline In 1985 the textile industry accounted for one in eight manufacturing jobs and unlike the steel and auto industries more than fifty percent of the workforce was women or minorities In the last four decades over two million jobs have been lost in the textile and apparel industries alone as more and more of the manufacturing moves overseas Impeccably well researched providing information on both the history and current trends *Empty Mills* will be of importance to anyone interested in economics labor the social historical as well as the economic significance of the decline of one of America s biggest industries

Louisiana during World War II Jerry Purvis Sanson,2020-04-01 While the impact of World War II on America and other countries has been exhaustively chronicled few historians have investigated the experiences of individual states during the tumultuous war years In his study of Louisiana s home front from 1939 to 1945 Jerry Purvis Sanson examines changes in politics education agriculture industry and society that forever altered the Pelican State The war era was a particularly important time in Louisiana s colorful political history The gubernatorial victories of prominent anti Huey Long candidates Sam Jones in 1940 and Jimmie Davis in 1944 reflected shifting sentiments toward politicians and heralded a changing of the guard in the statehouse This created a system of active dual faction politics that continued for the next decade The war also transformed the state s economy agricultural mechanization accelerated to compensate for labor shortages and industries increased production to meet military demands Louisiana s educational system modified its curriculum in response to the war providing technical training and sponsoring scrap metal collections and war stamp sales drives Sanson explores the war s effect on the everyday lives of Louisianians showing how their actions at home provided them with a sense of personal participation in the titanic effort against the Axis powers He also points out that while many found their lives limited by war two groups African Americans and women experienced increased opportunities as they moved from low paying jobs to more lucrative positions vacated by white males who had departed for the service Now condensed for easy and efficient access Sanson s historical account provides a wide ranging yet intimate look at how the war was brought home to the people of the Bayou State

Free Spaces Sara M. Evans,Harry C. Boyte,1992-04 What are the environments the public spaces in which ordinary people become participants in the complex ambiguous engaging conversation about democracy participators in governance rather than spectators or complainers victims or accomplices What are the roots not simply of movements against oppression but also of those democratic social movements which both enlarge the opportunities for participation and enhance people s ability to participate in the public world In *Free Spaces* Sara M Evans and Harry C Boyte argue for a new understanding of the foundations for democratic politics by analyzing the settings in which people learn to participate in democracy In their new Introduction the authors link the concept of free

spaces to recent theoretical discussions about community public life civil society and social movements *Smashing the Liquor Machine* Mark Lawrence Schrad, 2021 When most people think of the prohibition era they think of speakeasies gin runners and backwoods fundamentalists railing about the ills of strong drink In other words in the popular imagination it is a peculiarly American event Yet as Mark Lawrence Schrad shows in *Smashing the Liquor Machine* the conventional scholarship on prohibition is extremely misleading for a simple reason American prohibition was just one piece of a global wave of prohibition laws that occurred around the same time Schrad's counterintuitive global history of prohibition looks at the anti alcohol movement around the globe through the experiences of pro temperance leaders like Thomas Masaryk founder of Czechoslovakia Vladimir Lenin Leo Tolstoy and anti colonial activists in India Schrad argues that temperance wasn't American exceptionalism at all but rather one of the most broad based and successful transnational social movements of the modern era In fact Schrad offers a fundamental re appraisal of this colorful era to reveal that temperance forces frequently aligned with progressivism social justice liberal self determination democratic socialism labor rights women's rights and indigenous rights By placing the temperance movement in a deep global context he forces us to fundamentally rethink all that we think we know about the movement Rather than a motley collection of puritanical American evangelicals the global temperance movement advocated communal self protection against the corrupt and predatory liquor machine that had become exceedingly rich off the misery and addictions of the poor around the world from the slums of South Asia to central Europe to the Indian reservations of the American west Unlike many traditional dry histories *Smashing the Liquor Machine* gives voice to minority and subaltern figures who resisted the global liquor industry and further highlights that the impulses that led to the temperance movement were far more progressive and variegated than American readers have been led to believe
