The International Handbook Of Animal Abuse And Cruelty Theory Research And Application New Directions In The Human Animal Bond:

The International Handbook of Animal Abuse and Cruelty Frank R. Ascione, 2010 Animal abuse as a predictor of abuse against humans has been documented extensively Experts have explored alternatives to identify the early signs and stop the cycle This book offers an up to date compendium that covers the historical legal research and applied issues related to animal abuse and cruelty

Posthuman Folklore Tok Thompson, 2019-09-25 Can a monkey own a selfie Can a chimp use habeas corpus to sue for freedom Can androids be citizens Increasingly such difficult questions have moved from the realm of science fiction into the realm of everyday life and scholars and laypeople alike are struggling to find ways to grasp new notions of personhood Posthuman Folklore is the first work of its kind both an overview of posthumanism as it applies to folklore studies and an investigation of vernacular posthumanisms the ways in which people are increasingly performing the posthuman Posthumanism calls for a close investigation of what is meant by the term human and a rethinking of this our most basic ontological category What exactly is human What exactly am I There are two main threads of posthumanism the first dealing with the increasingly slippery slope between human and animal and the second dealing with artificial intelligences and the growing cyborg quality of human culture This work deals with both these threads seeking to understand the cultural roles of this shifting notion of human by centering its investigation into the performances of everyday life From funerals for AIBOs to furies to ghost stories told by Alexa people are increasingly engaging with the posthuman in myriad everyday practices setting the stage for a wholesale rethinking of our humanity In Posthuman Folklore author Tok Thompson traces both the philosophies behind these shifts and the ways in which people increasingly are enacting such ideas to better understand the posthuman experience of contemporary life

Intercultural Education Nektaria Palaologou, 2024-11-01 This edited collection highlights the diversity of perspectives within the broad field of intercultural education focusing on education in modern multicultural societies as well as exploring the role of migrant populations as modern citizens The chapters examine these themes both through historical analysis tracing the pathway of intercultural education back to ancient Greece before focussing on modern multicultural societies It also discusses

intercultural learning issues in multicultural contexts dynamic approaches and practical applications in modern classrooms and the main issues in teacher training in relation to immigrant students The volume highlights the need to design more effective social and educational policies for immigrant populations on the basis of respecting protecting and supporting all social groups irrelevant of their country of origin racial or ethnic background sexual orientation socio economic class or religious beliefs It brings together conceptual and empirical contributions from well known authors in the field as well as from younger scholars and researchers The result is a mixture of ideas that will provide food for thought and discussion to an international readership This book was originally published as a special issue of Intercultural Education How Our Love of Dogs Creates Social Conflict James K. Beggan,2022-09-07 For the last twenty thousand years dogs and people have shared a unique bond in the animal kingdom In How Our Love of Dogs Creates Social Conflict James K Beggan uses symbolic interaction to examine the meaning that dogs have for people as friends and family members Although many animal rights advocates express dismay over the subordinate status ownership implies the author argues that ownership creates a powerful psychological connection that makes it easier for people to imbue dogs with humanlike characteristics Beggan outlines how dogs sensitivity to inequity in combination with a high degree of cognitive capacity makes it possible for dogs to be active agents in creating conflict between people The author s analysis of social conflict between people over their dogs connects to profound philosophical concepts about the nature of mind the relationship between humans and animals and the moral responsibility human beings have to dogs and other animals *Innovative Interventions in Child and Adolescent Mental Health* Christine Lynn Norton,2010-09-13 *Innovative Interventions in Child and Adolescent Mental Health* is a unique composite of the literature on various innovative interventions for children and adolescents and provides a developmental and neurobiological rationale for utilizing innovative interventions with this population Based on the latest research this book emphasizes that children and adolescents need more than just talk therapy These innovative interventions can be applied in a variety of practice settings including schools juvenile justice community based counseling centers and residential treatment This book bridges the gap between theory and practice and provides a historical theoretical and research based rationale as well as a helpful case study for each type of intervention being discussed **Forthcoming Books** Rose Arny,2004

Cruelty to Animals and Interpersonal Violence Geoffrey Ribbans,1997 Contains 46 articles by various authors concerned with cruelty to animals and how that relates to violent human relations **Children and Animals** Frank R. Ascione,2005 Animal abuse has been an acknowledged problem for centuries but only within the past few decades has scientific research provided evidence that the maltreatment of animals often overlaps with violence toward people The variants of violence including bullying or assaults in a schoolyard child abuse in homes violence between adult intimate partners community hostility in our streets and neighborhoods and even the context of war are now the subject of concerted research efforts Very often the association of these forms of violence with cruelty to animals has been found The perpetrators

of such inhumane treatment are often children and adolescents How common are these incidents What motivates human maltreatment of animals Are there cultural societal neighborhood and family contexts that contribute to cruelty to animals How early in a child s life does cruelty to animals emerge and are these incidents always a sign of future interpersonal violence Are there ways of preventing such cruelty Can we intervene effectively with children who already have a history of abuse and violence Children and Animals Exploring the Roots of Kindness and Cruelty presents the current scientific and professional wisdom about the relation between the maltreatment of animals and interpersonal violence directed toward other human beings However the author Frank R Ascione a noted expert in these areas writes in a style and presents the findings in a language that will be understandable to parents teachers counselors clergy animal welfare professionals foster parents mental health professionals youth workers law enforcement professionals and anyone else whose work or interest crosses into the lives of children and adolescents

The Psychology of the Human-Animal Bond Christopher Blazina,Güler Boyraz,David Shen-Miller,2011-06-22 There have been dramatic increases in the financial emotional and psychological investment in pets over the past four decades The increasing importance of animal companions in people s lives has resulted in growing emphasis on the human animal bond within academic literature This book introduces practicing and emerging professionals to vital subject matter concerning this growing specialty area by providing an essential framework and information through which to consider the unique contextual backdrop of the human animal bond Such contexts include a wide array of themes including issues of attachment and loss success and frustration with making and sustaining connections world views regarding animal ethics familial history of neglect or abuse and cultural dynamics that speak to the order of things between mankind and nature Adopting a contextual stance will aid mental health professionals in appreciating why and how this connection has become a significant part of everyday life for many As with any other important clinical dynamic training and preparation are needed to gain competence for professional practice and research To this end an ensemble of international experts across the fields of psychology and mental health explore topics that will help both new and established clinicians increase and understanding of the various ways the human animal bond manifests itself Perspectives from beyond the scope of psychology and mental health such as anthropology philosophy literature religion and history are included to provide a sampling of the significant contexts in which the human animal bond is established What brings these divergent topics together in a meaningful way is their relevance and centrality to the contextual bonds that underlie the human animal connection This text will be a valuable resource that provides opportunities to deepen one s expertise in understanding the psychology of the human animal bond

Animal Cruelty and Freedom of Speech Abigail Perdue,Randall Lockwood,2014 A collaboration between an attorney and an animal protection advocate this work utilizes the extremely controversial and high profile crush video case US v Stevens to explore how American society attempts to balance the protection of free speech and the prevention of animal cruelty Starting from the detailed case study of a single prominent ruling the authors provide a

masterful survey of important issues facing society in the area of animal welfare The Stevens case included various hot topic elements connected to the role of government as arbiter of public morality including judicial attitudes to sexual deviance and dogfighting Because it is one of only two animal rights cases that the US Supreme Court has handled and the only case discussing the competing interests of free speech and animal cruelty it will be an important topic for discussion in constitutional and animal law courses for decades to come The Stevens case arose from the first conviction under 18 USC 48 Section 48 a federal law enacted in 1999 which criminalized the creation sale and or possession of certain depictions of animal cruelty The US Congress intended Section 48 to end the creation and interstate trafficking of depictions of animal cruelty in which animals are abused or even killed for entertainment s sake Proponents of Section 48 predicted that countless benefits to both humans and animals would flow from its enforcement Opponents of the law argued that it was too far reaching and would stifle protected speech Critics of Section 48 appeared to have prevailed when the US Supreme Court struck the law down as unconstitutionally overbroad Although a law tailored to address the Supreme Court s concerns was quickly enacted the free speech animal cruelty controversy is far from over

The Palgrave International Handbook of Animal Abuse Studies Jennifer Maher,Harriet Pierpoint,Piers Beirne,2017-07-12 This Handbook fills a large gap in current scholarly literature on animal abuse studies It moves considerably beyond the debate that has traditionally dominated the discourse of animal abuse the link between one on one interpersonal violence and animal abuse and towards those institutionalised forms of animal abuse which are routine everyday socially acceptable and invisibilised Chapters from expert

contributors raise issues such as the use of animals as edibles vivisection animal sexual assault animals used in sport and hunting animal trafficking the use of animals by youth gangs by other groups and in war species extinction and the passivity of national and international organisations in combating animal abuse The Handbook is a unique text it is essential reading for students researchers academics activists and policy makers involved in understanding and preventing animal abuse

Transforming Trauma Philip Tedeschi, Molly Anne Jenkins, 2019-07-15 Have you ever looked deep into the eyes of an animal and felt entirely known Often the connections we share with non human animals represent our safest and most reliable relationships offering unique and profound opportunities for healing in periods of hardship This book focuses on research developments models and practical applications of human animal connection and animal assisted intervention for diverse populations who have experienced trauma Physiological and psychological trauma are explored across three broad and interconnected domains 1 child maltreatment and family violence 2 acute and post traumatic stress including military service war and developmental trauma and 3 times of crisis such as the ever increasing occurrence of natural disasters community violence terrorism and anticipated or actual grief and loss Contributing authors who include international experts in the fields of trauma and human animal connection examine how our relationships with animals can help build resiliency and foster healing to transform trauma A myriad of animal species and roles including companion therapy and service animals are discussed Authors also consider how animals are included in a variety of formal and informal models of trauma recovery across the human lifespan with special attention paid to canine and equine assisted interventions and psychotherapy In addition authors emphasize the potential impacts to animals who provide trauma informed services and discuss how we can respect their participation and implement best practices and ethical standards to ensure their well being The reader is offered a comprehensive understanding of the history of research in this field as well as the latest advancements and areas in need of further or refined investigation Likewise authors explore in depth emerging practices and methodologies for helping people and communities thrive in the face of traumatic events and their long term impacts As animals are important in cultures all over the world cross cultural and often overlooked animal assisted and animal welfare applications are also highlighted throughout the text

Brute Force Arnold Arluke, 2007 *Brute Force* looks at people having the most contact with everyday animal abuse humane law enforcement officers who are charged with enforcing anti cruelty statutes The author spent one year studying 30 animal cops and dispatchers in two large cities They see themselves as a power for the helpless a voice for the mute On the job experience changes this view Rather than fighting the good fight against egregious cases of cruelty they are overwhelmed with complaints that are ambiguous and must be stretched to qualify as legally defined abuse or with complaints of barking dogs or thin pets that are used in interpersonal disputes to get neighbors or spouses into trouble Even more discouraging to officers are clear cut and extreme cases of cruelty that do not lead to guilty verdicts or stiff penalties in court Resulting cynicism is aggravated when rookies realize that they are seen as

second rate wannabe cops or closet animal extremists With little legitimate authority to enforce the law animal cops become humane educators who try to make people into responsible pet owners *The Routledge International Handbook of Human-Animal Interactions and Anthrozoology* Aubrey H. Fine, Megan K. Mueller, Zenithson Y. Ng, Alan M. Beck, Jose M. Peralta, 2023-09-26 This diverse global and interdisciplinary volume explores the existing research practice and ethical issues pertinent to the field of human animal interactions HAIs interventions and anthrozoology focusing on the perceived physical and mental health benefits to humans and the challenges derived from these relationships The book begins by exploring the basic theoretical principles of anthrozoology and HAI such as the evolution and history of the field the importance of language the economic costs and current perspectives to physical and mental wellbeing the origins of domestication of animals anthropomorphism and how animals fit into human societies Chapters then move onto practice covering topics such as how animals help childhood and adulthood development pet ownership disability the roles of pets for people with psychiatric disorders the links between animal and domestic abuse and then more widely into the therapeutic roles of animals animal assisted therapies interactions outside the home working animals animals in popular culture and animals in research for leisure and food Including chapters on a wide range of animals from domesticated pets to wildlife this collection examines the benefits yet also reveals the complexity and often dark side of human animal relations Interweaving accessible commentaries with revealing chapters throughout the text this collection would be of great interest to students and practitioners in the fields of mental health psychology veterinary medicine zoology biology social work history and sociology
