Human Trafficking in Africa Alecia Dionne Hoffman, Sabella Ogbobode Abidde, 2021-12-13 This edited volume examines the contemporary practice of human trafficking on the African continent. It investigates the scourge of human trafficking in Africa from the broader international and regional perspectives as well as from a country specific context. Written by a multi disciplinary panel of academics and practitioners the book is divided into three sections that highlight a wide range of issues. Section One examines the theoretical and legal challenges of trafficking. Section Two focuses on the regional and nation state perspectives of human trafficking along with selected cases of trafficking. Section Three highlights the impact of trafficking on youth with specific attention given to child soldiering and female victims of trafficking. Providing a multi faceted approach to a problem that crosses multiple disciplines this volume will be useful to scholars and students interested in African politics, African studies, migration, human rights, sociology, law and economics as well as members of the diplomatic corps, governmental, intergovernmental and non governmental organizations.

Children's rights in crisis Salvador Santino Regilme, 2024-06-18 This book rigorously investigates the contemporary state of children's rights and the multifaceted challenges facing children, uncovering the complexities at their core. In 1989 the United Nations introduced the Convention on the Rights of the Child (CRC) ratified by 196 nations promising a world where children's rights would reign supreme. In practice however realising these rights proves intricate and often precarious. Policies may shine on paper but their implementation grapples with the challenges posed by global governance structures, national strategies and local factors. Over three decades since the CRC's inception this book scrutinises the true efficacy of international commitments, shedding light on underexplored issues and revealing shortcomings in both discourse and actions. With diverse interdisciplinary perspectives it recognises the profound influence of global and transnational forces in generating outcomes that impact children's rights and welfare. An electronic edition of this book is freely available under a Creative Commons CC BY-NC-ND licence.

Tools of War, Tools of State Robert Tynes, 2018-09-01 Examines why many governments, rebels and terrorist organizations are using children as soldiers.
