*Landscape Interfaces* Hannes Palang, G. Fry, 2013-06-29 This book has been initiated by the workshop on Cultural heritage in changing landscapes held during the IALE International Association for Landscape Ecology European Conference that started in Stockholm Sweden in June 2001 and continued across the Baltic to Tartu Estonia in July The papers presented at the workshop have been supported by invited contributions that address a wider range of the cultural heritage management issues and research interfaces required to study cultural landscapes The book focuses on landscape interfaces Both the ones we find out there in the landscape and the ones we face while doing research We hope that this book helps if not to make use of these interfaces then at least to map them and bridge some of the gaps between them The editors wish to thank those people helping us to assemble this collection First of all our gratitude goes to the authors who

contributed to the book We would like to thank Marc Antrop Mats Widgren Roland Gustavsson Marion Pots chin Barbel Tress Tiina Peil Helen Soovali and Anu Printsman for their quick and helpful advice opinions and comments during the different stages of editing Helen Soovali and Anu Printsman together with Piret Pungas thank you for technical help *The Cultural Landscape & Heritage Paradox* Tom Bloemers, Henk Kars, Arnold Van der Valk, 2010 The basic problem is to what extent we can know past and mainly invisible landscapes and how we can use this still hidden knowledge for actual sustainable management of landscape s cultural and historical values It has also been acknowledged that heritage management is increasingly about the management of future change rather than simply protection This presents us with a paradox to preserve our historic environment we have to collaborate with those who wish to transform it and in order to apply our expert knowledge we have to make it suitable for policy and society The answer presented by the Protection and Development of the Dutch Archaeological Historical Landscape programme pdl bbo is an integrative landscape approach which applies inter and transdisciplinarity establishing links between archaeological historical heritage and planning and between research and policy *World Heritage Cultural Landscapes: A Handbook for Conservation and Management* gratuit, 2009 *The Cultural Landscapes of Port au Choix* M. A. P. Renouf, 2011-03-28 Newfoundland lies at the intersection of arctic and more temperate regions and commensurate with this geography populations of two Amerindian and two Paleoeskimo cultural traditions occupied Port au Choix in northern Newfoundland Canada for centuries and millennia Over the past two decades The Port au Choix Archaeology Project has sought a comparative understanding of how these different cultures each with their particular origin and historical trajectory adapted to the changing physical and social environments impacted their physical surroundings and created cultural landscapes This volume brings together the research of Renouf her colleagues and her students who together employ multiple perspectives and methods to provide a detailed reconstruction and understanding of the long term history of Port au Choix Although geographically focussed on a northern coastal area this volume has wider implications for understanding archaeological landscapes human environment interactions and hunter gatherer societies [The Conservation of Cultural Landscapes](#) Mauro Agnoletti, 2006-10-23 Landscape today is no longer just a cultural aspect intended as an elitist phenomenon but emerges as an essential element in the definition and the application of a modern approach in sustainable development Historical locally adapted distinctive and ingenious combinations of management practices have contributed and continue to contribute tremendously to the biodiversity of the world resulting not only in outstanding aesthetic beauty but in the sustained provision of multiple goods and services food and livelihood security and quality of life The development of policies to preserve and manage landscape resources has to face both the degradation of cultural landscape due to socio economic development and the need to develop appropriate methods and approaches This book presents different methodologies developed to analyse manage and plan landscape resources It reports recent research findings and case studies from Europe and North America suggesting also the revision

of some orientations and views of the current policies concerning forestry rural development and nature conservation often contributing to degrade cultural landscapes

**Cultural Landscapes of South Asia** Kapila Silva, Amita Sinha, 2016-10-14 Winner of the Environmental Design Research Association's 2018 Achievement Award The pluralism of South Asia belies any singular reading of its heritage In spite of this diversity its cultural traditions retain certain attributes that are at their core South Asian in their capacity to self organize enact and reinvent cultural memories and in their ability to retain an intimate connection with nature and landscape This volume focuses on the notion of cultural landscape as a medium integrating multiple forms of heritage and points to a new paradigm for conservation practices in the South Asian context Even though the construct of cultural landscape has been accepted as a category of heritage its potent use in heritage management in general and within the South Asian context in particular has not been widely studied The volume challenges the prevalent views of heritage management in South Asia that are entrenched in colonial legacies and contemporary global policy frameworks
