

The Hay System of Job Evaluation: A Critical Analysis

Muhammad Ali El-Hagg¹

Abstract

This paper provides an overall insight of the Hay System of job evaluation (Grade Chart – Profile Method). It answers the question of Hay's thinking behind his purpose to develop an alternative (and to his mind more effective) system for assessing and measuring jobs (particularly the non-executive management and executive jobs). The paper also provides an analytical view demonstrating how Hay constructed his system to give prominence within given structure and shows that his specific contribution lies in what he termed his three primary factors: Hay's thinking and his work experience underpinned the foundations upon which the design and the construction of this system were formed. Hence, this paper illustrates not only the Hay System in general terms but also refers to attached importance to each of its basic components such as job factors, his allocation of weightings, the importance of contributions made by each factor, his model for assigning given points to each factor and the degree of flexibility attached to his system. Moreover, the paper compares and contrasts the Hay System with other models of job evaluation. The paper also answers the question of what made the Hay System popular to the point of global recognition whilst simultaneously attracting the critics. One undeniable importance of testing his model lies not merely with a further details to both academia and the business sector as the teacher's upon which this work is constituted.

Recovering Protestantism's Original Insight Paul E. Capetz, 2023-04-20 In this engaging volume Capetz argues that Protestants have largely ignored Luther's heritage when it comes to thinking about biblical authority and instead have followed Calvin's biblicism leading to many intellectual and moral problems in the face of a fully historical critical understanding of the Bible in our time After prefacing the book with a personal story that illustrates what is at stake in this question for the church's pastoral ministry he examines in detail the debate between Barth an heir of Calvin and Bultmann a Lutheran regarding Sachkritik or content criticism of Scripture since their debate serves to clarify the central issue facing Protestants today He then traces their debate back to the Reformation itself to show how the difference between Luther and Calvin presented Protestants from the outset with two conflicting models of biblical authority He then reflects on how this question of the proper understanding of biblical authority manifests itself in the debates over sexual ethics that have plagued mainline denominations for the past four decades And he concludes by arguing that Luther's heritage provides Protestants with a viable way to engage in a robust theological interpretation of the Bible that does not violate what historical criticism has taught us about it
