The Congress Of Vienna And Its Legacy War And Great Power Diplomacy After Napoleon International Library Of Historical Studies:

The Congress of Vienna and its Legacy Mark Jarrett, 2013-09-30 In 1814 the five reigning dynasties of Europe Alexander I of Russia and ministers such as Metternich and Talleyrand descended upon Vienna. The Vienna Congress marked one of the great turning points in diplomatic history: the first attempt to create an international order to secure peace for the nineteenth century. The blueprint for modern day global governance models such as the UN, it was a response to Napoleon's expansion across Europe and sought to build upon the state systems he left behind whilst shoring up the privileges and power of Europe's elite. Here Mark Jarrett argues that the Congress of Vienna in fact marked the beginning of the end for the Ancien Régime, yet despite its disintegration following the suicide of Castlereagh, the congress system has had an enormous influence up to the present day. The role of diplomacy as a means to conflict resolution, the workings of multilateralism and the emphasis on international organizations to guarantee national sovereignty were all long-term by-products of the congress system. A new synthesis of archival material, *The Congress System* is a fresh exploration of a key event in the history of International Relations and Diplomacy.

European Small States and the Role of Consuls in the Age of Empire Aryo Makko, 2019-12-09 In *European Small States and the Role of Consuls in the Age of Empire* Aryo Makko argues that Sweden and Norway participated in the New Imperialism in the late 18th and early 19th centuries through consular services. Usually portrayed as nations without an imperial past, Makko demonstrates that their role in the processes of imperialism and colonialism during that period can be understood by including consular affairs and practices of informal imperialism into the analysis. With this, he contributes to our understanding of the role of smaller states in the so-called Age of Empire. Aryo Makko, Ph.D. 2012, Stockholm University, is Associate Professor of History at that university and a Pro Futura Scientia Fellow at the Swedish Collegium for Advanced Study (SCAS). He is also a member of the Young Academy of Sweden.

Europe and the British Geographical Imagination, 1760-1830 Paul Stock, 2019-10-03 *Europe and the British Geographical Imagination 1760-1830* explores what literate British people understood by the word Europe in the late eighteenth and early nineteenth centuries. Was Europe unified by shared religious heritage? Where were the edges of Europe? Was Europe primarily a commercial network or were there common political practices too? Was Britain itself a European country? While intellectual history is concerned predominantly with prominent thinkers, Paul Stock traces the history of ideas in non-elite contexts, offering a detailed analysis of nearly 350 geographical reference works, textbooks, dictionaries, and encyclopaedias which were widely read by literate Britons of all classes and can reveal the formative ideas about Europe circulating in Britain: ideas about religion, the natural environment, race, and other theories of human difference, the state borders, the identification of the centre and edges of Europe, commerce and empire, and ideas about the past, progress and historical change. By showing how these and other questions were discussed in eighteenth and nineteenth-century British culture, *Europe and the British*

Geographical Imagination 1760 1830 provides a thorough and much needed historical analysis of Britain's enduringly complex intellectual relationship with Europe

Our Friends the Enemies Christine Haynes, 2018-11-05 The Napoleonic wars did not end with Waterloo That famous battle was just the beginning of a long complex transition to peace After a massive invasion of France by more than a million soldiers from across Europe the Allied powers insisted on a long term occupation of the country to guarantee that the defeated nation rebuild itself and pay substantial reparations to its conquerors Our Friends the Enemies provides the first comprehensive history of the post Napoleonic occupation of France and its innovative approach to peacemaking From 1815 to 1818 a multinational force of 150 000 men under the command of the Duke of Wellington occupied northeastern France From military political and cultural perspectives Christine Haynes reconstructs the experience of the occupiers and the occupied in Paris and across the French countryside The occupation involved some violence but it also promoted considerable exchange and reconciliation between the French and their former enemies By forcing the restored monarchy to undertake reforms to meet its financial obligations this early peacekeeping operation played a pivotal role in the economic and political reconstruction of France after twenty five years of revolution and war Transforming former European enemies into allies the mission established Paris as a cosmopolitan capital and foreshadowed efforts at postwar reconstruction in the twentieth century
